Risk Management Michael Frenkel, Ulrich

Hommel, Markus Rudolf, 2013-06-29 Michael Frenkel Ulrich Hommel Markus Rudolf This volume has been written in honor of Gunter Dufey who has dedicated his professional career to the advancement of international business education around the globe and who has done much to improve our understanding of risk management as a challenge as well as an opportunity for shareholder value driven enterprises The editors have used his 60th birthday at the beginning of the new millennium as a welcome opportunity to honor his lifelong commitment to research university teaching and executive training We have done so by bringing together a select group of individuals who have joined us in an effort to highlight the most recent developments as well as the immediate challenges in the field of risk management The contributors have all been influenced by Gunter Dufey's work as students co authors faculty colleagues and fellow researchers The collection of papers contained in this volume bears witness to his mentoring role and builds on his own research agenda Throughout his professional career Gunter Dufey has been regarded as the prototype of the global citizen by his friends and colleagues

Interest Rate Risk Management Christine Helliar, 2005-05-04 Financial risk management is currently subject to much debate especially the accounting for derivative products and a number of commentators are objecting to the introduction of International Accounting Standard IAS 39 for Derivatives that will be in force by January 2005 for all EU companies The topic of hedge accounting and the treatment of fair values may have a significant impact on many companies' reported profits and the volatility of earnings is likely to increase Uniquely this monograph focuses on interest rate risk management Most studies of corporate risk management have typically dwelt on the topic of management of exchange rate risk with interest rate risk management being neglected The book's findings examine the views of UK corporate treasurers who are usually involved in the risk management strategies of their organisation and who have responsibility for implementing those strategies in

practice The research is the first comprehensive UK study on this area Relevant to the imminent arrival of IAS 39 the International Accounting Standard for Derivatives that will be in force by January 2005 for all EU companies The findings of the book have implications for government policy and regulators
