**A New Science of the Afterlife** Daniel Drasin,2023-06-13 Reveals how the continuity of consciousness beyond the physical body can be objectively demonstrated Explores 15 promising avenues of post materialist scientific investigation currently underway Provides a succinct account of the experience of transition to the next life and what one might expect when one arrives there Explains how materialism has prevented us from realizing a deeper understanding of the nature of space time life death and consciousness Sharing his more than three decades of research into the afterlife and paranormal phenomena award winning documentary filmmaker Daniel Drasin shows that the continuity of human consciousness beyond the physical body and after death constitutes a legitimate area of scientific inquiry and that it can be objectively demonstrated Drasin begins by revealing how our belief in materialism through its effects on our social norms taboos and even language has deeply constrained our civilization s understanding of the nature of space time life death and consciousness However as Drasin explains our deeply ingrained cultural habits tied to materialism have begun to

change He explores 15 promising post materialist scientific investigations currently underway focusing in depth on three examples that offer the most objectively irrefutable evidence for the survival of consciousness including electronic audio and visual communications from the other side the groundbreaking five year Scole Experiment in physical mediumship and the profoundly evidential reincarnation case of James Leininger Looking at how language frames our perceptions about life and death the author presents thought experiments and simple exercises to help us see through materialist ideology and perceive a broader landscape of reality He provides a succinct account of the experience of transition to the next life and explores what the afterlife is made of where it s located how it works and what it s for Drasin shows how by thinking and speaking about death and the survival of consciousness in new ways we can facilitate a clearer more relaxed comfortable and rational conversation about what awaits us all sooner or later on the other side of life *On the Edge of Reality* Colin

*The Great Big Book of Ghosts* Robert J Dornan,2024-07-18 The book you are about to read is a reference book that you can turn to for decades to come I made sure to add fifty true ghost stories from across the globe to spice up the book against the chapters of informative research I should mention that the ghost stories other than the London Tower are in a random order so as to eliminate country repetition You ll notice that no matter what country is being represented the stories all have similar backdrops meaning that ghosts are not only universal but far from unique to any specific culture Nor are they limited to a group of countries Every nation in the world has their own legends and haunted homes castles or battlefields I enjoyed every second of creating this reference book and I sincerely hope it is a learning experience for you as well as a thought provoking or creative muse to writers poets and filmmakers If you are someone considering a career in the paranormal or paranormal investigation you must read this book instead of relying on video nonsense Enjoy and try not to read too much before sleeping as many of these stories are not only engrossing but also horrifying      Radical Transformation Imants

Barušs,2021-01-28 In *Radical Transformation* Imants Baru s leads the reader out of the receding materialist paradigm into an emerging post materialist landscape in which new questions present themselves If consciousness has nonlocal properties then how are boundaries between events established If consciousness directly modulates physical manifestation then what is the scope of such modulation If consciousness continues after physical death then how much interference is there from non physical entities As we face the threat of extinction on this planet is there anything in recent consciousness research that can help us Are there effective means of self transformation that can be used to enter persistent transcendent states of consciousness that could resolve existential and global crises The author leads the reader through discussions of meaning radical transformation and subtle activism revealing the unexpected interplay of consciousness and reality along the way

**Messages** George E. Dalzell,2002-02-01 This personal account of contact with the spirit realm offers insight into the mysteries of death and concrete evidence that life continues on For most of his adult life therapist George Dalzell didn t believe in contact beyond the grave But his perspective on reality was forever shifted after his friend Michael was killed Dalzell had counseled people who claimed to hear voices Now he was hearing a voice himself one that was unmistakably Michael The voice revealed information about Michael s private life and possessions Other phenomena followed including apparitions of Michael and rose petals left in the pattern of an angel And Dalzell wasn t alone Michael opened the channels to seven friends and family members providing incontrovertible signs that prove he was communicating with them In *Messages* Dalzell adds indisputable confirmation of life after death His uplifting story can offer comfort to grieving families and calm our fears of passing into the next realm      **Rigorous Intuition** ,2008-10-01 A welcome source of analysis and commentary for those prepared to go deeper and darker than even most alternative media permit this collection from one of the most popular conspiracy theory arguments on the internet will assist readers in clarifying their own arguments and recognizing

disinformation Tackling many of the most difficult subjects that define our time including 9 11 the JonBenet Ramsey case and High Weirdness these studies containing the best of the Rigorous Intuition blog as well as original content make connections that both describe the current alarming predicament and suggest a strategy for taking back the world Following the maxim What you don't know can't hurt them this assortment of essays and tools including the updated and expanded Coincidence Theorists Guide to 9 11 guides the intellectually curious down further avenues of study and scrutiny and helps readers feel empowered rather than vulnerable [How To Write a Chiller Thriller](#) Sally Spedding,2014-04-25 Have you dreamt of becoming a thriller writer but not dared to do so because of lack of self belief or the necessary time or both Are you also a thriller reader who has been disappointed by the sameness and lack of ambition in what you've read If so this book will help you create chiller thrillers with a difference with memorable characters and truly chilling plots drawing not only from the past and present but the future too From horror and the paranormal to equally disturbing scientific and hi tech developments Bravery is the key So come on board [The Immortalization Commission](#) John Gray,2025-06-25 A Globe and Mail Best Books of the Year 2011 Title At the heart of human experience lies an obsession with the nature of death Religion for most of history has provided an explanation for human life and a vision of what comes after it But in the late nineteenth and early twentieth centuries such beliefs came under relentless pressure as new ideas from psychiatry to evolution to communism seemed to suggest that our fate was now in our own hands humans could cease to be animals defeat death and become immortal In The Immortalization Commission the acclaimed political philosopher and critic John Gray takes a brilliant and frightening look at humankind's dangerous striving toward a scientific version of immortality Probing the parallel faiths of Bolshevik God builders who sought to reshape the planet and psychical researchers who believed they had evidence of a nonreligious form of life after death Gray raises fascinating questions about how such beliefs threaten the very nature of what it means to be human He looks to philosophers journalists politicians charlatans and mass murderers who all felt driven by a specifically scientific and modern worldview and whose revolt against death resulted in a series of experiments that ravaged whole countries An urgent examination of Darwin's post religious legacy The Immortalization Commission is an important work from one of Britain's leading public intellectuals The Wall Street Journal **It Won't Rain Because There's Nothing to Stop It** Gary Holgate,2018-06-29 So why did I really write this book It dawned on me as I thought about my life in particular the early years how I demonstrated acts of spirituality without really knowing it This started with my acknowledgment of a force of energy larger than myself yet still small enough to make a difference in my life The use of the law of attraction or Secret was an interaction with the universe albeit for juvenile materialistic gain I am not ignorant enough to believe that I am alone with these stories I just don't think we realize or recognize our own spiritual interactions as they are often lost within the hustle and bustle of our lives This book covers many topics some mainstream others not so much but all relatable I wanted to demonstrate through my own experiences that you could explore your own adventure just by

exploring your own untold stories that comprise your life

book developed from my gradual realization that spirituality was a normal characteristic in the human race but that in recent millennia it had regressed in the everyday awareness of most people especially those belonging to what they regarded as a cultural society Only so called primitive peoples retained a spiritual outlook My book describes how this has come about especially the negative influence of organized religions on individual spirituality and the resulting deterioration in most human societies Finally I suggest how mankind can become again spiritual during their Earth lives Michael Higgins
