Bureau of Foreign and Domestic Commerce,1919 *American Lumberman* ,1904 **Monthly Summary of Commerce and Finance of the United States** ,1909 *Caritas* Katie Barclay,2021-01-28 Caritas a form of grace that turned our love for our neighbour into a spiritual practice was expected of all early modern Christians and corresponded with a set of ethical rules for living that displayed one's love in the everyday Caritas was not just a willingness to behave morally to keep the peace and to uphold social order however but was expected to be felt as a strong passion like that of a parent to a child Caritas Neighbourly Love and the Early Modern Self explores the importance of caritas to early modern communities introducing the concept of the emotional ethic to explain how neighbourly love become not only a code for moral living but a part of felt experience As an emotional ethic caritas was an embodied norm where physical feeling and bodily practices guided right action and was practiced in the choices and actions of everyday life Using a case study of the Scottish lower orders this book highlights how caritas shaped relationships between men and women families and the broader community Focusing on marriage childhood and youth sinful sex privacy and secrecy and hospitality towards the itinerant poor Caritas provides a rich analysis of the emotional lives of the poor and the embodied moral framework that guided their behaviour Charting the period 1660 to 1830 it highlights how caritas evolved in response to the growing significance of romantic love as well as new ideas of social relation between men such as fraternity and benevolence **The Innes Review** ,2002 A journal of Scottish history Appleton's European Guide Book for English-speaking Travellers ,1886 **On the Parish?** Steve Hindle,2004-08-05 On the Parish is a study of the negotiations which took place over the allocation of poor relief in the rural communities of sixteenth seventeenth and early eighteenth century England It analyses the relationships between the enduring systems of informal support through which the labouring poor made attempts to survive for themselves the expanding range of endowed charity encouraged by the late sixteenth century statutes for charitable uses and the developing system of parish relief co-ordinated under the Elizabethan poor laws Based on exhaustive research in the archives of the trustees who administered endowments of the overseers of the poor who assessed rates and distributed pensions of the magistrates who audited and co-ordinated relief and of the royal judges who played such an important role in interpreting the Elizabethan statutes the book reconstructs the hierarchy of provision of relief as it was experienced among the poor themselves It argues that receipt of a parish pension was only the final and by no means the inevitable stage in a protracted process of negotiation between prospective pensioners or collectioners as they came to be called and parish officers This running theme is itself reflected in a series of chapters whose sequence seeks to mirror the experience of indigence moving gradually and by stages from the networks of care provided by kin and neighbours

into the bureaucracy of the parish relief system emphasising in particular the importance of labour discipline in the thinking of parish officers By illuminating the workings of a relief system in which notions of entitlement were both under developed and contested On the Parish provides historical perspective for contemporary debates about the rights and obligations of the poor in a society where the dismantling of the welfare state implies that there is once again no right to relief from cradle to grave
