Scotland He investigates why the Earlier Neolithic in Scotland is characterised by regionally distinct monumental traditions and asks if these reflect different conceptions of the world He uses a long term perspective to explain the nature of monumental landscapes in the Later Neolithic and considers whether Neolithic society as a whole might have been created and maintained through interactions at places where large scale monuments were built He ends by considering how the Neolithic was transformed in the Early Bronze Age through the manipulation of the material remains of the past Neolithic Scotland provides a comprehensive approachable and up to date account of the Scottish Neolithic Such a book has not been available for many years It will be widely welcomed *Scotland's Share in Civilizing the World* William James
