Scotland in the Age of Improvement Nicholas T. Phillipson, Rosalind Mitchison, 1970      **Scottish Town in the Age of the Enlightenment 1740-1820** Bob Harris, 2014-08-04 This heavily illustrated and innovative study is founded upon personal documents town council minutes legal cases inventories travellers tales plans and drawings relating to some 30 Scots burghs of the Georgian period It establishes a distinctive and much needed history for the development of Georgian Scots burghs      *Cultures of Improvement in Scottish Romanticism, 1707-1840* Alex Benchimol, Gerard Lee McKeever, 2018-04-17 The first applied research volume in Scottish Romanticism this collection foregrounds the concept of progress as improvement as a constitutive theme of Scottish writing during the long eighteenth century It explores improvement as the animating principle behind Scotland's post 1707 project of modernization a narrative both shaped and reflected in the literary sphere It represents a vital moment in Romantic studies as a four nations interrogation of the British context reaches maturity Equally the volume contributes to a central concern in the study of Scottish culture amplifying a critical synthesis of Romanticism and Enlightenment Chapter 9 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license      **Scotland and the British Army, 1700-1750** Victoria Henshaw, 2014-06-05 The wholesale assimilation of Scots into the British Army is largely associated with the recruitment of Highlanders during and after the Seven Years War This important new study demonstrates that the assimilation of Lowland and Highland Scots into the British Army was a salient feature of its history in the first half of the 18th century and was already well advanced by the outbreak of the Seven Years War *Scotland and the British Army 1700-1750* analyses the wider policing functions of the British Army the role of Scotland's militia and the development of Scotland's military roads and institutions to provide a fuller understanding of the purpose and complexity of Scotland's military organisation and presence in Scotland in the turbulent decades between the Glorious Revolution and the defeat of Bonnie Prince Charlie which has been too often simplified as an army of occupation for the suppression of Jacobitism Instead Victoria Henshaw reveals the complexities and difficulties experienced by Scottish soldiers of all ranks in the British Army as nationality loyalty and prejudice clouded Scottish desires to use military service to defend the Glorious Revolution and the Union of 1707      **Scottish Men of Letters and the New Public Sphere, 1802-1834** Barton Swaim, 2009 Each of the writings this book deals with were influenced by and capitalized on certain aspects of Scottish culture in the late 18th and early 19th centuries and those cultural influences combined to forge a rhetorical approach that practically guaranteed the Scottish men of letters a dominant place in the public sphere This book covers the Edinburgh Review in and as the public sphere 1802-08 Christopher North and the review essay as conversational exhibition Lockhart's modified amateurism and the shame of authorship and the Presbyterian sermon Carlyle's homiletic essays and Scottish periodical writing      **Eighteenth Century Britain** Nigel Yates, 2014-06-11 The church of the

eighteenth century was still reeling in the wake of the huge religious upheavals of the two previous centuries Though this was a comparatively quiet period this book shows that for the whole period religion was a major factor in the lives of virtually everybody living in Britain and Ireland Yates argues that the established churches Anglican in England Ireland and Wales and Presbyterian in Scotland were an integral part of the British constitution an arrangement staunchly defended by churchmen and politicians alike The book also argues that although there was a close relationship between church and state in this period there was also limited recognition of other religions This led to Britain becoming a diverse religious society much earlier than most other parts of Europe During the same period competition between different religious groups encouraged ecclesiastical reforms throughout all the different churches in Britain The Creation of the Modern World Roy Porter, 2000 This engagingly written new work highlights Britain's long underestimated and pivotal role in disseminating the ideas and culture of the Enlightenment Moving beyond the numerous histories centered on France and Germany the acclaimed social historian Roy Porter explains how monumental changes in thinking in Britain influenced worldwide developments Here is a splendidly imaginative work that propels the debate forward and makes a valuable point New York Times Book Review

The Formation of College English Thomas P. Miller, 1997 In the middle of the eighteenth century English literature composition and rhetoric were introduced almost simultaneously into colleges throughout the British cultural provinces Professorships of rhetoric and belles lettres were established just as print was reaching a growing reading public and efforts were being made to standardize educated taste and usage The provinces saw English studies as a means to upward social mobility through cultural assimilation In the educational centers of England however the introduction of English represented a literacy crisis brought on by provincial institutions that had failed to maintain classical texts and learned languages Today as rhetoric and composition have become reestablished in the humanities in American colleges English studies are being broadly transformed by cultural studies community literacies and political controversies Once again English departments that are primarily departments of literature see these basic writing courses as a sign of a literacy crisis that is undermining the classics of literature The Formation of College English reexamines the civic concerns of rhetoric and the politics that have shaped and continue to shape college English

*Armies and Political Change in Britain, 1660-1750* Hannah Smith, 2021 Armies and Political Change in Britain 1660 1750 explores significant continuities and developments in the armed forces across the reigns of seven monarchs using a vivid and extensive array of archival literary and artistic material to present a new perspective on the political and military history of Britain

*The Spirit of Industry and Improvement* Danny Samson, 2008 The notion of improvement permeated social and political discourse in colonial Canadian society From agriculture to building roads and mills to defining correct habits and behaviour Nova Scotia's improvers embraced the ideals of innovation and progress and promoted modern programs of government Daniel Samson moves Nova Scotia and rural Canada from the colonial margins to the heart of a modernizing society showing how the countryside functioned as a centre of change and innovation He connects a fascinating spectrum of sites actors and strategies and links settlement farm building rural market formation and early industrialization to the heterogeneous strategies of families and state actors the rural poor and rural elites The Spirit of Industry and Improvement presents the first ever overview of rural colonial Nova Scotia and provides compelling insights into the formation of modern liberal practices of government and self government in British North America

*A Land of Liberty?* Julian Hoppit, 2000 The Glorious Revolution of 1688 9 was a decisive moment in England's history an invading Dutch army forced James II to flee France and his son in law and daughter William and Mary were crowned as joint sovereigns The wider consequences were no less startling war in Ireland union with Scotland Jacobite intrigue deep involvement in two major European wars Britain's emergence as a great power a financial revolution greater religious toleration a riven Church and the rapid growth of parliamentary government Such changes were only part of the transformation of English society at the time A torrent of new ideas from such figures as Newton Defoe and Addison spread through newspapers periodicals and coffee houses provided new views and values that some embraced and others loathed

England's horizons were also growing especially in the Caribbean and American colonies. For many however the benefits were uncertain the slave trade flourished inequality widened and the poor and disorderly were increasingly subject to strictures and statutes. If it was an age of prospects it was also one of anxieties. This new text provides a truly general overview of England between the Glorious Revolution and the death of George I and Newton. Part of the New Oxford History of England series it is a wide ranging survey that combines the rich secondary literature with extensive primary research. It looks at politics religion economy society and culture and seeks to place England in its British European and world contexts. It includes an annotated bibliography and will prove invaluable to a wide range of students of the period. The Scientific Revolution in National Context Roy Porter, 1992-09-25 The scientific revolution of the sixteenth and seventeenth century continues to command attention in historical debate. Controversy still rages about the extent to which it was essentially a revolution of the mind or how far it must also be explained by wider considerations. In this volume leading scholars of early modern science argue the importance of specifically national contexts for understanding the transformation in natural philosophy between Copernicus and Newton. Distinct political religious cultural and linguistic formations shaped scientific interests and concerns differently in each European state and explain different levels of scientific intensity. Questions of institutional development and of the transmission of scientific ideas are also addressed. The emphasis upon national determinants makes this volume an interesting contribution to the study of the Scientific Revolution. *Highland Shepherd* Alan Wilson, 2015-07-27 In 1786 the Reverend James MacGregor 1759-1830 was dispatched across the North Atlantic to establish a dissenting Presbyterian church in Pictou Nova Scotia. The decision dismayed MacGregor who had hoped for a post in the Scottish Highlands. Yet it led to a remarkable career in what was still the backwoods of colonial North America. Industrious and erudite MacGregor established the progressive Pictou Academy opposed slavery and promoted scientific education agriculture and industry. Poet and translator fluent in nine languages he encouraged the preservation of the Gaelic language and promoted Scottish culture in Nova Scotia. *Highland Shepherd* finally bestows on MacGregor the recognition that he so richly deserves. Alan Wilson brings MacGregor and his surroundings to life detailing his numerous achievements and establishing his importance to the social religious and intellectual history of the Maritimes. The Correspondence of Adam Ferguson Vol 1 Vincenzo Merolle, Jane B Fagg, 2024-10-28 This Pickering edition of Adam Ferguson's correspondence contains over 400 letters most of which have never before been published. The correspondence includes letters between Ferguson and Adam Smith David Hume and Alexander Carlyle and many other central figures of the Scottish Enlightenment.

**Traditional Gaelic Bagpiping, 1745-1945** John G. Gibson, 1998-09-30 The bagpipe is one of the cultural icons of Scottish highlanders but in the twentieth century traditional Scottish Gaelic piping has all but disappeared. Few recordings were ever made of traditional pipe music and there are almost no Gaelic speaking pipers of the old school left. Recording an important aspect of Gaelic culture before it disappears John Gibson chronicles the decline of traditional Highland Gaelic

bagpiping and Gaelic culture as a whole and provides examples of traditional bagpipe music that have survived in the New World Pulling together what is known of eighteenth century West Highland piping and pipers and relating this to the effects of changing social conditions on traditional Scottish Gaelic piping since the suppression of the last Jacobite rebellion Gibson presents a new interpretation of the decline of Gaelic piping and a new view of Gaelic society prior to the Highland diaspora Refuting widely accepted opinions that after Culloden pipes and pipers were effectively banned in Scotland by the Disarming Act 1746 Gibson reveals that traditional dance bagpiping continued at least to the mid nineteenth century He argues that the dramatic depopulation of the Highlands in the nineteenth century was one of the main reasons for the decline of piping Following the path of Scottish emigrants Gibson traces the history of bagpiping in the New World and uncovers examples of late eighteenth century traditional bagpiping and dance in Gaelic Cape Breton Nova Scotia He argues that these anachronistic cultural forms provide a vital link to the vanished folk music and culture of the Scottish highlanders This definitive study throws light on the ways pipers and piping contributed to social integration in the days of the clan system and on the decline in Scottish Gaelic culture following the abolition of clans It also illuminates the cultural problems faced by all ethnic minorities assimilated into unitary multinational societies

**Romanticism, Economics and the Question of 'culture'** Philip Connell, 2005 Drawing upon a wide range of source material this study reassesses the idea that the Romantic defence of spiritual and humanistic culture developed as a reaction to the perceived individualistic philistine values of the science of political economy

**Robert and James Adam, Architects of the Age of Enlightenment** Ariyuki Kondo, 2015-10-06 During the second half of the eighteenth century British architecture moved away from the dominant school of classicism in favour of a more creative freedom of expression At the forefront of this change were architect brothers Robert and James Adam Kondo's work places them within the context of eighteenth century intellectual thought
