Scotland Yard A Study Of The Metropolitan Police:

Scotland Yard Peter Laurie, 1970 *The Metropolitan Police and the British Film Industry, 1919-1956* Alex Rock, 2023-06-15 This groundbreaking book investigates the murky relationship between the Metropolitan Police Press Bureau and the British film industry shedding new light on police media relations Beginning with the culture of suppression during the interwar period when retired police inspectors were threatened with loss of pension should they become involved with the film industry the relationship shifted when a forgotten pioneer of public relations Percy Fearnley was appointed to the role of Metropolitan Police Public Information Officer in 1945 Fearnley was the first ever journalist to take up this role and through him the Metropolitan Police embarked on a series of collaborations with the highest echelons of postwar British cinema including J Arthur Rank Ealing Studios and Gainsborough Studios Using newly declassified internal Metropolitan Police and Home Office correspondence Alexander Charles Rock tells the story of the Metropolitan Police's project to manipulate the British film industry into producing propaganda under the guise of mainstream entertainment cinema In doing so he offers a radical re-reading of the context of production of a number of canonical British films such as *The Blue Lamp* 1950 *I Believe In You* 1952 and *Street Corner* 1953 **The Bombay City Police: A Historical Sketch, 1672-1916**

S. M. Edwardes, 2022-07-21 This interesting book covers the history of the law enforcement officials who manage the city of Bombay India present day Mumbai during its colonial era Until 1655 Bombay was under Portuguese control The Portuguese formed a basic law enforcement structure in this area with the establishment of a Police outpost in 1661 After the cementing of British Rule in India after the 1857 war of Indian Independence in 1864 the three Presidency towns of Bombay Calcutta and Madras were given Commissioners of Police *Document Retrieval Index*, 1974 **Police Research in the Federal**

Ross, 2004 Seventy percent of all IT projects fail and scores of books have attempted to help firms measure and manage IT systems and processes better in order to turn this figure around In this book IT experts Peter D Weill and Jeanne W Ross argue that the real reason IT fails to deliver value is that companies have no formal system in place for guiding and monitoring IT decisions Their research shows that firms with explicit IT

governance systems have twice the profit of firms with poor governance given the same strategic objectives Just as corporate governance systems aim to ensure quality decisions about corporate assets the authors show companies need IT governance systems to ensure that IT investments are made wisely and effectively **Law Enforcement Information Technology**

and Mary Jane Kelly had not fallen to his knife their names would have been lost to history Instead they themselves are as much a part of the folklore as their killer Then there are those who investigated the crimes the ordinary men doing their jobs as best they could who will always be associated with the failed attempts to catch this monster But if those crimes had happened today how would they be investigated and how would the approach differ There is no doubt how detectives work has changed dramatically over those 130 years Although in many senses things are very much the same Solving murders relies on an understanding of people be that the victims the witnesses and most importantly the killers themselves In Murder Investigation Team Jack the Ripper while journeying through these infamous murders through meticulous contemporary research witness statements and reporting ex detective Steven Keogh will revisit the crimes that were committed why these lives were taken and attempt to discover just who was Jack the Ripper Applying modern day investigative approaches to the 19th century investigation and with ground breaking insight from one of the UK s leading criminal profilers Pippa Gregory join Steven on a gruesome and incredible journey of discovery into one of the most infamous crimes in British history

of criminology's greatest mysteries **The New Police in the Nineteenth Century** Paul Lawrence, 2017-07-05 The period 1829-1856 witnessed the introduction of the New Police to Great Britain and Ireland. Via a series of key legislative acts, traditional mechanisms of policing were abolished and new, supposedly more efficient forces were raised in their stead. Subsequently, the introduction of the New Police has been represented as a watershed in the development of the systems of policing we know today. But just how sweeping were the changes made to the maintenance of law and order during the nineteenth century? The articles collected in this volume, written by some of the foremost criminal justice historians, show a process which, while cumulatively dramatic, was also at times protracted and acrimonious. There were significant changes to the way in which Britain and Ireland were policed during the nineteenth century, but these changes were by no means as straightforward or as progressive as they have at times been represented. Introduction to Policing Research Denise Martin, Stephen Tong, 2023-12-05 This book offers a first-hand insight into the work of policing scholars and the research that they undertake. Bringing together a range of leading scholars and drawing on a range of pressing topics, it introduces the diverse nature of policing research and the ethical and practical challenges faced by policing researchers. Each chapter brings clarity to the concept of empirical research within policing, introduces readers to the theoretical explanations and assumptions that underpin the rationale of research design in policing, as well as considering the limitations of research. Topics include research methods in police research, police professionalisation, police and diversity, police leadership, undercover policing, police and vulnerability, activist research, social media and policing. This revised and expanded new edition includes more focus on the role of research in policing, police and academic partnerships and practitioners as researchers, as well as a brand new section offering international perspectives on policing research. Brimming with practical examples, case studies, key learning points and practical advice, this book is essential reading for Professional Policing students, as well as early career researchers and those engaged with criminological research methods. Parents Killing Children Janice Sim, 2018-10-04 *Parents Killing Children: Crossing the Invisible Line* explores hidden forms of violence within the family. This socio-legal study addresses the interactions between the family and the state, focusing on six parent perpetrators and the ways in which child endangerment is concealed within society. Drawing on symbolic interactionism, mythology and a modelling of case study data, this book puts forward a unique conceptualisation of representation and risk, both on familial and state levels. The failure of the state to intervene and neutralise volatile perpetrators also sheds light on the socio-legal status of children, society's most vulnerable, and the book concludes by discussing means by which the underlying social conditions and maladies symptomatic of child abuse and killing should be addressed. **Library of Congress Catalogs** Library of Congress, 1976
