The Kingdom of the Isles R. Andrew McDonald, 2008-08-01 This study explores the history of the western seaboard of Scotland the Hebrides Argyll and the Isle of Man in a formative but often neglected era the central middle ages from the mighty Somerled to his descendant John MacDonald the first Lord of the Isles c 1336 Drawing on a variety of sources this very readable narrative deals with three major and closely interrelated themes first the existence of the Isles and coastal mainland as a kingdom from c 1100 to 1266 second the rulers of the region Somerled and his descendants the MacDougalls MacDonalds and MacRuairis and third the often complex relations among the Isles Scotland Norway and England A fully rounded history emerges which transcends national viewpoints While political history predominates the changing nature of society in the isles is emphasised throughout and separate chapters address the church and monasticism as well as the monuments the castles monasteries churches and chapels that form an enduring legacy **Scotland's Castles** C. Castles and Tower Houses of the Scottish Clans 1450-1650 Stuart Reid,2012-09-20 With the exception of the key royal sites such as Stirling and Edinburgh few Scottish castles were located at strategic points or were intended to house garrisons required to defend or subjugate towns Instead they were primarily fortified dwelling houses erected in an environment of weak Royal authority and endemic feuding between rival clans and groups in both Highland and Lowland areas Although some enceinte castles were developed during the 16th and 17th centuries most defensive construction focused on the tower house a distinctive vernacular style of Scottish fortification This book examines the design development and purpose of these quintessentially Scottish buildings and also covers larger sites such as Urquhart and Blackness
