Scottish Medieval Churches Architecture And Furnishings

Sarah Blick

Scottish Medieval Churches Architecture And Furnishings:

Scottish Medieval Churches Richard Fawcett, 2002 A major difficulty for those who wish to understand and enjoy Scottish medieval churches is the ecclesiological groundwork was not carried out in the nineteenth century in the way that was done for England and other parts of Europe In an effort to interpret what they see when visiting Scottish churches many people attempt to apply techniques of analysis they have learned from English publications but that way madness lies Even in the twelfth and eleventh centuries when architectural relationships between Lowland Scotland and England were close Scotland followed its own course in many respects while in the fourteenth fifteenth and sixteenth centuries Scottish architecture followed an almost completely different course from that of England The present ground breaking work makes good this deficit and analyses the planning and detailing of Scottish churches from 1120 to 1560 with hundreds of illustrated examples that can be firmly dated The result is a book that will be welcomed by scholars but equally importantly will also be treasured by the hundreds of thousands of ordinary church crawlers who value this aspect of Scotland s medieval heritage For them this book overdue by more than 100 years is a must

The Archaeology of Churches Warwick Rodwell, 2012-05-15 The definitive work on church archaeology

Medieval Art, Architecture and Archaeology in the Dioceses of Aberdeen and Moray Jane Geddes, 2016-04-14 Exploring the medieval heritage of Aberdeenshire and Moray the essays in this volume contain insights and recent work presented at the British Archaeological Association Conference of 2014 based at Aberdeen University The opening historical chapters establish the political economic and administrative context of the region looking at both the secular and religious worlds and include an examination of Elgin Cathedral and the bishops palaces The discoveries at the excavations of the kirk of St Nicholas which have revealed the early origins of religious life in Aberdeen city are summarized and subsequent papers consider the role of patronage Patronage is explored in terms of architecture the dramas of the Reformation and its aftermath highlighted through essentially humble parish churches assailed by turbulent events and personalities The collegiate church at Cullen particularly its tomb sculpture provides an unusually detailed view of the spiritual and dynastic needs of its patrons The decoration of spectacular ceilings both carved and painted at St Machar s Cathedral Provost Skene s House and Crathes Castle are surveyed through the eyes of their patrons and the viewers below Saints and religious devotion feature in the last four chapters focusing on the carved wooden panels from Fetteresso which display both piety and a rare glimpse of Scottish medieval carnal humour the illuminated manuscripts from Arbuthnott the Aberdeen Breviary and *Historia Gentis Scotorum* The medieval artistic culture of north east Scotland is both battered by time and relatively little known With discerning interpretation this volume shows that much high quality material still survives while the lavish illustrations restore some glamour to this lost medieval world

Church Building and Society in the Later Middle Ages Gabriel Byng, 2017-12-14 The construction of a church was undoubtedly one of the most demanding events to take place in the life of a medieval parish It required a huge outlay of time money and labour and often a new organisational

structure to oversee design and management Who took control and who provided the financing was deeply shaped by local patterns in wealth authority and institutional development from small villages with little formal government to settlements with highly unequal populations This all took place during a period of great economic and social change as communities managed the impact of the Black Death the end of serfdom and the slump of the mid fifteenth century This original and authoritative study provides an account of how economic change local politics and architecture combined in late medieval England It will be of interest to researchers of medieval socio economic and art history

Crusader Landscapes in the Medieval Levant, 2016-08-20 Written to celebrate the prestigious career of Professor Denys Pringle this collection of articles produced by many of the leading archaeologists and historians in the field of crusades studies offers a compilation of pioneering scholarship on recent studies on the Latin East The geographical breadth of topics discussed in each chapter reflects both Pringle's international collaborations and research interests and the wide development of scholarly interest in the subject With a concentration on the areas corresponding to the crusader states during the twelfth and thirteenth centuries the articles also offer research into the neighbouring areas of Cyprus Anatolia Greece and the West and the legacy of the crusader period there with results from recent archaeological fieldwork in the Middle East

The Formation of English Gothic Peter Draper, 2006-01-01 In this original account of architecture in England between c 1150 and c 1250 Peter Draper explores how the assimilation of new ideas from France led to an English version of Gothic architecture that was quite distinct from Gothic expression elsewhere The author considers the great cathedrals of England Canterbury Wells Salisbury Lincoln Ely York Durham and others as well as parish churches and secular buildings to examine the complex interrelations between architecture and its social and political functions Architecture was an expression of identity Draper finds and the unique Gothic that developed in England was one of a number of manifestations of an emerging sense of national identity The book inquires into such topics as the role of patrons the relationships between patrons and architects and the wide variety of factors that contributed to the process of creating a building With 250 illustrations including more than 50 in color this book offers new ways of seeing and thinking about some of England's greatest and best loved architecture

The Hirsell Excavations Rosemary Cramp, 2017-12-02 Excavations and surveys adjacent to Hirsell House Coldstream have revealed a remarkably detailed history of a proprietary church and its cemetery for a period when the parochial structure in Scotland was in course of development and when very little is known about the fate of estate churches after they were donated to support the newly founded monasteries of the 12th century The church is set in a landscape with evidence for settlement from the Neolithic to the establishment of Hirsell House the seat of the Earl of Home Here in an estate the boundaries of which has changed very little since the Middle Ages a small unicellular drystone structure developed into a well built Romanesque church with a rare example of its bell founding structure intact The subsequent history when the church was burnt robbed of stone and used for domestic purposes then finally destroyed and covered over in the late

Middle Ages is graphically illustrated by the wealth of artefacts from the site There are traces of other medieval buildings to the north of the site and the cemetery one of the largest rural cemeteries in Scotland provides an interesting range of burial modes as well as together with the environmental evidence from the site an insight into the community which the church and cemetery served

Death, life, and religious change in Scottish towns c. 1350-1560 Mairi Cowan, 2021-06-15 Death life and religious change in Scottish towns c 1350 1560 examines lay religious culture in Scottish towns between the Black Death and the Protestant Reformation It looks at what the living did to influence the dead and how the dead were believed to influence the living in turn it explores the ways in which townspeople asserted their individual desires in the midst of overlapping communities and it considers both continuities and changes highlighting the Catholic Reform movement that reached Scottish towns before the Protestant Reformation took hold Students and scholars of Scottish history and of medieval and early modern history more broadly will find in this book a new approach to the religious culture of Scottish towns between 1350 and 1560 one that interprets the evidence in the context of a time when Europe experienced first a flourishing of medieval religious devotion and then the sterner discipline of early modern Reform

Bar Locks and Early Church Security in the British Isles John F. Potter, 2020-01-30 This book examines the evidence for the measures taken to make church buildings secure or defensible from their earliest times until the later medieval period In particular it examines the phenomenon of bar locks which the author identifies in many different contexts throughout England Wales Scotland and Ireland

Sacred Signs in Reformation Scotland Stephen Mark Holmes, 2015-10-01 Sacred Signs in Reformation Scotland is the first study of how public worship was interpreted in Renaissance Scotland and offers a radically new way of understanding the Scottish Reformation It first defines the history and method of liturgical interpretation using the methods of medieval Biblical exegesis to explain worship then shows why it was central to medieval and early modern Western European religious culture The rest of the book uses Scotland as a case study for a multidisciplinary investigation of the place of liturgical interpretation in this culture Stephen Mark Holmes uses the methods of book history to discover the place of liturgical interpretation in education sermons and pastoral practice and also investigates its impact on material culture especially church buildings and furnishings A study of books and their owners reveals networks of clergy in Scotland committed to the liturgy and Catholic reform especially the Aberdeen liturgists Holmes corrects current scholarship by showing that their influence lasted beyond 1560 and suggests that they created the distinctive religious culture of North East Scotland later a centre of Catholic recusancy Episcopalianism and Jacobitism The final two chapters investigate what happened to liturgical interpretation in Scottish religious culture after the Protestant Reformation of 1559 60 showing that while it declined in importance in Catholic circles a Reformed Protestant version of liturgical interpretation was created and flourished which used exactly the same method to produce both an interpretation of the Reformed sacramental rites and an anti commentary on Catholic liturgy The book demonstrates an important continuity across the Reformation divide arguing

that the Scottish Reformation is best seen as both Catholic and Protestant with the reformers on both sides having more in common than they or subsequent historians have allowed *Clerics and Clansmen* Iain MacDonald,2013-02-15 Iain MacDonald examines how the medieval Church in Gaelic Scotland often regarded as isolated and irrelevant continued to function in the face of poverty periodic warfare and the formidable powers of the clan chiefs *Sacred Heritage* Roberta Gilchrist,2020-01-02 Forges innovative connections between monastic archaeology and heritage studies revealing new perspectives on sacred heritage identity medieval healing magic and memory This title is available as Open Access [The Medieval Chantry Chapel](#) Simon Roffey,2007 An archaeological investigation into the structure of the medieval chantry chapel with many implications for religious practice at the time The chantry a special often private chapel within a church dedicated to a particular benefactor or benefactor s family where prayers for the benefactor s soul were said was probably the most common and also one of the most distinctive of all late medieval religious foundations These structures although much altered with time are still a very noticeable feature of many late medieval parish churches However no systematic thorough or comparative examination has been undertaken to discover what they may reveal about contemporary devotion aspiration and planning This is a void which this book seeks to fill It shows how the use of archaeological approaches can illuminate aspects of medieval religious practice only hinted at in many historical documents it also demonstrates how the structural and spatial analysis of former chantry chapels can shed light on the level of private and communal piety and reveal a wider more universal context to chantry foundation in the medieval parish church In addition it discusses how various personal strategies for intercession shaped both chapel space and fabric and the ultimate effects of the Reformation on such structures Includes a selected gazetteer of chantry chapels Dr SIMON ROFFEY teaches in the Department of Archaeology at the University of Winchester **Domination and Lordship** Richard Oram,2011-02-21 This book discussed the processes by which the Gaelic kingdom of Alba established its mastery over the lesser kingdoms of northern mainland Britain and transformed itself into a state recognisable as Scotland *History of Everyday Life in Medieval Scotland* Edward J Cowan,2011-06-06 This book examines the ordinary routine daily behaviour experiences and beliefs of people in Scotland from the earliest times to 1600 Its purpose is to discover the character of everyday life in Scotland over time and to do so where possible within a comparative context Its focus is on the mundane but at the same time it takes heed of the people s experience of wars famine environmental disaster and other major causes of disturbance and assesses the effects of longer term processes of change in religion politics and economic and social affairs In showing how the extraordinary impinged on the everyday the book draws on every possible kind of evidence including a diverse range of documentary sources artefactual environmental and archaeological material and the published work of many disciplines The authors explore the lives of all the people of Scotland and provide unique insights into how the experience of daily life varied across time according to rank class gender age religion *Konstruktion der Gegenwart und Zukunft* Rudolf Suntrup,Jan R. Veenstra,2008 Papers

presented at two conferences with the theme Konstruktion von Gegenwart und Zukunft in der Frühen Neuzeit in 2004

Medieval Wall Paintings in English & Welsh Churches Roger Rosewell, 2008 Surveying the images and iconography that made the medieval church a riot of colour this book brings together many of the best surviving examples of medieval church wall paintings It uses new technologies to allow us to visualise these works as the artists first intended Rosewell's text accompanies the images

Beyond Pilgrim Souvenirs and Secular Badges Sarah Blick, 2007-07-08 Brian Spencer former Keeper of the Museum of London was a major scholar of medieval popular culture He almost single handedly established the study of pilgrim souvenirs and secular badges He defined what these objects were and ascertained their function manufacture style and iconography with a careful use of primary documents and intricate stylistic analysis He identified every major souvenir and badge discovered in Great Britain during the last few decades He also made prominent contributions to the field of seal matrices gaming pieces and horse paraphernalia What bound all of these interests together was his understanding that the study of these artefacts could shed light on the beliefs and practices of a large number of people This is reflected in the frequency with which his work is cited This volume is a collection of essays written by those who worked with Brian directly and those with whom he corresponded

The Routledge Companion to Accounting History John Richard Edwards, Stephen P. Walker, 2009-05-07 The Routledge Companion to Accounting History shows how the seemingly innocuous practice of accounting has pervaded human existence in fascinating ways at numerous times and places from ancient civilisations to the modern day and from the personal to the political Placing the history of accounting in context with other fields of study the collection gives invaluable insights to subjects such as the rise of capitalism the control of labour gender and family relationships racial exploitation the functioning of the state and the pursuit of military conflict An engaging and comprehensive overview also examining geographical differences this Companion is split into key sections which explore changing technologies used to represent financial and other data historical development of accounting theory and practice accounting institutions and those who perform accounting accountancy and the economy accounting society and culture the role of accounting in the government protection and financing of states including chapters on the important role played by accountancy in religious organizations a review of how the discipline is portrayed in fine art and popular culture and analysis of sharp practice and corporate scandals The Routledge Companion to Accounting History has a breadth of coverage that is unmatched in this growing area of study Bringing together leading writers in the field this is an essential reference work for any student of accounting business and management and history

Lords and Lordship in the British Isles in the Late Middle Ages Rees Davies, 2009-06-11 It is well known that political economic and social power in the British Isles in the Middle Ages lay in the hands of a small group of domini lords In his final book the late Sir Rees Davies explores the personalities of these magnates the nature of their lordship and the ways in which it was expressed in a diverse and divided region in the period 1272-1422 Although their right to rule was rarely questioned the lords flaunted their identity and

superiority through the promotion of heraldic lore the use of elevated forms of address and by the extravagant display of their wealth and power Their domestic routine furnishings dress diet artistic preferences and pastimes all spoke of a lifestyle of privilege and authority Warfare was a constant element in their lives affording access to riches and reputation but also carrying the danger of capture ruin and even death while their enthusiasm for crusades and tournaments testified to their energy and bellicose inclinations Above all underpinning the lords control of land was their control of men a complex system of dependence and reward that Davies restores to central significance by studying the British Isles as a whole The exercise and experience of lordship was far more varied than the English model alone would suggest

Scottish Medieval Churches Architecture And Furnishings Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the power of words has become more evident than ever. They have the ability to inspire, provoke, and ignite change. Such is the essence of the book **Scottish Medieval Churches Architecture And Furnishings**, a literary masterpiece that delves deep into the significance of words and their impact on our lives.
