Reynolds, 2016-05-13 By the end of the nineteenth century Paris was widely acknowledged as the cultural capital of the world the home of avant garde music and art symbolist literature and bohemian culture Edinburgh by contrast may still be thought of as a rather staid city of lawyers and Presbyterian ministers academics and doctors While its great days as a centre for the European Enlightenment may have been behind it however late Victorian Edinburgh was becoming the location for a new set of cultural institutions with its own avant garde that corresponded with a renewed Scottish national consciousness While Morningside was never going to be Montparnasse the period known as the Belle Epoque was a time in both French and Scottish society when there were stirrings of non conformity which often clashed with a still powerful establishment And in this respect French bourgeois society could be as resistant to change as the suburbs of Edinburgh With travel and communication becoming ever easier a growing number of international contacts developed that allowed such new and radical cultural ideas to flourish In a series of linked essays based on research into contemporary archives documents and publications in both countries as well as on new developments in cultural research this book explores an unexpected dimension of Scottish history while also revealing the Scottish contribution to French history In a broader sense and particularly as regards gender it considers what is meant by modern or radical in this period without imposing any single model In so doing it seeks not to treat Paris Edinburgh links in isolation or to exaggerate them but to use them to provide a fresh perspective on the internationalism of the Belle Epoque **The Architecture of Scottish Cities** Deborah Mays, 1997 Published to honour David Walker this series of themed specific and chronological articles covers the architecture of Scottish

towns and cities **Montreal, City of Spires** Clarence Epstein, 2012-03-19 T00:00:00-04:00 Of the fifty religious buildings discussed in this book only a precious few remain standing despite the fact that Montreal boasts one of the largest and most eclectic groupings of Georgian and Victorian structures of any city in North America Following the British conquest of New France in 1759 a remarkable series of transformations took place in the small Catholic trading town of Montreal Given the diversity of settlers forced to live side by side the new church buildings that were to rise became strategic public spaces meeting places as well as power bases It was no wonder that by the time Mark Twain toured Canada's first metropolis in the 1880s he found that one could not throw a brick in the place without breaking a church window By addressing the social religious and architectural issues surrounding these colonial era structures it will become apparent that Montreal was at once a shining jewel in England's imperial crown a chief outpost of Catholicism in the New World as well as the British North American headquarters for more than a dozen independent congregations **Architectural Heritage**, 2007 *Designs on Death* Hilary J. Grainger, 2020-10-01 Despite seven out of ten people in Scotland choosing cremation in many ways crematoria are invisible buildings visited only by necessity and they have not received the attention they deserve Crematoria present a real challenge for architects They are paradoxical buildings religious and secular functional and symbolic required to satisfy the practical and emotional needs of all faiths and none This book provides architectural biographies of Scotland's thirty one crematoria explaining their increasing relevance in contemporary Scottish society and pointing to Scotland's distinctive contribution to the progress of cremation and the architecture of crematoria Many leading architects and craftsmen including Sir Robert Lorimer and Sir Basil Spence produced designs of great architectural merit and Scottish local authorities led the way in designing some of the most progressive crematoria in the UK These singular often contested buildings many in magnificent natural landscape settings reveal a great deal about the complex changing and distinctive attitudes to death and funeral rituals in Scotland **Chopin in Britain** Peter Willis, 2017-12-14 In 1848 the penultimate year of his life Chopin visited England and Scotland at the instigation of his aristocratic Scots pupil Jane Stirling In the autumn of that year he returned to Paris The following autumn he was dead Despite the fascination the composer continues to hold for scholars this brief but important period and his previous visit to London in 1837 remain little known In this richly illustrated study Peter Willis draws on extensive original documentary evidence as well as cultural artefacts to tell the story of these two visits and to place them into aristocratic and artistic life in mid nineteenth century England and Scotland In addition to filling a significant hole in our knowledge of the composer's life the book adds to our understanding of a number of important figures including Jane Stirling and the painter Ary Scheffer The social and artistic milieux of London Manchester Glasgow and Edinburgh are brought to vivid life *The Poems of ---. With a Memoir from Original Sources of Information by Charles Rogers* Robert Aytoun, 1871 **Art Libraries Journal**, 2003 *The British Architect*, 1913 *Scottish Royal Palaces* John G. Dunbar, 1999 The first exclusive study of a group of buildings of outstanding historical and architectural

interest John G Dunbar discusses the organisation of the royal works the roles of the principal officials and tradesmen responsible for the construction of these palaces and how they functioned when the king and court were in residence He focuses particularly on Linlithgow Falkland Stirling Holyroodhouse and Edinburgh Castle **Papers Read at the Royal Institute of British Architects** ,1875 *Sessional Papers Read at the Royal Institute of British Architects* Royal Institute of British Architects,1875 List of members separately paged bound at end of v 18 19 1867 68 1868 69 also various brief reports papers etc separately paged bound at end of v 16 19 22 24 1965 66 1868 69 1871 72 1873 74 Basil Spence: Architect Philip Long,Jane Thomas,2007-11-15 Discusses Spence s work in a series of essays introduced by a personal memoir especially written by the architect s family **British Architect and Northern Engineer** ,1876
