BOOK AWARD LONGLISTED FOR THE HIGHLAND BOOK PRIZE HIGHLY COMMENDED BY THE SOPHIE COE PRIZE FOR FOOD WRITING A FINANCIAL TIMES BOOK OF THE YEAR I laughed and cried a little reading the book with Pam's voice in my head A true inspiration on every level as a memoir and as only Pam can tells us all what we need to do ANGELA HARTNETT OBE When world class chef Pam first opened Inver her restaurant on the shores of Loch Fyne she set out to discover what makes modern Scottish food or if it even existed This book traces Pam's journey to answer that question and in doing so reveals what we can all gather from our culinary heritage Part memoir part manifesto on the future of feeding the world and a feminist critique of the food business it documents the difficult early days of her now multiple award winning restaurant reflecting on how the immersive experience of destination restaurants can both help and hinder our understanding of wider land and food culture From the soil to the kitchen Between Two Waters interrogates the influences on what we eat capitalism colonialism and gender as well as our own personal and cultural histories Yet it also captures with real heart all that the dinner table has to offer us sustenance both physical and imaginative challenges and adventure and most importantly communion with others More than anything it is a blisteringly original work from one of the world's most innovative thinkers about food sustainability and landscape **Scottish Exodus** James Hunter, 2011-03-25 Millions of Scots have left their homeland during the last 400 years Until now they have been written about in general terms Scottish Exodus breaks new ground by taking particular emigrants drawn from the once powerful Clan MacLeod and discovering what happened to them and their families These people became among other things French aristocrats Polish resistance fighters Texan ranchers New Zealand shepherds Australian goldminers Aboriginal and African American activists Canadian mounted policemen and Confederate rebels One nineteenth century MacLeod even went so far as to swap his Gaelic for Arabic and his Christianity for Islam before settling down comfortably in Cairo This gripping account of Scotland's worldwide diaspora is based on unpublished documents letters and family histories It is also based on the author's travels in the company of today's MacLeods some of them still in Scotland others further afield Scottish Exodus is a tale of disastrous voyages famine and dispossession the hazards of pioneering on faraway frontiers But it is also the moving informative diagrams The case studies include Shell Oil's environmental policy railways and the industrial revolution the British National Trust's business enterprises Sainsbury's approach to organic voyage through Gaelic environmental awareness centuries ahead of its time and its value today The Herald Caring for the environment developing rural communities and ensuring the survival of minority cultures are all laudable objectives but they can conflict and nowhere more so than the Scottish Highlands As environmentalists strive to preserve the scenery and wildlife of the Highlands the people who belong there and who have their own claims on the landscape question this new threat to their culture which dates back thousands of years In this sensitive thought provoking book James Hunter probes deep into this culture to examine the dispute between Highlanders who developed a strong environmental awareness a thousand years before other Europeans and conservationists whose thinking owes much to the romantic ideals of the nineteenth century More than that he also suggests a new way of dealing with the problem advocating drastic land use changes and the repopulation of empty glens an approach that has worldwide implications A very thoughtful piece of advocacy The Scotsman <u>Last of the Free</u> James Hunter, 2011-03-25 Written by award winning Scottish historian James Hunter this groundbreaking and definitive account reveals how the Highlands and Islands of Scotland have evolved from a centre of European significance to a Scottish outpost Never before has the history of the region been recounted so comprehensively and in so much fascinating often moving detail But this book is not simply the story of humanity s millennia long involvement with one of the world s most Conquering the Highlands Jan Oosthoek, 2013-02-01 Deforestation of Scotland began millennia ago and by the early 20th century woodland cover was down to about 6 per cent of the total land area A century later woodland cover had tripled Most of the newly established forestry plantations were created on elevated land with wet peaty soils and high wind exposure not exactly the condition in which forests naturally thrive Jan Oosthoek tells in this book the story of how 20th century foresters devised ways to successfully reforest the poor Scottish uplands land that was regarded as unplantable to fulfil the mandate they had received from the Government and wider society to create a timber reserve He raises the question whether the adopted forestry practice was the only viable means to create forests in the Scottish Highlands by examining debates within the forestry community about the appearance of the forests and their longterm ecological prospects Finally the book argues that the long held ecological convictions among foresters and pressure from environmentalists came together in the late 20th century to create more environmentally sensitive forestry
