Samuel P. Nelson, 2005-07 Americans often believe that the First Amendment and free speech are synonymous and that all restrictions on speech can be addressed by the legal framework of the First Amendment Political theorist Samuel P Nelson argues that the current legal framework for free speech actually undermines attempts to resolve many of these issues and that the law of the First Amendment has supplanted the vital politics of free speech To cut through the confusion Nelson takes a step back from the First Amendment framework to understand the social nature of speech moving toward a more pluralistic and value based understanding He examines three philosophies commonly used to justify speech protection libertarianism expressivism and egalitarianism and finds none of them sufficiently responsive in today's contemporary political landscape Advocating an approach grounded in value pluralism which describes a wider variety of free speech claims than the First Amendment allows Nelson pushes the debate beyond constitutional and legal questions **Exploring**

Garry, 2006 Since ratification of the First Amendment in the late eighteenth century there has been a sea change in American life When the amendment was ratified individuals were almost completely free of unwanted speech but today they are besieged by it Indeed the First Amendment has for all practical purposes been commandeered by the media to justify intrusions of offensive speech into private life In its application the First Amendment has become one sided Even though America is virtually drowning in speech the First Amendment only applies to the speaker's delivery of speech Left out of consideration is the one participant in the communications process who is the most vulnerable and least protected the helpless recipient of offensive speech In *Rediscovering a Lost Freedom* Patrick Garry addresses what he sees as the most pressing speech problem of the twenty first century an often irresponsible media using the First Amendment as a shield behind which to hide its socially corrosive speech To Garry the First Amendment should protect the communicative process as a whole And for this process to be free and open listeners should have as much right to be free from unwanted speech as speakers do of not being thrown in jail for uttering unpopular ideas *Rediscovering a Lost Freedom* seeks to modernize the First Amendment With other constitutional rights changed circumstances have prompted changes in the law Restrictions on political advertising seek to combat the perceived influences of big money the Second Amendment right to bear arms due to the prevalence of violence in America has been curtailed and the Equal Protection clause has been altered to permit affirmative action programs aimed at certain racial and ethnic groups But when it comes to the flood of violent and vulgar media speech there has been no change in First Amendment doctrines This work proposes a government facilitated private right to censor *Rediscovering a Lost Freedom* will be of interest to students of American law history and the U S Constitution

they caused The Age of Discontent reveals that it was not the tycoons but rather the laborers and farmers who in a great uprising of popular democracy reinvented the nation for the emerging industrial world never imagined by the Founders Facing conditions far worse than previously documented they overcame the frayed social safety net and violent opposition to pull off what the labor leader John Mitchell has described as the Second Emancipation which addressed a dangerously tilted playing field with government programs and legislation Based on meticulous primary source research and integrating music photographs artworks and statistical data this sweeping history places grassroots activists and reformers many recognized for the first time at center stage in a fascinating success story of perseverance and commitment

*Networked Press Freedom* Mike Ananny, 2023-10-31 Reimagining press freedom in a networked era not just a journalist's right to speak but also a public's right to hear In *Networked Press Freedom* Mike Ananny offers a new way to think about freedom of the press in a time when media systems are in fundamental flux Ananny challenges the idea that press freedom comes only from heroic lone journalists who speak truth to power Instead drawing on journalism studies institutional sociology political theory science and technology studies and an analysis of ten years of journalism discourse about news and technology he argues that press freedom emerges from social technological institutional and normative forces that vie for power and fight for visions of democratic life He shows how dominant historical ideals of professionalized press freedom often mistook journalistic freedom from constraints for the public's freedom to encounter the rich mix of people and ideas that self governance requires Ananny's notion of press freedom ensures not only an individual right to speak but also a public right to hear Seeing press freedom as essential for democratic self governance

Ananny explores what publics need what kind of free press they should demand and how today's press freedom emerges from intertwined collections of humans and machines If someone says The public needs a free press Ananny urges us to ask in response What kind of public what kind of freedom and what kind of press Answering these questions shows what robust self governing publics need to demand of technologists and journalists alike
