**Party of One** Michael Harris, 2014-10-21 In *Party of One* investigative journalist Michael Harris closely examines the majority government of a prime minister essentially unchecked by the opposition and empowered by the general election victory of May 2011. Harris looks at Harper's policies, instincts, and the often breathtaking gap between his stated political principles and his practices. Harris argues that Harper is more than a master of controlling information; he is a profoundly anti-democratic figure. In the F-35 debacle, the government's sin wasn't only keeping the facts from Canadians; it was in inventing them. Harper himself provided the key confabulations, and they are irrefutably and unapologetically on the public record from the last election. This is no longer a matter of partisan debate but a fact Canadians must interpret for what it may signify. Harris illustrates how Harper has made war on every independent source of information in Canada since coming to power. *Party of One* is about a man with a well-defined and growing enemies list of those not wanted on the voyage: union members, scientists, diplomats, environmentalists, First Nations peoples, and journalists. Against the backdrop of a Conservative commitment to transparency and accountability, Harris exposes the ultra-secrecy, non-compliance, and dismissiveness of this prime minister. And with the Conservative majority in Parliament, the law is simple: what one man, the PM, says goes.

**Slim Harpo** Martin Hawkins, 2016-09-19 As Louis Armstrong forever tethered jazz to New Orleans and Clifton Chenier fixed Lafayette as home to zydeco, Slim Harpo established Baton Rouge as a base for the blues. In the only complete biography of this internationally renowned blues singer and musician, Martin Hawkins traces Harpo's rural upbringing near Louisiana's capital, his professional development fostered by the local music scene, and his national success with R & B hits like "Rainin' in My Heart," "Baby Scratch My Back," and "I'm a King Bee," among others. Hawkins follows Harpo's global musical impact from the early 1960s to today and offers a detailed look at the nature of the independent recording business that enabled his remarkable legacy. With new research and interviews, Hawkins fills in previous biographical gaps and redresses misinformation about Harpo's life. In addition to weaving the musician's career into the lives of other Louisiana blues players, including Lightnin' Slim, Lazy Lester, and Silas Hogan, the author discusses the pioneering role of Crowley, Louisiana, record producer J. D. Miller and illustrates how Excello Records in Nashville brought national attention to Harpo's music recorded in Louisiana. This engaging narrative examines Harpo's various recording sessions and provides a detailed discography, as well as a list of blues-related records by fellow Baton Rouge artists. Slim Harpo: Blues King Bee of Baton Rouge will stand as the ultimate resource on the musician's life and the rich history of Baton Rouge's blues heritage.

**How We Believe** Michael Shermer, 2003-10-01 A new edition covering the latest scientific research on how the brain makes us believers or skeptics. Recent polls report that 96 percent of Americans believe in God and 73 percent believe that angels regularly visit Earth. Why is this? Why, despite the rise of science, technology, and secular education, are people turning to religion in greater numbers than ever before? Why do people believe in God at all? These provocative questions lie at the heart of *How We Believe*, an

illuminating study of God faith and religion Bestselling author Michael Shermer offers fresh and often startling insights into age old questions including how and why humans put their faith in a higher power even in the face of scientific skepticism Shermer has updated the book to explore the latest research and theories of psychiatrists neuroscientists epidemiologists and philosophers as well as the role of faith in our increasingly diverse modern world Whether believers or nonbelievers we are all driven by the need to understand the universe and our place in it How We Believe is a brilliant scientific tour of this ancient and mysterious desire Catalog of Copyright Entries Library of Congress.
