**Europe's Strategic Future** Sarah Raine, 2019-08-08 Europe has suffered a decade of crises with sovereign debt troubles leading to austerity policies that exacerbated divisions inside member states and between them Thereafter the Union was confronted with the challenges posed by a revanchist Russia in Ukraine and by a surge in migration from the Middle East and other conflict zones The June 2016 UK vote to leave the Union threatened further damage to an institution that acknowledges it has failed to punch its weight in the spheres of foreign defence and security policy While that is a chronic shortcoming its impact is becoming more acute as economic power moves East and Europe can no longer count on the steadfast support and leadership of the United States The costs of Europe s failure to achieve strategic coherence and effect are steadily rising This Adelphi book addresses the consequences of Europe s multiple crises for its standing as a strategic actor acknowledging its

unique character and capabilities It argues that strategic thought and action is belatedly being informed by the deteriorating security environment and that nascent initiatives have the potential to effect a step change There are grounds for cautious optimism visible in the success of stabilisation and counter piracy operations as well as coordinated diplomatic activity Also the continent's leading powers are becoming more pragmatic about how cooperation is organised within and beyond the Union These developments offer the possibility that Europe might meet its aspirations to be a strategic actor of consequence despite a long track record of disappointment and the still considerable obstacles that lie in its path OECD Health Policy Studies Beating Cancer Inequalities in the EU Spotlight on Cancer Prevention and Early Detection OECD,2024-01-31 This report addresses the latest trends in cancer incidence and mortality in the EU and reviews key cancer risk factors cancer screening programmes and early diagnoses and issues in the provision of high quality cancer care *Yearbook on International Investment Law & Policy* 2019 Lisa E. the USA and beyond This book concentrates on two key themes of particular salience for policy makers the enlargement of the EU and the place of Europe in international politics An expansive list of important policy areas within these themes is explored including enlargement political and constitutional implications and international socialization of central and eastern Europe Europe and the USA security and defence policy trade finance and development institutional development and external relations in justice and home affairs before and after September 11 international terrorism EU immigration and asylum and borders policy human rights and civil rights agriculture environmental policy and regional policy pensions and ageing in Europe This book constitutes a major contribution to achieving a deeper understanding of European integration and the barriers to integration within the context of global and multi level governance As such it will be of enormous interest to an extensive audience including academics researchers students policy makers and practitioners in the fields of political studies international relations public policy European studies US studies and security studies      *Beyond the Subtitle* Mark Betz, 2009 Examining European art films of the 1950s and 1960s Mark Betz argues that it is time for film analysis to move beyond prevailing New Wave historiography mired in outdated notions of nationalism and dragged down by decades of auteurist criticism Focusing on the cinemas of France and Italy Betz reveals how the flowering of European art films in the postwar era is inseparable from the complex historical and political frameworks of the time
