*Historia Augusta, Volume II: Caracalla. Geta. Opellius Macrinus. Diadumenianus. Elagabalus. Severus*, 1980 The Scriptores Historiae Augustae or Historia Augusta is a collection of biographies of Roman emperors heirs and claimants from Hadrian to Numerianus 117 284 CE The work which is modeled on Suetonius purports to be written by six different authors and quotes documents and public records extensively Since we possess no continuous account of the emperors of the second and third centuries the Historia Augusta has naturally attracted keen attention In the last century it has also generated the gravest suspicions Present opinion holds that the whole is the work of a single author who lived in the time of Theodosius and contains much that is plagiarism and even downright forgery The Loeb Classical Library edition of the Historia Augusta is in three volumes Scribes and Their Remains Craig A. Evans, Jeremiah J. Johnston, 2019-09-05 Scribes and Their Remains begins with an introductory essay by Stanley Porter which addresses the principal theme of the book the text as artifact The rest of the volume is then split into two major sections In the first five studies appear on the theme of Scribes Letters and Literacy In the first of these Craig A Evans offers a lengthy piece that argues that the archaeological artifactual and historical evidence suggests that New Testament autographs and first copies may well have remained in circulation for one century or more having the effect of stabilizing the text Other pieces in the section address literacy orality and paleography of early Christian papyri In the second section there are five pieces on Writing Reading and Abbreviating Christian Scripture These range across numerous topics including an examination of the stauros cross as a nomen sacrum *Rome and Persia* Adrian Goldsworthy, 2023-09-05 A magnificent Spectator history of the epic rivalry between the ancient world's two great superpowers The Roman empire was like no other Stretching from the north of Britain to the Sahara and from the Atlantic coast to the Euphrates it imposed peace and prosperity on an unprecedented scale Its only true rival lay in the east where the Parthian and then Persian empires ruled over great cities and the trade routes to mysterious lands beyond This was the region Alexander the Great had swept through creating a dream of glory and conquest that tantalized Greeks and Romans alike Tracing seven centuries of conflict between Rome and Persia historian Adrian Goldsworthy shows how these two great powers evolved together Despite their endless clashes trade between the empires enriched them both and a mutual respect prevented both Rome and Persia from permanently destroying the other Epic in scope Rome and Persia completely reshapes our understanding of one of the greatest rivalries of world history *General History of Western Nations from 5000 B.C. to 1900 A.D.* Emil Reich, 1908 **The Journal of Hellenic Studies**, 1922 *A to Z of Ancient Greek and Roman Women* Marjorie Lightman, Benjamin Lightman, 2008 Presents a biographical dictionary profiling more than 500 important ancient Greek and Roman women including when and where they lived and notable accomplishments **Eleven Catalogues by Reinier Leers (1692-1709)** H.H.M. van Lieshout, O.S. Lankhorst, 2024-07-29 With an introduction and indexes by H H M van Lieshout and O S Lankhorst *Digital Histories* Mats Fridlund, Mila Oiva, Petri Paju, 2020-12-07 Historical scholarship is

currently undergoing a digital turn All historians have experienced this change in one way or another by writing on word processors applying quantitative methods on digitalized source materials or using internet resources and digital tools Digital Histories showcases this emerging wave of digital history research It presents work by historians who on their own or through collaborations with e g information technology specialists have uncovered new empirical historical knowledge through digital and computational methods The topics of the volume range from the medieval period to the present day including various parts of Europe The chapters apply an exemplary array of methods such as digital metadata analysis machine learning network analysis topic modelling named entity recognition collocation analysis critical search and text and data mining The volume argues that digital history is entering a mature phase digital history in action where its focus is shifting from the building of resources towards the making of new historical knowledge This also involves novel challenges that digital methods pose to historical research including awareness of the pitfalls and limitations of the digital tools and the necessity of new forms of digital source criticisms Through its combination of empirical conceptual and contextual studies Digital Histories is a timely and pioneering contribution taking stock of how digital research currently advances historical scholarship
