**Motown** Gerald Posner, 2009-04-02 In 1959 twenty nine year old Berry Gordy who had already given up on his

dream to be a champion boxer borrowed eight hundred dollars from his family and started a record company. A run down bungalow sandwiched between a funeral home and a beauty shop in a poor Detroit neighborhood served as his headquarters. The building's entrance was adorned with a large sign that improbably boasted Hitsville U S A. The kitchen served as the control room, the garage became the two track studio, the living room was reserved for bookkeeping and sales were handled in the dining room. Soon word spread that any youngster with a streak of talent should visit the only record label that Detroit had seen in years. The company's name was Motown. Motown cuts through decades of unsubstantiated rumors and speculation to tell the true behind the scenes narrative of America's most exciting musical dynasty. It follows the company and its amazing roster of stars from the tumultuous growth years in Detroit to the drama and intrigue of Hollywood in the 1970s to resurgence in 2002. Set against the civil rights movement, the decay of America's northern industrial cities and the social upheaval of the 1960s, Motown is a tale of the incredible entrepreneurship of Berry Gordy. But it also features the moving stories of kids from Detroit's inner city projects who achieved remarkable success and then in many cases found themselves fighting the demons that so often come with stardom: drugs, jealousy, sexual indulgence, greed and uncontrollable ambition. Motown features an extraordinary cast of characters including Diana Ross, Michael Jackson, Marvin Gaye, Smokey Robinson and Stevie Wonder. They are presented as they lived and worked: a clan of friends, lovers, competitors and sometimes vicious foes. Motown reveals how the hopes and dreams of each affected the lives of the others and illustrates why this singular story is a made in America Greek tragedy: the rise and fall of a supremely talented yet completely dysfunctional extended family. Based on numerous original interviews and extensive documentation, Motown benefits particularly from the thousands of pages of files crammed into the basement of downtown Detroit's Wayne County Courthouse. Those court records provide the unofficial and hitherto largely untold history of Motown and its stars since almost every relationship between departing singers, songwriters, producers and the label ended up in litigation. From its peaks in the late 1960s and early 1970s when Motown controlled the pop charts and its stars were sought after even by the Beatles through the inexorable slide caused by their failure to handle their stardom, Motown is a riveting and troubling look inside a music label that provided the unofficial soundtrack to an entire generation.

**Energy Victory** Robert Zubrin, 2010-09-09 In this compelling argument for a new direction in U S energy policy, a world renowned engineer and the bestselling author of *The Case for Mars* lays out a bold plan for breaking the economic stranglehold that the OPEC oil cartel has on the world. **Terrorist Groups and the New Tribalism** Jeffrey Kaplan, 2010-02-25 The central focus of this book is a small but vitally important group of movements that constitute a distinct fifth wave of modern terrorism here called the New Tribalism. *Terrorist Groups and the New Tribalism* examines a collection of terrorist or insurgent movements whose similarity in tactics, strategic vision and desire to radically reshape their worlds to conform with a Golden Age dream of perfection which is to be achieved through a genocidal or ethnic cleansing process to make way for the emergence of a new

radically perfected tribal utopia in a single generation These shared strategic and tactical factors allow them to be examined through a comparative lens as a distinct fifth wave of modern terrorism Structured around the theoretical framework of David Rapoport's Four Waves thesis the book examines anomalous movements that began within a distinct wave of international terrorism but following a crisis model has turned inwards toward radical localism tribalism and xenophobia The text is divided between theory and in depth case studies of the Ugandan Lord's Resistance Army and the Sudanese Janjaweed It concludes with a design for further field work based research This book will be of interest to students of Terrorism and Political Violence Genocide Conflict Studies African politics and Political Science in general Jeffrey Kaplan is an Associate Professor of Religion and the Director of the Institute for the Study of Religion Violence and Memory at the University of Wisconsin Oshkosh He is the author of 11 books on terrorism and political violence **Spiral** Mark Danner, 2016-06-14

Introduction Bush imposing the exception constitutional dictatorship torture and us Obama normalizing the exception terror fear and the war without end Afterword **Global Political Economy and New World Disorder** Sean

Creaven, 2025-04-24 Drawing upon a range of resources of critique including critical realist social theory realist international relations theory the sociology of globalization the Marxist critique of imperialism and dependency theory this book is an essential contribution to the critical understanding of nationalism and imperialism in the global age It conducts a sustained and in depth analysis of the relations between the asymmetry in the distribution of economic resources and powers of command and the recent play of political events involving imperialist wars including the Russo Ukrainian and Israeli Hamas wars Crucially the author argues that establishing these connections requires theorizing political economy in the so called global age as comprised of neoimperial and neoliberal orders As such the book offers a new interpretation of the relations between neoliberalism and neoimperialism and between modes of organizing social relations and resulting global disorders and instabilities This will therefore be of interest to researchers scholars and students working at the intersection of global political economy international relations and the sociology of globalization *Making a Killing* Ian Michael

Oxnevad, 2021-10-15 The international financial system is not only economic but political Making a Killing explores the often overlooked world of terrorist financing and the involvement of the international banking system In order to address the threat of terrorist organizations in a post 9 11 world and how they are funded and financed in particular the international community has constructed a vast architecture of counterterrorist finance laws policies and institutions Connecting the fields of security studies political economy and finance Ian Oxnevad argues that a bank's institutional link to a state as a state owned bank or a bank with strong state connections will protect it from any enforcement action for violations of anti money laundering and counter terrorism financing regulations In the face of states blocking such enforcement actions these regulations prove ineffective in preventing the financing of terrorism as the state's self interest supersedes its interest in preventing terrorist financing Making a Killing seeks to assess how effective new laws and regulations have been as well as

to identify best practices for future attempts to counter the financing of terrorism      Legal and Political Reforms in Saudi Arabia Joseph Kéchichian, 2012-11-27 The fractious relationship between the United States and Saudi Arabia has long been a central concern in Washington In the aftermath of 9 11 and amongst ongoing wars the United States confronts an acute dilemma how to cooperate with Riyadh against terrorism whilst confronting acute anti Americanism Using information gathered from extensive interviews with a plethora of officials this book aims to analyze Saudi domestic reforms It addresses the significant deficiency of information on such diverse matters as the judiciary and ongoing national dialogues but also provides an alternative understanding of what motivates Saudi policy makers How these reforms may impact on future Saudi decision making will surely generate a slew of policy concerns for the United States and this study offers a few clarifications and solutions This book will be of interest to anyone seeking a new perspective on the motivation behind legal and political reforms in Saudi Arabia and the effects of these reforms beyond the Middle East      **Terminate Terrorism** Karen A. Feste, 2015-11-17 This book looks at recent high profile anti American terrorism crises the Cuban skyjacking epidemic the Tehran hostage taking the Beirut kidnappings and Al Qaeda suicide bombing It then explains how they come to an end using a framework of conflict resolution concepts conflict ripeness and stalemate turning points negotiation readiness and interest based bargaining combined with shifts in decision making strategies
