Secular Faith Controversy:

The Secular Faith Controversy Edward Ian Bailey, 2001 In this volume Edward Bailey sets out what is meant by implicit religion without the constraints either of total academic impersonality or of excessive compression He suggests how the concept of implicit religion can help us understand the contemporary scene other people and ourselves He also suggests what this approach might add to religious and social studies The book spans the spectrum from religious studies to ordinary life Part I describes the issues or problems experienced by practitioners by leaders and by students of religion while Part II describes some of the main ways in which those three overlapping groups have responded to those issues Part III describes possible alternative responses Part IV describes the three dimensional model of religion and Part V the three dimensions of human and religious experience Part VI applies this model in the spheres of religion of the spiritual and of life Indeed the three dimensions of the title are the sacred the holy and the human

The Secular Faith Controversy Edward Ian Bailey, 2001 When God disappears from a secular society religious beliefs surface in other non religious sectors of society e g sport as religion Edward Bailey argues that within and beneath everyday practices of non religious pursuits lie hidden religious ethical assumptions that mostly go unnoticed that is i e implicit rather than explicit In this volume Bailey sets out what is meant by implicit religion and proposes a methodology for studying implicit religion and how it can encourage greater understanding between secular and religious spheres

Secular Faith Vincent William Lloyd, Elliot A. Ratzman, 2011-01-01 Is faith a necessary virtue in the contemporary world May it be or must it be detached from religious commitment What do genealogies of the secular tell us about faith Does religion need secular faith Secular Faith brings together leading and emerging scholars to reflect on the apparent paradox of secular faith Ranging over anthropology religious studies political science history and literature from Muslims in China to Pentecostals in South Africa to a prison chapel in Texas this collection of essays is as engaging and accessible as it is penetrating and rigorous Communism was once labeled the god that failed Like Christianity Communism involves faith in a superhuman endeavor conversion myth discipline and salvation and from the perspective of secular liberalism both are unjustified and false In recent years scholars have begun to investigate whether secularism is itself based on faith in a god that failed or is failing Nevertheless many still embrace such a faith finding in the spirit of democracy an ethos of eternal renewal Secular Faith enters and broadens this conversation interrogating secular faith in a global context tapping new theoretical resources and grappling provocatively with the tragedies and opportunities of today s profane pantheon of beliefs

Controversies in Contemporary Religion Paul Hedges, 2014-09-09 Religious or spiritual beliefs underpin many controversies and conflicts in the contemporary world Written by a range of scholarly contributors this three volume set provides contextual background information and detailed explanations of religious controversies across the globe Controversies in Contemporary Religion Education Law Politics Society and Spirituality is a three volume set that addresses a wide variety of current religious issues analyzing religion's role in the rise of fundamentalism censorship human rights environmentalism and sustainability sexuality bioethics and other questions of widespread interest Providing in depth context and analysis far beyond what's available in the news or online this work will enable readers to understand the nature of and reasons for controversies in current headlines The first volume covers theoretical and academic debates the second looks at debates in the public square and ethical issues while the third examines specific issues and case studies These volumes bring detailed and careful debate of a range of controversies together in one place including topics not often covered for example how religions promote or hinder social cohesion and peace the relationship of religions to human rights and the intersection of Buddhism and violence Written by a range of experts that includes both established and emerging scholars the text explains key debates in ways that are accessible and easy to understand for lay readers as well as undergraduate students researching particular issues or global religious trends

How (Not) to Be Secular James K. A. Smith, 2014-05-01 How Not to Be Secular is what Jamie Smith calls your hitchhiker's guide to the present it is both a reading guide to Charles Taylor's monumental work *A Secular Age* and philosophical guidance on how we might learn to live in our times Taylor's landmark book *A Secular Age* 2007 provides a monumental incisive analysis of what it means to live in the post Christian present a pluralist world of competing beliefs and growing unbelief Jamie Smith's book is a compact field guide to Taylor's insightful study of the secular making that very significant but daunting work accessible to a wide array of readers Even more though Smith's *How Not to Be Secular* is a practical philosophical guidebook a kind of how to manual on how to live in our secular age It ultimately offers us an adventure in self understanding and maps out a way to get our bearings in today's secular culture no matter who we are whether believers or skeptics devout or doubting self assured or puzzled and confused This is a book for any thinking person to chew on

Critical Reflections on Indigenous Religions James L. Cox, 2016-04-22 The study of indigenous religions has become an important academic field particularly since the religious practices of indigenous peoples are being transformed by forces of globalization and transcontinental migration This book will further our understanding of indigenous religions by first considering key methodological issues related to defining and contextualizing the religious practices of indigenous societies both historically and in socio cultural situations Two further sections of the book analyse cases derived from European contexts which are often overlooked in discussion of indigenous religions and in

two traditional areas of study South America and Africa

Handbook of the Geographies of Religion Lily Kong, Orlando Woods, Justin K.H. Tse, 2024-12-02 This international and interdisciplinary handbook offers a comprehensive and an in depth overview of contemporary research theory and practice in the geographies of religion in various parts of the world and with different populations The book showcases the major theoretical interventions in the field and the debates about the existential constitution of sacred space and what this means for secularization It outlines the most significant geographical themes related to these new developments with their implications for how to think about landscapes space bodies and worlds The book also discusses the future of the field especially in the realms of encounters and ethics economies and markets institutions and organisations movements and migrations and media and mediums It also offers views from disciplines outside of geography including from sociology anthropology religious studies and media and communications which demonstrates the contributions of geographers of religion to wider intellectual conversations and debates

Identity Crises and Indigenous Religious Traditions Elijah Obinna, 2017-02-10 This book highlights the complex identity crises among many Christians as they negotiate their new identities religious ideas and convictions as both Christians and members of Nigerian African societies of indigenous religious traditions and identities Through an interdisciplinary interpretation of religious practices and educational issues in teaching and ritual training the author provides tools to help analyse empirical cases These include the negotiation processes among Christians with focus on the Presbyterian Church of Nigeria PCN and members of the Ogo society within the Amasiri Afikpo North Local Government Area Ebonyi state in South eastern Nigeria Identifying the power dynamic identity role and influence of indigenous religions on Christians and the Ogo society this book reveals the limited interactions between many Christians and members of the Ogo society Questions explored include what makes the Ogo society an integral part of the socio religious life of Amasiri and what powers and identity does it confer on the initiates how is the PCN within Amasiri responding to the Ogo society through its religious practices such as baptism confirmation local auxiliary ministries and organisational structure and how does the understanding and application of conversion within the PCN impact on its members response to the Ogo society Demonstrating how complex religious identities and practices of Nigerian African Christians can balance mission influenced Christianity with indigenous religious traditions and identities this book recognises the importance of appropriating the powers of indigenous cultures ingenuity and creativity in the construction and preservation of community identities As such it will be of keen interest to scholars of Christian theology indigenous religious practice and African lived religion

Annual Review of the Sociology of Religion Luigi Berzano, Ole Riis, 2012-07-25 Dealing with a single theme in each volume the ARSR intends to tackle the relationship between the practices and the dynamics of everyday life and the different religions and spiritualities within the framework of

the post secular society Oxford Textbook of Spirituality in Healthcare Mark Cobb,Christina Puchalski,Bruce Rumbold,2012-08-09 The relationship between spirituality and healthcare is historical intellectual and practical and it has now emerged as a significant field in health research healthcare policy and clinical practice and training Understanding health and wellbeing requires addressing spiritual and existential issues and healthcare is therefore challenged to respond to the ways spirituality is experienced and expressed in illness suffering healing and loss If healthcare has compassionate regard for the humanity of those it serves it is faced with questions about how it understands and interprets spirituality what resources it should make available and how these are organised and the ways in which spirituality shapes and informs the purpose and practice of healthcare These questions are the basis for this resource which presents a coherent field of enquiry discussion and debate that is interdisciplinary international and vibrant There is a growing corpus of articles in medical and healthcare journals on spirituality in addition to a wide range of literature but there has been no attempt so far to publish a standard text on this subject Spirituality in Healthcare is an authoritative reference on the subject providing unequalled coverage critical depth and an integrated source of key topics Divided into six sections including practice research policy and training the project brings together international contributions from scholars in the field to provide a unique and stimulating resource *Politics as Religion* Emilio Gentile,2020-09-01 Emilio Gentile an internationally renowned authority on fascism and totalitarianism argues that politics over the past two centuries has often taken on the features of religion claiming as its own the prerogative of defining the fundamental purpose and meaning of human life Secular political entities such as the nation the state race class and the party became the focus of myths rituals and commandments and gradually became objects of faith loyalty and reverence Gentile examines this sacralization of politics as he defines it both historically and theoretically seeking to identify the different ways in which political regimes as diverse as fascism communism and liberal democracy have ultimately depended like religions on faith myths rites and symbols Gentile maintains that the sacralization of politics as a modern phenomenon is distinct from the politicization of religion that has arisen from militant religious fundamentalism Sacralized politics may be democratic in the form of a civil religion or it may be totalitarian in the form of a political religion Using this conceptual distinction and moving from America to Europe and from Africa to Asia Gentile presents a unique comparative history of civil and political religions from the American and French Revolutions through nationalism and socialism democracy and totalitarianism fascism and communism up to the present day It is also a fascinating book for understanding the sacralization of politics after 9 11 *Encyclopedia of New Religious Movements* Peter Clarke,2004-03-01 New Religious Movements NRMs can involve vast numbers of followers and in many cases are radically changing the way people understand and practice religion and spirituality Moreover many are having a profound impact on the form and content of mainstream religion The Encyclopedia of New Religious Movements provides uniquely global coverage of the phenomenon with entries on over three hundred movement from almost every country in the world Coverage includes

movements that derive from the major religions of the world and to neo traditional movements movements often overlooked in the study of NRMs In addition to the coverage of particular movements there are also entries on topics themes key thinkers and key ideas for example the New Age Movement Neo Paganism New Religion and gender NRMs and cyberspace NRMs and the law the Anti Cult Movement Swedenborg Jung Teilhard de Chardin Lovelock Gurdjieff al Banna Qutb The marked global approach and comprehensiveness of the encyclopedia enable an appreciation of the innovative energy of NRMs of their extraordinary diversity and the often surprising ways in which they can propagate geographically The most ambitious publication of its sort the Encyclopedia of New Religious Movements is a major addition to the reference literature for students and researchers of the field in religious studies and the social sciences Entries are cross referenced with short bibliographies for further reading There is a full index

Secular Religions Tamás Nyirkos, 2024-08-06 *Secular Religions* The Key Concepts provides a concise guide to those ideologies worldviews and social political economic and cultural phenomena that are most often described as the modern counterparts of traditional religions Although there are many other terms in use quasi pseudo ersatz political civil etc it is secular religion that best expresses the problematic nature of all such descriptions which maintain that modern belief systems and practices are secular on the one hand and religious on the other Today the topic is as popular as ever and secular religions are discovered far and wide Hence a critical summary is urgently necessary The juxtaposed title is itself an expression of ironic distance The book emphasizes inherent tensions of relevant literature in a critical and informative fashion The author provides over 100 entries from abortion to wokeness as well as a detailed introduction which gives an overview of the different definitions of religion and secular religion as well as the history of secular religious comparisons The main text reconstructs the argument of several key works on each given topic while lists of sources for further reading are provided at the end of each entry This book provides a clear introduction to secular religions and will appeal to researchers and students of religious studies political philosophy political theology the history of ideologies and cultural studies

Religion and American Education Warren A. Nord, 2014-07-01 Warren Nord s thoughtful book tackles an issue of great importance in contemporary America the role of religion in our public schools and universities According to Nord public opinion has been excessively polarized by those religious conservatives who would restore religious purposes and practices to public education and by those secular liberals for whom religion is irrelevant to everything in the curriculum While he maintains that public schools and universities must not promote religion he also argues that there are powerful philosophical political moral and constitutional reasons for requiring students to study religion Indeed only if religion is included in the curriculum will students receive a truly liberal education one that takes seriously a variety of ways of understanding the human experience Intended for a broad audience Nord s comprehensive study encompasses American history constitutional law educational theory and practice theology philosophy and ethics It also discusses a number of current controversial issues including multiculturalism moral education creationism academic freedom and the voucher and

school choice movements Secularism and the Crisis of Minority Identity in Postcolonial Literature Roger McNamara, 2018-06-06 Secularism and the Crisis of Minority Identity in Postcolonial Literature examines how writers from religious and ethnic minority communities Anglo Indians Burghers Dalits Muslims and Parsis in India and Sri Lanka engage secularism through novels short stories and autobiographies Given the rise of Hindu nationalism in India and Sinhala Buddhist nationalism in Sri Lanka it would seem obvious that minorities would rally around secularism the separation of church and state However this book argues that the relationship between minorities and secularism is extremely ambivalent On the one hand it shows how writers belonging to oppressed communities can deploy secularism as a mode of critique secular criticism to challenge the ideologies of dominant groups the nation upper castes and religious hierarchies On the other hand it examines how these writers reveal that other aspects of secularism secularization and secular time are responsible for creating essentialized identities that have not only exacerbated relationships between majorities and minorities and between minority groups but have also created tension within minority groups themselves Turning to aesthetics and religious faith these writers attempt to undermine secular social and cultural structures that are responsible for this crisis of minority identity **Contemporary Christianity and LGBT Sexualities** Stephen Hunt, 2016-05-13 The subject of gay and lesbian sexuality is perhaps the most vexed issue in the contemporary Christian Church Many churches have been forced to confront the matter both theologically and pastorally and in consequence controversies have proved divisive within the Church most notably between conservative and liberal orientated denominations as well as evangelical churches This book explores these themes from a sociological perspective addressing not only gay and lesbian sexualities but also bi and transgendered sexualities With rich empirical material being presented by a team of experts this book constitutes the first comprehensive sociological study of non hetero sexualities in relation to contemporary Christianity As such it will appeal to sociologists scholars of religion and theology as well as readers across a range of social sciences **The Oxford Handbook of Christianity and Economics** Paul Oslington, 2014-01-31 Many important contemporary debates cross economics and religion in turn raising questions about the relationship between the two fields This book edited by a leader in the new interdisciplinary field of economics and religion and with contributions by experts on different aspects of the relationship between economics and Christianity maps the current state of scholarship and points to new directions for the field It covers the history of the relationship between economics and Christianity economic thinking in the main Christian traditions and the role of religion in economic development as well as new work on the economics of religious behavior and religious markets and topics of debate between economists and theologians It is essential reading for economists concerned with the foundations of their discipline historians moral philosophers theologians seeking to engage with economics and public policy researchers and practitioners **The Oxford Handbook of the Sociology of Religion** Peter Clarke, 2011-02-04 The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an

entry point into the sociological study and understanding of religion and an in depth survey into its changing forms and content in the contemporary world The role and impact of religion and spirituality on the politics culture education and health in the modern world is rigorously discussed and debated The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion Using a combination of theoretical methodological and content led approaches the fifty seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law ecology to art music to cognitive science crime to institutional health care and more The developing character of religion irreligion and atheism and the impact of religious diversity on social cohesion are explored An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline

Exploring the Postsecular, 2010-05-17 The re emergence of the religious in secular domains has led prominent scholars such as J rgen Habermas and Charles Taylor to speculate about a new postsecular age The alleged shift from the secular to the postsecular is most visible in the spheres of urban public space governance and civil society This volume addresses contemporary relations between religion politics and urban societies primarily from a theoretical perspective while also paying attention to empirical manifestations of the central conceptual ideas The primary focus is the relations between public religion deprivatization of religion and theorizations of modernity and modernities with the secondary and closely related focus on theorizing postsecular urbanism including the role of faith based organizations FBOs in cities Contributors include Justin Beaumont James A Beckford Luke Bretherton Paul Cloke Candice Dias Wilhelm Gr b Maaïke de Haardt Jason Hackworth Christoph Jedan Kim Knott Michiel Leezenberg Bernice Martin David Martin Gregor McLennan Arie L Molendijk Nihan zdemir S nmez Martijn Oosterbaan Andy F Sanders Anke Schuster and Hetty Zock
