**Robo Sacer** David S. Dalton, 2023-05-15 *Robo Sacer* engages the digital humanities critical race theory border studies biopolitical theory and necropolitical theory to interrogate how technology has been used to oppress people of Mexican descent both within Mexico and in the United States since the advent of the North American Free Trade Agreement NAFTA in 1994 As the book argues robo sacer identity emerges as transnational flows of bodies capital and technology become an institutionalized state of exception that relegates people from marginalized communities to the periphery And yet the same technology can be utilized by the oppressed in the service of resistance The texts studied here represent speculative stories about this technological empowerment These texts theorize different means of techno resistance to key realities that have emerged within Mexican and Chicano communities under

the rise and reign of neoliberalism The first three chapters deal with dehumanization the trafficking of death and unbalanced access to technology The final two chapters deal with the major forms of violence feminicide and drug related violence that have grown exponentially in Mexico with the rise of neoliberalism These stories theorize the role of technology both in oppressing and in providing the subaltern with necessary tools for resistance Robo Sacer builds on the previous studies of Sayak Valencia Irmgard Emmelhainz Guy Emerson Achille Mbembe and of course Giorgio Agamben but it differentiates itself from them through its theorization on how technology and particularly cyborg subjectivity can amend the reigning biopolitical and necropolitical structures of power in potentially liberatory ways Robo Sacer shows how the cyborg can denaturalize constructs of zo by providing an outlet through which the oppressed can tell their stories thus imbuing the oppressed with the power to combat imperialist forces

**Shakespeare's Women and the Fin de Siècle** Sophie

Duncan,2016-12-01 Shakespeare's Women and the Fin de Siècle illuminates the most iconoclastic performances of Shakespeare's heroines in late Victorian theatre through the celebrity commentary and wider careers of the actresses who played them By bringing together fin de siècle performances of Shakespeare and contemporary Victorian drama for the first time this book illuminates the vital ways in which fin de siècle Shakespeare and contemporary Victorian theatre culture conditioned each other Actresses' movements between Shakespeare and fin de siècle roles reveal the collisions and unexpected consonances between apparently independent areas of the fin de siècle repertory Performances including Ellen Terry's Lady Macbeth Madge Kendal's Rosalind and Lillie Langtry's Cleopatra illuminate fin de siècle Shakespeare's lively intersections with cultural phenomena including the Jack the Ripper killings Aestheticism the suicide craze and the rise of metropolitan department stores If as previous studies have shown Shakespeare was everywhere in Victorian culture Sophie Duncan explores the surprising ways in which late Victorian culture from Dracula to pornography and from Ruskin to the suffragettes inflected Shakespeare Via a wealth of unpublished archival material Duncan reveals women's creative networks at the fin de siècle and how Shakespearean performance traditions moved between actresses via little studied performance genealogies At the same time controversial new stage business made fin de siècle Shakespeare as much a crucible for debates over gender roles and sexuality as plays by Ibsen and Shaw Increasingly actresses' creative networks encompassed suffragist activists who took personal inspiration from star Shakespearean actresses From a Salome-esque Juliet to a feminist Paulina fin de siècle actresses created cultural legacies which Shakespeare in performance still negotiates today **Lost Saints** Tricia A. Lootens,1996 They also carry long standing struggles over femininity and sanctity into new highly charged secular contexts Religious Men and Masculine Identity in the Middle Ages P. H. Cullum,Katherine J. Lewis,2013 Essays offering new approaches to the changing forms of medieval religious masculinity **Exploring Ethnographic and Non-Ethnographic Approaches of Suicide and Self-Harm** Elena Xenii,2019-07-22 This volume was first published by Inter Disciplinary Press in 2015 Ethnographic and non ethnographic approaches to suicide and self harming are explored in this volume With contributions from authors with research teaching and practical experience in the field of suicide usually seen as a solution a response to the collapse of hopes plans and expectations and a complex death phenomenon surrounded by fear and taboo this volume attempts to add to little empirical research on suicide and self harm as the fastest growing behavioural problem amongst teenagers and adolescents **Conflicting Femininities in Medieval German Literature** Karina Marie Ash,2016-05-23 Drastic changes in lay religiosity during the High Middle Ages spurred anxiety about women forsaking their secular roles as wives and mothers for religious ones as nuns and beguines This anxiety and the subsequent need to model an ideal of feminine behavior for the laity is particularly expressed in the German versions of Latin and French narratives Using thirteenth century penitentials monastic exempla and sermons Karina Marie Ash clarifies how secular wifehood was recast as a quasi religious role and in German epics and romances from the late twelfth and early thirteenth

centuries how female characters are adapted to promote the salvific nature of worldly love in ways that echo the pastoral reevaluation of women at that time. Then she argues that mid and late thirteenth century German literature not only reflects this impulse to idealize women's roles in lay society but also to promote an alternative model of femininity that deploys ways of privileging secular roles for women over religious ones. These continuously evolving readaptations of female protagonists across cultures and across centuries reflect fictive solutions for real historical concerns about women that not only complement contemporary pastoral and legal reforms but are also unique to medieval German literature.

Human Security and International Insecurity Georg Frerks, Berma Klein Goldewijk, 2023-08-28 Human security is about everyday realities of violent conflict and poverty, humanitarian crises, epidemic diseases, injustice and inequality. It is about freedom from fear and freedom from want. It is much different from state-related security with its emphasis on military force, territory and sovereignty. Human security places the security of individuals, communities and global humanity ahead of the security concerns of the state. How does human security relate to international security? Can human security still be advanced in a global climate of intrastate conflict, the war on terror and increasing nuclear tensions? This book challenges prevailing security thinking and explores basic standards of humanity. This multi-authored book deals with the origins and developments of human security as a concept and how it is used in policy practice. It presents new approaches by focusing on alternative discourses, the actors involved and the new forms of governance that are required. It outlines the challenges human security faces in different parts of the world due to conflict, terrorism and new wars, globalisation and the resurgence of religion, development, cooperation, environmental problems and the role of science. Facing the challenges, this book aims to raise human security out of the status of a contemporary problematique by bringing it closer to a resolution. I am convinced that this book provides an original contribution and a further impetus to developing well-grounded academic and policy responses to world-wide problems that so urgently require solutions.

**Mystifying Kabbalah** Boaz Huss,2020-09-10 Most scholars of Judaism take the term Jewish mysticism for granted and do not engage in a critical discussion of the essentialist perceptions that underlie it Mystifying Kabbalah studies the evolution of the concept of Jewish mysticism It examines the major developments in the academic study of Jewish mysticism and its impact on modern Kabbalistic movements in the contexts of Jewish nationalism and New Age spirituality Boaz Huss argues that Jewish mysticism is a modern discursive construct and that the identification of Kabbalah and Hasidism as forms of mysticism which appeared for the first time in the nineteenth century and has become prevalent since the early twentieth shaped the way in which Kabbalah and Hasidism are perceived and studied today The notion of Jewish mysticism was established when western scholars accepted the modern idea that mysticism is a universal religious phenomenon of a direct experience of a divine or transcendent reality and applied it to Kabbalah and Hasidism Jewish mysticism gradually became the defining category in the modern academic research of these topics This book clarifies the historical cultural and political contexts that led to the identification of Kabbalah and Hasidism as Jewish mysticism exposing the underlying ideological and theological presuppositions and revealing the impact of this mystification on contemporary forms of Kabbalah and Hasidism
