*Security Protocols* Bruce Christianson,Bruno Crispo,James A. Malcolm,Michael Roe,2005-09-21 Greetings These are the proceedings of the 11th in our series of International Workshops on Security Protocols Our theme this time was Where have all the Protocols gone Once upon a time security protocols lived mainly in the network and transport layers Now they increasingly hide in applications or in specialised hardware Does this trend lead to better security architectures or is it an indication that we are addressing the wrong problems The intention of the workshops is to provide a forum where incompletely workedoutideascanstimulatediscussion openupnewlinesofinvestigation and suggestmoreproblems The positionpaperspublished herehavebeen revisedby the authors in the light of their participation in the workshop In addition we publish edited transcripts of some of the discussions to give our readers access to some of the roads ahead not yet taken We hope that these revised position papers and edited transcripts will give you at least one interesting idea of your own to

explore Please do write and tell us what it was Our purpose in publishing these proceedings is to produce a conceptual map which will be of enduring interest rather than to be merely topical This is perhaps just as well given the delay in production This year we moved to new computer based recording technology and of course it failed completely **Security Protocols** Bruce Christianson,2001-09-12 This book constitutes the thoroughly refereed post proceedings of the 8th International Workshop on Security Protocols held in Cambridge UK in April 2000 The 21 papers presented with transcriptions of the discussion following the presentation have gone through two rounds of revision and selection also included are a keynote address and a discussion summary and an afterword by the volume editors Among the topics addressed are authentication trust in cyberspace identification protocols administration and government issues specification access privileges PKI certificates trust based billing systems public key cryptosystems denial of service anonymous auction protocols and certification *Security Protocols* , Security Protocols Bruce Christianson,Bruno Crispo,William S. Harbison,Michael Roe,1999-02-26 This book constitutes the thoroughly refereed post workshop proceedings of the 6th International Workshop on Security Protocols held in Cambridge UK in April 1998 The 15 revised papers presented as position statements are followed by transcripts of the discussions between the authors and the audience Also included is a report on the final panel discussion on future directions in security protocols research and developments Thus the volume reflects the lively interaction at the workshop The papers are devoted to the interrelations between trust and delegation exploring the implications and effects of these upon such issues as authorization security policy and cryptosystems and component design

**Security Protocols** Bruce Christianson,James Malcolm,Frank Stajano,Jonathan Anderson,Joseph Bonneau,2013-11-05 This book constitutes the thoroughly refereed post workshop proceedings of the 21st International Workshop on Security Protocols held in Cambridge UK in March 2013 The volume contains 14 revised papers with transcripts of the presentation and workshop discussion and an introduction i e 15 contributions in total The theme of the workshop was What s Happening on the Other Channel **Security Protocols** Bruce Christianson,Bruno Crispo,James A. Malcolm,Michael Roe,2003-06-30 Hello and welcome These are the proceedings of the 9th International Workshop on Security Protocols the rst to be held in the new millennium This year our theme was mobile computing versus immobile security As usual the insights and challenges which emerged during the workshop are re ected in the position papers which appear here in rewritten form Transcripts are also included of the discussions which took place in C bridge as the initial versions were presented These transcripts are intended to provide a perspective on lines of argument which are worth pursuing further Our desire is that you will join with us in this activity and that as a result you will like many of our participants feel moved to propound something quite di erent from what you originally planned Our thanks as always to Prof Roger Needham FRS and to Microsoft search Ltd Cambridge for the use of the meeting room and co ee machine Thanks also to Lori Klimaszweska of the University of Cambridge Computing Service for transcribing the audio tapes and for revealing in Audrey James a previously

unsuspected double life of a well known double agent and to Dr Mary Buchanan for her assistance in editing the transcripts into a Thucydidean mould Actually we are often asked how we go about producing the transcripts especially upon those occasions when for various reasons no audio recording was made This year we bow to pressure and reveal the details of our methodology in the Afterword
