Sedcond Language Learning:

Foreign and Second Language Learning William Littlewood, 1984-04-26 The relevance of language acquisition to the day to day concerns of teaching and learning languages New Perspectives on Transfer in Second Language Learning Liming Yu, Terence Odlin, 2016 When people attempt to learn a new language the language s they already know can help but also hinder their understanding or production of new forms This phenomenon known as language transfer is the focus of this book The collection offers new theoretical perspectives some in the empirical studies and some in other chapters and consists of four sections considering lexical syntactic phonological and cognitive perspectives The volume provides a wealth of studies on the influence of Chinese on the acquisition of English but also includes studies involving Finnish French Hindi Korean Persian Spanish Swedish and Tamil It will be of great interest to researchers and students working in the areas of crosslinguistic influence in second language acquisition language pedagogy and psycholinguistics *AFFECT IN FOREIGN LANGUAGE AND SECOND LANGUAGE LEARNING* Dolly J. Young, 1999 Affect in Foreign Language and Second Language Learning offers high school and college university second language teachers or teachers in training practical suggestions for creating activities that take into account learner anxieties frustrations or discomfort in the language learning process The objective of the book is to offer concrete instructional approaches for language learning that are rooted in second language acquisition research and at the same time that promote a low anxiety classroom environment The authors of each chapter are specialists in specific areas of language learning and their essays composed specifically for this volume lay the groundwork for continued research on affect in language learning This text is part of the McGraw Hill Second Language Professional Series edited by James F Lee and Bill VanPatten Usage-Based Perspectives on Second Language Learning Teresa Cadierno, Søren Wind Eskildsen, 2015-10-16 This edited volume brings together perspectives that find mutual kinship in a view of language as an embodied semiotic symbolic tool used for communicative and interactional purposes and an understanding of language use as the preeminent condition for language learning perspectives that we conjoin under the umbrella term of usage based perspectives First Language Use in Second and Foreign Language Learning Miles Turnbull, Jennifer Dailey-O'Cain, 2009 This book focuses on the use of the first language in communicative or immersion type classrooms Through the intersection of theory practice curriculum and policy the volume calls for a reconceptualization of code switching as something that both proficient and aspiring bilinguals do naturally and as a practice that is inherently linked with bilingual code switching Conditions for Second Language Learning Bernard Spolsky, 1989 Spolsky here examines the conditions under which languages are learned and how learning related to teaching His theory set out in the form of a preference model emphasizes the need to be precise and clear on the nature of the goals and outcomes of learning and to recognize the complexity of the concept of knowing a second language Second Language Acquisition and Second Language Learning Stephen D. Krashen, 1981 On the Monitor Theory of adult second language acquisition **Learning**

Strategies in Second Language Acquisition J. Michael O'Malley, Anna Uhl Chamot, 1990-02-23 A review of the literature on learning strategies describing and classifying learning strategies in second language learning **Second Language**

Task Complexity Peter Robinson, 2011-09-13 Understanding how task complexity affects second language learning interaction and spoken and written performance is essential to informed decisions about task design and sequencing in TBLT programs The chapters in this volume all examine evidence for claims of the Cognition Hypothesis that complex tasks should promote greater accuracy and complexity of speech and writing as well as more interaction and learning of information provided in the input to task performance than simpler tasks Implications are drawn concerning the basic pedagogic claim of the Cognition Hypothesis that tasks should be sequenced for learners from simple to complex during syllabus design Containing theoretical discussion of the Cognition Hypothesis and cutting edge empirical studies of the effects of task complexity on second language learning and performance this book will be important reading for language teachers graduate students and researchers in applied linguistics second language acquisition and cognitive and educational psychology

The Age Factor in Second Language Acquisition David Michael Singleton, Zsolt Lengyel, 1995-01-01 This book takes a hard look at some of the assumptions that are customarily made concerning the role of age in second language acquisition The evidence and arguments the contributors present run counter to the notion that an early start in second language learning is of itself either absolutely sufficient or necessary for the attainment of native like mastery of a second language Another theme of the book is a doubt that there is a particular stage of maturity beyond which language learning is no longer fully possible In short the book presents a challenge to those who take it as given that second language learning is inevitably different in its essential nature from language acquisition in the childhood years and that second language knowledge acquired beyond the critical period is in all circumstances and in all respects doomed to fossilize at a non native like level

Learning a Second Language through Interaction Rod Ellis, 1999-12-15 This book examines different theoretical perspectives on the role that interaction plays in second language acquisition The principal perspectives are those afforded by the Interaction Hypothesis Socio Cultural Theory and the Levels of Processing model Interaction is therefore defined broadly it is seen as involving both intermental and intramental activity The theoretical perspectives are explored empirically in a series of studies which investigate the relationship between aspects of interaction and second language acquisition A number of these studies consider the effects of interaction on the acquisition of vocabulary word meanings by both adult and child L2 learners In addition the effects of language aptitude on input processing are considered Further studies consider the contribution that interaction makes to the acquisition of grammatical knowledge These studies provide clear evidence that social and intermental interaction are major forces in the acquisition of an L2 Finally the book considers a number of pedagogic specifications In particular the importance of discourse control as a means of learners obtaining the quality of interaction likely to foster acquisition is discussed *Tasks in Second Language Learning* Virginia Samuda, Martin

Bygate,2007-11-27 Tasks in Second Language Learning aims to re centre discussion of the ways in which language learning tasks can help offer a holistic approach to language learning and to explore the research implications It relates the broad educational and social science rationale for the use of tasks to the principles and practices of their classroom use The authors provide a balanced review of research as a basis for exploring a broader research agenda Throughout the book offers telling illustration of the contributions of a range of specialists in research teaching methodology and materials development and of the authors own argument

Second Language Acquisition: The Basics Gregory D. Keating, 2015-09-16 Starting from the premise that language instruction should be informed by how humans learn language this module on second language acquisition SLA aims to provide teachers at any level with a comprehensive and up to date introduction to the key findings about how second languages are learned in adulthood This module explores a variety of topics including the mechanisms in the mind responsible for language acquisition the roles that input and output play in acquisition and how language develops in the learner's mind over time Furthermore the module explores the many factors believed to impact the outcome of SLA such as the role of the native language individual differences in aptitude and motivation and age of acquisition Please visit the series companion website for more information <http://routledge-textbooks.com/textbooks/9781315679594>

Peer Interaction and Second Language Learning Masatoshi

Sato (Psycholinguist), Susan Gail Ballinger, 2016 This volume represents the first collection of empirical studies focusing on peer interaction for L2 learning These studies aim to unveil the impact of mediating variables such as task type mode of interaction and social relationships on learners interactional behaviors and language development in this unique and pedagogically powerful learning context To examine these issues contributors employed quantitative qualitative and mixed methods designs as well as cognitive social and sociocognitive theoretical frameworks The majority of the studies are classroom based and were conducted in a rich array of settings covering five continents and encompassing a wide range of learner L1s and target languages These settings include second and foreign language classrooms from primary to university level content based programs online contexts and after school programs To span the divide between research and practice each study includes a section suggesting pedagogical implications

Strategies in Learning and Using a Second Language
Andrew D. Cohen, 2014-06-11 *Strategies in Learning and Using a Second Language* examines what it takes to achieve long term success in languages beyond the first language Distinguishing language learning from language use strategies Andrew D Cohen disentangles a morass of terminology to help the reader see what language strategies are and how they can enhance performance Particular areas of research examined in the book include links between the use of task specific strategies and language performance how multilinguals verbalise their thoughts during language learning and use strategies that learners use in test taking contexts In this fully revised and substantially rewritten second edition every chapter has been reworked with material either updated or replaced Entirely new material has also been developed based on examples of specific strategies supplied by actual learners mostly drawn from a website featuring these strategies in the learning of Spanish grammar *Strategies in Learning and Using a Second language* will be an invaluable resource for language teachers and researchers as well as for administrators of second language programmes and for students of applied linguistics
