Cleaver, Barbara Chatton, Shirley Vittum Morrison, 1986 *Inside the Danger Zones* Paul Moorcraft, 2011-10-31 Sometimes hilarious sometimes tragic Inside the Danger Zones is the story of Paul Moorcraft's work during the major wars of the last three decades As a freelance war correspondent and military analyst for many of the top TV networks Moorcraft has parachuted into countless war zones and worked at the heart of the British security establishment He has the habit of being in the wrong place at the worst of times from the siege of Sarajevo in the 1990s to the siege of the West Bank town of Jenin in 2002 This book takes him to a series of conflict zones from Afghanistan to Zimbabwe covering coups and counter coups across the globe Along the way he encounters some of the most dangerous people in the world in Afghanistan when the West was training bin Laden's Mujahedin fighters interviewing Mugabe during the Rhodesian Bush War of the late 1970s and travelling to meet Saddam on the eve of the 2003 allied invasion of Iraq **The British Library General Catalogue of Printed Books 1976 to 1982** British Library, 1983 [Islamic Heritage Architecture and Art III](#) J. Casares, S. Dominguez Amarillo, 2020-08-11 Islamic architecture has enriched design with a wide variety of structural shapes including among others unique arches a wide variety of vaults and domes which allow for new forms to be developed The influence that these structural forms have in non Islamic countries was one of the themes of the 3rd International Conference on Islamic Heritage Architecture and Art at which the included papers were presented There is much to learn from past experiences to arrive at solutions which are environmentally sound and sustainable in the long term As conventional energy resources become scarce the Islamic design heritage can offer invaluable lessons on how to deal in an efficient manner with cases of hard and extreme environments Traditional architecture and urban environments in most Islamic countries are now being eroded by overemphasis on a global type of architecture and city planning As a consequence many regions are losing their identity It will become increasingly important for new developments to take light of what the classical Islamic urban designs and architectures have to offer modern society An equally important aspect covered is the analysis of the materials employed and the types of structural elements particularly those unique to Islamic architecture Preserving this heritage requires the

development of appropriate conservation techniques in response to the different materials used and the ways structural forms work including under extreme conditions such as earthquakes These papers deal with the design of many types of buildings in Islamic countries including not only the better known public buildings like mosques mausolea citadels and forts but also houses and gardens engineering works such as bridges and dams irrigation systems and many others which have also had a profound impact on society

The New Rich in China David Goodman, 2008-05-07 Three decades of reform since 1978 in the People's Republic of China have resulted in the emergence of new social groups which have included new occupations and professions generated as the economy has opened up and developed and most spectacularly given the legacy of state socialism the identification of those who are regarded as wealthy However although China's new rich are certainly a consequence of globalization there remains a need for caution in assuming either that China's new rich are a middle class or that if they are they should immediately be equated with a universal middle class Including sections on class status and power agency and structure and lifestyle The New Rich in China investigates the political socio economic and cultural characteristics of the emergent new rich in China the similarities and differences to similar phenomenon elsewhere and the consequences of the new rich for China itself In doing so it links the importance of China to the world economy and helps us understand how the growth of China's new rich may influence our understanding of social change elsewhere This is a subject that will become increasingly important as China continues its development and private entrepreneurship continues to be encouraged and as such The New Rich in China will be an invaluable volume for students and scholars of Chinese studies history and politics and social change

Tiger Girls Minglu Chen, 2012-03-29 The existing scholarship on women in China suggests that gender inequality still exists against the background of the country's

reform and opening in recent years. However, the situation of women in enterprise ownership and leadership seems to indicate that despite such notions of disadvantage amongst women, some of them are playing a more active and significant role in China's economic development. Based on a series of interviews with female enterprise owners, wives of enterprise owners, and women managers conducted in diverse locations in three different provinces of China, *Tiger Girls* examines the deeper realities of women entrepreneurs in China and, by extension, the role of leading women in the workforce. By analyzing information on these women's personal experiences, careers, and families, this book investigates their status at work and at home as well as their connections with local politics. The research results suggest that although traces of gender inequality can still be found in these women's lives, they appear to be actively engaged in the business establishment and operation and gradually casting off the leash of domestic responsibilities. This book will be of interest to students and scholars of Chinese Studies, Chinese Business, Chinese Economics, and Asian Studies. Minglu Chen is ARC Postdoctoral Fellow in the Department of Government and International Relations at Sydney University, Australia.
