Seeing Like a State James C. Scott, 2020-03-17 One of the most profound and illuminating studies of this century to have been published in recent decades John Gray New York Times Book Review Hailed as a magisterial critique of top down social planning by the New York Times this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail sometimes catastrophically in grand efforts to engineer their society or their environment and uncovers the conditions common to all such planning disasters Beautifully written this book calls into sharp relief the nature of the world we now inhabit New Yorker A tour de force Charles Tilly Columbia University **Seeing Like a State**, 1998 Refer review by Iver B Neumann in Internasjonal Politikk Vol 59 4 2001 pp 565 569 **Responsible Research and Innovation** Robert Gianni, John Pearson, Bernard Reber, 2018-07-27 Responsible Research and Innovation provides a comprehensive and impartial overview of the European Commission's Responsible Research and Innovation RRI framework including discussion of both the meaning and aims of the concept and of its practical application As a governance framework for research and innovation RRI involves four key perspectives ethical economic business legal and governance and political The book is organised into chapters covering these different dimensions The authors provide different viewpoints on these aspects in order to offer guidance from experts in the field while at the same time acknowledging the interpretative openness of the RRI frameworks *Human Flourishing* Greg Forster, Anthony R. Cross, 2020-08-28 Beyond an internal transformation or mere moment of salvation how does Christian faith envision the good life This question demands not only a Christian view of how individuals should live but of how social institutions are best arranged for human flourishing In the advanced modern world our common public life is mainly lived out in the domains of work and commerce so a Christian view of economic life is essential to a modern Christian view of human flourishing In this volume established evangelical scholars in theology biblical studies and history explore their disciplines in connection with economic wisdom to yield insights about what it means to live wholly fruitfully and well Faithful and provocative these essays uncover fresh ground on topics ranging from poverty to work ethic to capitalism socialism to slavery to non profit entities to the medieval indulgence industry **The Counterinsurgent's Constitution** Ganesh Sitaraman, 2013 Since the surge in Iraq in 2006 counterinsurgency effectively became America's dominant approach for fighting wars Yet many of the major controversies and debates surrounding counterinsurgency have turned not on military questions but on legal ones Who can the military attack with drones Is the occupation of Iraq legitimate What tradeoffs should the military make between self protection and civilian casualties What is the right framework for negotiating with the Taliban How can we build the rule of law in Afghanistan The Counterinsurgent's Constitution tackles this wide range of legal issues from the vantage point of counterinsurgency strategy Ganesh Sitaraman explains why law matters in counterinsurgency how it operates on the ground and how law and counterinsurgency strategy can be better integrated Counterinsurgency Sitaraman notes focuses on winning over the population providing essential

services building political and legal institutions and fostering economic development So unlike in conventional war where law places humanitarian restraints on combat law and counterinsurgency are well aligned and reinforce one another Indeed following the law and building the rule of law is not just the right thing to do it is strategically beneficial Moreover reconciliation with enemies can both help to end the conflict and preserve the possibility of justice for war crimes Following the rule of law is an important element of success The first book on law and counterinsurgency strategy The

On the Move Tim Cresswell, 2006 On the Move presents a rich history of one of the key

concepts of modern life mobility Increasing mobility has been a constant throughout the modern era evident in mass car ownership plane travel and the rise of the Internet Typically people have equated increasing mobility with increasing freedom However as Cresswell shows while mobility has certainly increased in modern times attempts to control and restrict mobility are just as characteristic of modernity Through a series of fascinating historical episodes Cresswell shows how mobility and its regulation have been central to the experience of modernity **In the Shadow of War and Empire**

Seeing Like a Citizen Kara Moskowicz approaches Kenya's late colonial and early postcolonial eras as a single period of political economic and social transition In focusing on rural Kenyans the vast majority of the populace and the main targets of development interventions as they actively sought access to aid she offers new insights into the texture of political life in decolonizing Kenya and the early postcolonial world Using multisited archival sources and oral histories focused on the western Rift Valley Seeing Like a Citizen makes three fundamental contributions to our understanding of African and Kenyan history First it challenges the widely accepted idea of the gatekeeper state revealing that state control remained limited and that the postcolonial state was an internally varied and often dissonant institution Second it transforms our understanding of

postcolonial citizenship showing that its balance of rights and duties was neither claimed nor imposed but negotiated and differentiated Third it reorients Kenyan historiography away from central Kenya and elite postcolonial politics The result is a powerful investigation of experiences of independence of the meaning and form of development and of how global political practices were composed and recomposed on the ground in local settings *Regulating Business for Peace* Jolyon Ford, 2015-02-05 This book addresses gaps in thinking and practice on how the private sector can both help and hinder the process of building peace after armed conflict It argues that weak governance in fragile and conflict affected societies creates a need for international authorities to regulate the social impact of business activity in these places as a special interim duty Policymaking should seek appropriate opportunities to engage with business while harnessing its positive contributions to sustainable peace However scholars have not offered frameworks for what is considered appropriate engagement or properly theorised techniques for how best to influence responsible business conduct United Nations peace operations are peak symbols of international regulatory responsibilities in conflict settings and debate continues to grow around the private sector's role in development generally This book is the first to study how peace operations have engaged with business to influence its peace building impact **Imperial Desert Dreams** Julia Obertreis, 2017-12-11 Beamte Ingenieure und Wissenschaftler des Russischen Reiches und später der Sowjetunion planten die Ausweitung und Modernisierung der Bewässerungssysteme und des Baumwollanbaus in Zentralasien Die Studie die das heutige Usbekistan und Turkmenistan untersucht betont die diskursiven und politischen Kontinuitäten über die Zsur von 1917 hinweg Einer der zentralen Topoi war die Umwandlung von toten Steppen und Wüsten in blühende Oasen Der high modernism erreichte seinen Höhepunkt in den Nachkriegsjahrzehnten Seit den 1970er Jahren entwickelte sich eine Kritik an der sowjetischen Modernisierung die in der Perestrojkazeit an Fahrt aufnahm Letztendlich trugen die ökologischen und ökonomischen sowie sozialen Folgewirkungen der wachstumsfixierten Modernisierung zum Zusammenbruch des kommunistischen Regimes bei Officials engineers and scientists in the Russian Empire and later the Soviet Union envisaged the expansion and modernization of irrigation systems and cotton growing in Central Asia Focusing on the region of today's Uzbekistan and Turkmenistan this book highlights the continuities in discourse and policies beyond the historical divide of 1917 One of the central topoi was the transformation of dead lands into blossoming oases High modernism policies hit their peak in the post war decades From the 1970s an ecological critique evolved which gained momentum in the Perestroika period Ultimately the grave ecological economic and social consequences of the growth fixated modernization contributed to the downfall of the Communist regime *Colonialism in Question* Frederick Cooper, 2005-06-06 Probably the most important historian of Africa currently writing in the English language His intellectual reach and ambition have even taken influence far beyond African studies as such and he has become one of the major voices contributing to debates over empire colonialism and their aftermaths This book is a call to reinvigorate the critical way in which history can be written Cooper takes on many of the

standard beliefs passing as postcolonial theory and breathes fresh air onto them Michael Watts Director of the Institute of International Studies Berkeley This is a very much needed book on Africa on intellectual artisanship and on engagement in emancipatory projects Drawing on his enormous erudition in colonial history Cooper brings together an intellectual and a moral political argument against a series of linked developments that privilege taking a stance and in favor of studying processes of struggle through engaged scholarship Jane I Guyer author of Marginal Gains **Reimagining Social**

Medicine from the South Abigail H. Neely, 2021-07-12 In Reimagining Social Medicine from the South Abigail H Neely explores social medicine s possibilities and limitations at one of its most important origin sites the Pholela Community Health Centre PCHC in South Africa The PCHC s focus on medical and social factors of health yielded remarkable success And yet South Africa s systemic racial inequality hindered health center work and witchcraft illnesses challenged a program rooted in the sciences To understand Pholela s successes and failures Neely interrogates the social in social medicine She makes clear that the social sciences the PCHC used failed to account for the roles that Pholela s residents and their environment played in the development and success of its program At the same time the PCHC s reliance on biomedicine prevented it from recognizing the impact on health of witchcraft illnesses and the social relationships from which they emerged By rewriting the story of social medicine from Pholela Neely challenges global health practitioners to recognize the multiple worlds and actors that shape health and healing in Africa and beyond
