This Sacred Earth Roger S. Gottlieb, 1996 This is the first comprehensive survey of the critical connections between religion nature and the environment It includes writings from sacred texts and a broad spectrum of new eco theological selections Historical and contemporary selections from key authors and a multicultural range of sources make This Sacred Earth an invaluable teaching resource and a unique introduction to the theory and practice of religious environmentalism

Black Elk, Lakota Visionary Harry Oldmeadow, 2018-04-01 Black Elk 1863 1950 the Lakota holy man is beloved by millions of readers around the world The book Black Elk Speaks is the most widely read Native American testimony of the last century and a key work in our understanding of American Indian traditions In Black Elk Lakota Visionary Harry Oldmeadow draws on recently discovered sources and in depth research to provide a major re assessment of Black Elk s life and work The author explores Black Elk s mystical visions his controversial engagement with Catholicism and his previously unrecognized attempts to preserve and revive ancestral Sioux beliefs and practices Oldmeadow s lively and highly readable account also examines the controversies that have surrounded Black Elk and his collaborators John G Neihardt and Joseph Epes Brown Oldmeadow judiciously explains why both Black Elk Speaks and The Sacred Pipe Black Elk s Account of the Seven Rites of the Oglala Sioux are to be ranked amongst the most profound spiritual documents of the twentieth century Black Elk Lakota Visionary will command the attention of every reader who is interested in the American Indians providing fascinating insights into their ancestral traditions prior to the reservation era the subsequent destruction and revival of their traditional ways and the vital lessons which the contemporary world might draw from their spiritual legacy Sing with the Heart of a Bear Kenneth Lincoln, 2023-09-01 Examining contemporary poetry by way of ethnicity and gender Kenneth Lincoln tracks the Renaissance invention of the Wild Man and the recurrent Adamic myth of the lost Garden He discusses the first anthology of American Indian verse The Path on the Rainbow 1918 which opened Jorge Luis Borges university surveys of

American literature to thirty five contemporary Indian poets who speak to with and against American mainstream bards From Whitman s free verse through the Greenwich Village Renaissance sandwiched between the world wars and the post apocalyptic Beat incantations to transglobal questions of tribe and verse at the century s close Lincoln shows where we mine the mother lode of New World voices what distinguishes American verse which tales our poets sing and what inflections we hear in the rhythms pitches and parsings of native lines Lincoln presents the Lakota concept of singing with the heart of a bear as poetry which moves through an artist He argues for a fusion of estranged cultures tribal and migr margin and mainstream in detailing the ethnopoetics of Native American translation and the growing modernist concern for a native sense of the makings of American verse This fascinating work represents a major new effort in understanding American and Native American literature spirituality and culture Examining contemporary poetry by way of ethnicity and gender Kenneth Lincoln tracks the Renaissance invention of the Wild Man and the recurrent Adamic myth of the lost Garden He discusses the first anthology of American Indian verse *The Path on the* *The Columbia Guide to American Indian Literatures of the United States Since 1945* Eric Cheyfitz,2006-04-04 The Columbia Guide to American Indian Literatures of the United States Since 1945 is the first major volume of its kind to focus on Native literatures in a postcolonial context Written by a team of noted Native and non Native scholars these essays consider the complex social and political influences that have shaped American Indian literatures in the second half of the twentieth century with particular emphasis on core themes of identity sovereignty and land In his essay comprising part I of the volume Eric Cheyfitz argues persuasively for the necessary conjunction of Indian literatures and federal Indian law from Apess to Alexie Part II is a comprehensive survey of five genres of literature fiction Arnold Krupat and Michael Elliott poetry Kimberly Blaeser drama Shari Huhndorf nonfiction David Murray and autobiography Kendall Johnson and discusses the work of Vine Deloria Jr N Scott Momaday Joy Harjo Simon Ortiz Louise Erdrich Leslie Marmon Silko Gerald Vizenor Jimmy Santiago Baca and Sherman Alexie among many others Drawing on historical and theoretical frameworks the contributors examine how American Indian writers and critics have responded to major developments in American Indian life and how recent trends in Native writing build upon and integrate traditional modes of storytelling Sure to be considered a groundbreaking contribution to the field *The Columbia Guide to American Indian Literatures of the United States Since 1945* offers both a rich critique of history and a wealth of new information and insight *Sending My Heart Back Across the Years* Hertha Dawn Wong,1992-03-12 Using contemporary autobiography theory and literary historical and ethnographic approaches Wong explores the transformation of Native American autobiography from pre contact oral and pictographic personal narratives through late nineteenth early twentieth century life histories to written contemporary autobiographies This book expands the definition of autobiography to include non written forms of personal narrative and non Western concepts of self highlighting the incorporation of traditional tribal modes of self narration with Western forms of autobiography and charting the historical transition from orality to literacy

My Elders Taught Me John F. Boatman, 1992-05-20 In this book the author examines various aspects of a selection of Western Great Lakes American Indian philosophical traditions and beliefs He combines over forty years of stories anecdotes and observations learned from Western Great Lakes tribal elders into a coherent and thought provoking philosophy text which challenges readers to look beyond their own cultural prepossessions and discover a method of asking questions where the answers come from within Contents Setting the Stages From Another Perspective The Atisokanak World Creation and the Early Earth World The Earth and its People The Star People The Inherent Primacy of Female Beings **A Companion to the Anthropology of American Indians** Thomas Biolsi, 2008-04-15 This Companion is comprised of 27 original contributions by leading scholars in the field and summarizes the state of anthropological knowledge of Indian peoples as well as the history that got us to this point Surveys the full range of American Indian anthropology from ecological and political economic questions to topics concerning religion language and expressive culture Each chapter provides definitive coverage of its topic as well as situating ethnographic and ethnohistorical data into larger frameworks Explores anthropology s contribution to knowledge its historic and ongoing complicities with colonialism and its political and ethical obligations toward the people studied *Native American Renaissance* Kenneth Lincoln, 1985-12-04 Lincoln presents the writing of today s most gifted Native American authors against an ethnographic background which should enable a growing number of readers to share his enthusiasm Lincoln has lived with American Indians knows them and is respected by them all this enhances his book Uncertain Hazards Sylvia Noble Tesh, 2018-05-31 Ordinary citizens frequently organize around environmental issues on which little scientific evidence exists to back activists claims Should we then dismiss such claims as spurious Or should we side with citizens against the polluters *Uncertain Hazards* takes neither path In exploring the all too common problem of scientific uncertainty about links between pollution and public health Sylvia Noble Tesh shows that much of the problem can be traced to the newness of the environmental movement The inability of scientists to find data corroborating citizens claims stems partly from the pre environmentalist assumptions still influencing the environmental health sciences Tesh says On the other hand the conviction of activists that industrial pollutants threaten their health results from the environmental movement s success in promoting new ideas about nature Tesh points to ways that environmentalist ideas have begun to affect science thus making more likely the discovery of links between exposure to industrial pollutants and a community s health problems Those ways include the expansion of diseases construed as environmental in cause the study of society s most vulnerable citizens in determining safe levels of pollution and a new focus on the effects of exposure to chemical mixtures Using community activists own words and experiences Tesh argues against the familiar charge that activists are naive about science It is inaccurate she says to characterize debates over the hazardous nature of pollution as debates between laypeople and experts Instead they are debates between two groups of experts It is also inaccurate however to see the conflict over environmental pollution only in scientific terms The conflict has culturally important moral

dimensions and community activists draw heavily although often unconsciously on the lessons taught by environmentalism

What is Reality? Ervin Laszlo, 2016-10-04 Ervin Laszlo's tour de force *What is Reality* is the product of a half century of deep contemplation and cutting edge scholarship. Addressing many of the paradoxes that have confounded modern science over the years, it offers nothing less than a new paradigm of reality, one in which the cosmos is a seamless whole informed by a single coherent consciousness manifest in us all. Bringing together science, philosophy and metaphysics, Laszlo takes aim at accepted wisdom such as the dichotomies of mind and body, spirit and matter, being and nonbeing, to show how we are all part of an infinite cycle of existence unfolding in spacetime and beyond. Augmented by insightful commentary from a dozen scholars and thinkers along with a foreword by Deepak Chopra and an introduction by Stanislov Grof, *What is Reality* offers a fresh and liberating understanding of the meaning and purpose of existence. **Earth-Honoring Faith** Larry L.

Rasmussen, 2015 Larry L. Rasmussen offers a dramatic new way of thinking about human society, ethics and the health of our planet. Rejecting the modern ethical assumption that morality applies to human society alone, *Earth Honoring Faith* argues that we must derive a system of ethics and morality that accounts for the wellbeing of all creation on Earth. **Creation and**

Procreation Marta Weigle, 2016-11-11 This book is a volume in the Penn Press Anniversary Collection. To mark its 125th anniversary in 2015, the University of Pennsylvania Press rereleased more than 1,100 titles from Penn Press's distinguished backlist from 1899-1999 that had fallen out of print. Spanning an entire century, the Anniversary Collection offers peer-reviewed scholarship in a wide range of subject areas. *Social Trust and the Management of Risk* George

Cvetkovich, 2013-12-16 Social trust is a crucial issue to many aspects of modern society. Policy makers continually aspire to winning it, and corporations frequently run the risk of losing it. The trust deficit raises vital questions and problems to which until recently there have been few answers or solutions. Experts from both sides of the Atlantic explore the importance for trust of various influences from individual perceptions to organizational systems and consider the conditions involved in building or undermining trust. Several authors examine practical hazard management issues including medical vaccination programmes and popular participation in pollution control and waste management as strategies for enhancing social trust. This book provides insightful analysis for researchers and students of environmental and social sciences and is essential reading for those engaged in risk management in both the public and private sectors. *Education for Extinction* David

Wallace Adams, 2020-06-10 The last Indian War was fought against Native American children in the dormitories and classrooms of government boarding schools. Only by removing Indian children from their homes for extended periods of time, policymakers reasoned, could white civilization take root while childhood memories of savagism gradually faded to the point of extinction. In the words of one official, "Kill the Indian and save the man." This fully revised edition of *Education for Extinction* offers the only comprehensive account of this dispiriting effort and incorporates the last twenty-five years of scholarship. Much more than a study of federal Indian policy, this book vividly details the day-to-day experiences of Indian youth living in a

total institution designed to reconstruct them both psychologically and culturally The assault on identity came in many forms the shearing off of braids the assignment of new names uniformed drill routines humiliating punishments relentless attacks on native religious beliefs patriotic indoctrinations suppression of tribal languages Victorian gender rituals football contests and industrial training Especially poignant is Adams s description of the ways in which students resisted or accommodated themselves to forced assimilation Many converted to varying degrees but others plotted escapes committed arson and devised ingenious strategies of passive resistance Adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama that the response of accommodation was not synonymous with cultural surrender This is especially apparent in his analysis of students who returned to the reservation He reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men The discussion comes full circle when Adams reviews the government s gradual retreat from the assimilationist vision Partly because of persistent student resistance but also partly because of a complex and sometimes contradictory set of progressive humanitarian and racist motivations policymakers did eventually come to view boarding schools less enthusiastically Based upon extensive use of government archives Indian and teacher autobiographies and school newspapers Adams s moving account is essential reading for scholars and general readers alike interested in Western history Native American studies American race relations education history and multiculturalism

Indigenous Cities Laura M. Furlan, 2017-11-01 A critical study of contemporary American Indian narratives set in urban spaces that reveals how these texts respond to diaspora dislocation citizenship and reclamation
