## **Seeking A New Canadian Partnership Asymmetrical And Confederal Options:**

Seeking a New Canadian Partnership F. Leslie Seidle, Institute for Research on Public Policy, 1994 This document presents asymmetrical and confederal options regarding a new partnership Topics covered are brinkmanship and renewal of Canadian federalism toward a multinational federalism flexibility within the present constitutional framework and the challenge of diversity

**The Case for Centralized Federalism** Gordon DiGiacomo, Maryantonett Flumian, 2010-08-21 The Case for Centralized Federalism and its sister volume The Case for Decentralized Federalism are the outcome of the Federalism Redux Project created to stimulate a serious and useful conversation on federalism in Canada They provide the vocabulary and arguments needed to articulate the case for a centralized or a decentralized Canadian federalism In The Case for Centralized Federalism an array of experts condemns the federal government's submissiveness in its dealings with the provinces and calls for a renewed federal assertiveness They argue that the federal government is best placed to create effective policy support democracy and respond to issues of national importance

**Constitutional Politics in Canada after the Charter** Patrick James, 2011-01-01 The Charter of Rights and Freedoms was introduced in 1982 Since then Canada has experienced more than twenty five years of constitutional politics and countless debates about whether the Canadian federation is integrating or disintegrating There has however been no systematic attempt to identify general theories about Canada's constitutional evolution Patrick James corrects this oversight by using systemism a concept drawn from the philosophy of science to identify and assess five theories that fall into the liberal or communitarian paradigms These theories are examined in the context of major issues such as the role of the courts or the status of Aboriginal peoples and debates among advocates and critics of each theory are used to work toward a greater understanding of constitutional wrangling in Canada By adding clarity to familiar debates this succinct assessment of major writings on constitutional politics sharpens our vision of the past and the future of the Canadian federation

Canada Donald G. Lenihan, Gordon Robertson, Roger Tassé, Institute for Research on Public Policy, 1994 The clearest lesson of the debate over the 1992 Charlottetown Accord is that Canadians are divided in their vision of the country This book looks at the issue and examines how the political philosophy of liberalism especially as incorporated into pan Canadianism under former Prime Minister Pierre Trudeau contrasts and conflicts with the more federalist aspirations of moderate Quebec nationalists western regionalists and Aboriginal peoples

**Equal Recognition** Alan Patten, 2016-11-08 Conflicting claims about culture are a familiar refrain of political life in the contemporary world On one side majorities seek to fashion the state in their own image while on the other cultural minorities press for greater recognition and accommodation Theories of liberal democracy are at odds about the merits of these competing claims Multicultural liberals hold that particular minority rights are a requirement of justice conceived of in a broadly liberal fashion Critics in turn have questioned the motivations coherence and normative validity of such defenses of multiculturalism In Equal Recognition Alan Patten reasserts the case in favor of liberal multiculturalism by

developing a new ethical defense of minority rights Patten seeks to restate the case for liberal multiculturalism in a form that is responsive to the major concerns of critics He describes a new nonessentialist account of culture and he rehabilitates and reconceptualizes the idea of liberal neutrality and uses this idea to develop a distinctive normative argument for minority rights The book elaborates and applies its core theoretical framework by exploring several important contexts in which minority rights have been considered including debates about language rights secession and immigrant integration Demonstrating that traditional nonmulticultural versions of liberalism are unsatisfactory Equal Recognition will engage readers interested in connections among liberal democracy nationalism and current multicultural issues Fiscal

Federalism in Multinational States François Boucher, Alain Noël, 2021-07-21 Substate nationalism is often studied as a question of political identity and cultural recognition The same applies to the study of multinational federalism it is mainly conceived as a tool for the accommodation of minority cultures and identities Few works in political philosophy and political science pay attention to the fiscal and redistributive dimensions of substate nationalism and multinational federalism Yet nationalist movements in Western countries make crucial claims about fiscal autonomy and the fair distribution of resources between national groups within the same state In recent years Scottish nationalists have demanded greater tax autonomy Catalan and Flemish nationalists have viewed themselves as unfairly disadvantaged by centralized fiscal arrangements and equalization payments and social transfers in Canada have exacerbated tensions within the federation In Fiscal Federalism in Multinational States contributors from political philosophy and political science disciplines explore the fiscal side of substate nationalism in Canada Belgium the United Kingdom Spain and Australia Chapters examine the connection between secessionist claims and interregional redistributive arrangements power relations in federations where taxing and spending responsibilities are shared between orders of government the relationship between substate nationalism and fiscal autonomy and the role of federal governments in redistributing resources among substate national groups Fiscal Federalism in Multinational States brings together scholars of nationalism and federalism in a groundbreaking analysis of the connections between nationalist claims and fiscal debates within plurinational states *Theories of Federalism* D. Karmis, W.

Norman, 2016-04-30 This project pulls together classic and modern readings and essays that explore theories of federalism Spanning the Seventeenth through Twenty first centuries of European U S and Canadian thinkers this attempts to be a comprehensive reader for students in political theory The emphasis throughout is on the normative argument the advantages or disadvantages of federal and confederal arrangements compared to unitary states and on the relative merits of various proposals to improve particular federations or confederations These also draw on the full range of political science subfields from political sociology political economy and constitutional studies to comparative politics and international relations There are also readings both contemporary and historical that attempt to clarify conceptual issues **Multilingual Democracy**

Nenad Stojanović, 2021-06-29 Most experts on divided societies and institutional design broadly agree that it is more difficult

to establish and maintain a stable functioning democracy in a country with multiple languages and linguistically fragmented public spheres than in more homogeneous countries Multilingual countries such as Canada and Belgium have been experiencing considerable difficulties in past decades see the almost successful 1995 referendum on sovereignty in Quebec or the institutional deadlock and the rise of Flemish nationalism in Belgium since the 1970s The prospects for the EU to become a viable democracy are even more haunted by multilingualism considering that it has 24 official languages and no lingua franca Switzerland however is also a multilingual country without a lingua franca fragmented into 22 mono lingual and three multilingual cantons as well as into four distinct public spheres German French Italian Romansh And yet it is widely seen as one of the most stable and successful democracies Conventional wisdom in political science literature suggests that consociational political institutions account for the success of Swiss multilingual democracy This book offers a different institutional explanation The author argues that in mainstream literature important Swiss institutions in particular direct democracy Parliament and the federal executive have largely been misinterpreted they have been labelled as consociational whereas they are rather a product of centripetalism an approach to institutional design in which political incentives are directed toward intergroup compromise because of the need to appeal to voters across group lines in order to form majorities This approach to achieving long term democratic stability stands in sharp contrast to consociationalism

Busting Bureaucracy to Reclaim Our Schools Stephen B. Lawton, Joseph Freedman, Heather-jane Robertson, Institute for Research on Public Policy, 1995 In this book the author argues that the bureaucratization of schooling has interfered with the process of education The costs complexity and rigidity of the educational edifice leaves it unresponsive to parental concerns and reluctant to measure its own inadequacies such as illiteracy and high dropout rates among students The author identifies two conceptual bases for action to address this problem public choice theory and agency theory discusses the issue of identity in its relation to education and then makes the case for charter schools in Canada stressing definitions of community parental rights and the need to combat bureaucratic tendencies Two discussants respond to the author's analysis one amplifying his call for charter schools and the other arguing that the basis for demanding reform is less clear than the author claims
