## Seeking Justice:

**Seeking Justice...** Charles M, 101-01-01 The legal system is fair in the way that a soccer match between Manchester City and the Betoota Bandits reserve grade is fair They re playing the same game with the same rules applied consistently But one team has hundreds of millions in resources to invest in their side and the other struggles to find a beat up minibus to get to the game the system doesn't care The legal system exists today as it statistically touches almost zero percentage of the general population if the legal system interacts with people then they care For those that are touched by the legal system is seen by many people as inaccessible complex unpredictable slow and costly where truth and justice is not even an objective The data shows that the greater the number of justiciable interactions the less likely respondents are to perceive the laws and justice system as fair About 72 per cent of people who had zero interactions expressed a favourable view about the fairness of the laws and the justice system This percentage declines steadily as the number of interactions increases Only 40 per cent of respondents with seven or more interactions with the judicial system feel that the laws and the justice system are essentially fair These statistics 1 represent a damning indictment of the justice system If millions of people are intimidated alienated and confused by the prospect of seeking justice in twenty first century then we should consider our legal system to have failed in its fundamental duty to provide justice to all 1 Unjust Kingdom UK perceptions of the justice and legal system Hodge Jones Allen Law firm Dec 2015

**Seeking Justice for the Holocaust** Graham B. Cox, 2019-09-12 The Nuremberg War Crimes Trial has become a symbol of justice the pivotal moment when the civilized world stood up for Europe's Jews and ultimately for human rights Yet the world represented at the time by the Allied powers almost did not stand up despite the magnitude of the horrors perpetrated by the Nazis Seeking justice for the Holocaust had not been an automatic or an obvious mission for the Allies to pursue In this book Graham Cox recounts the remarkable negotiations and calculations that brought the United States and its allies to this point At the center of this story is the collaboration between Franklin D Roosevelt and Herbert C Pell Roosevelt's appointee as U S representative to the United Nations War Crimes Commission in creating an international legal protocol to prosecute Nazi officials for war crimes and genocide Pell emerges here as an unheralded force in pursuing justice and in framing human rights as an international concern The book also enlarges our perspective on Roosevelt's policies regarding European Jews by revealing the depth of his commitment to postwar justice in the face of staunch opposition even from some within his administration What made the international effort especially contentious was a debate over its focus how to punish for aggressive warfare and crimes against humanity Cox exposes the internal contradictions and contortions behind the U S position and the maneuverings of numerous officials negotiating the legal parameters of the trials Most telling perhaps were the efforts of Robert H Jackson the chief U S prosecutor at Nuremberg to circumscribe the scope of new international law for fear of setting precedents that might boomerang on the United States because of its own racial segregation practices With its broad new examination of the background and context of the Nuremberg trials and its expanded view of the roles played by Roosevelt and his unlikely deputy Pell Seeking Justice for the Holocaust offers a deeper and more nuanced understanding of how the Allies came to hold Nazis accountable for their crimes against humanity
