Seizure Of Political Power In A Century:

The Seizure of Political Power in a Century of Revolutions Feliks Gross,1970 **The seizure of political power in a century of revolution** Feliks Gross,1979 **Modern Revolutions** John Dunn,1989-06-22 Many political regimes today draw such legitimacy as they have from a revolution the destruction of an existing political elite and its replacement by a different group or groups drawn from inside the same society A large part of the ideological dispute in world politics has come in consequence to turn on an interpretation of the character of revolutions as political and social events It is extremely difficult to separate ideological assessments of the desirability or otherwise of what has occurred in revolutions from causal explanations of why these revolutions occurred and both major traditions in the analysis of revolutionary phenomena have been damaged by their failure to distinguish clearly between explanation and assessment In examining eight major revolutions of the twentieth century John Dunn helps readers to remedy this state of affairs by thinking for themselves

Revolution Rosemary H. T. O'Kane,2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more Max Weber, Critical Assessments 2 Peter Hamilton,1991 **Decentering European Intellectual Space** ,2018-05-15 Decentering European Intellectual Space challenges the conventional view of intellectual history as a debate over the interpretation of a limited number of texts produced by a small group of prominent scholars writers and intellectuals from the cultural centers of Europe Addressing the question What is European intellectual space this collection of essays seeks to demonstrate how this space is shaped ordered and communicated between Europe s fluctuating cores and peripheries Focusing on the asymmetrical relations between large and small centers and peripheries cores and margins in scholarly and other forms of interaction and within Europe as well as globally the volume brings forth a variety of trajectories and strategies developed by intellectuals outside the culturally dominant centers Contributors are David Cottingham Narve Fuls s Tommaso Giordani Marja Jalava Zs fia L rand ukasz Miko ajewski Diana Mishkova Stefan Nyg rd Emilia Palonen Manolis Patiniotis Johanna Rainio Niemi Tore Rem Jos Mar a Rosales and Johan Strang **Social Movements** Paul Almeida,2019-02-26 Social Movements cleverly translates the art of collective action and mobilization by excluded groups to facilitate understanding social change from below Students learn the core components of social movements the theory and methods used to study them and the conditions under which they can lead to political and social transformation This fully class tested book is the first to be organized along the lines of the major subfields of social movement scholarship framing movement emergence recruitment and outcomes to provide comprehensive coverage in a single core text Features include use of real data collected in the U S and around the world the emphasis on student learning outcomes case studies that bring social

 United States. Joint Publications Research Service,1966 *Revolution and Change* Korea Sung Chul Yang,2015-12-15 This
 book is my Ph D dissertation on two epochal political upheavals known in Korea as the April 19 Student Revolution of 1960
 and the May 16 Military Coup d etat of 1961 The comparative analysis of their causes and processes and their respective
 impacts on Korean political and economic development was the central focus of this study It was written in 1970 Korea s
 political miracle such as liberty democracy and unity of our nation took fertile root from the April Student Revolution as its
 economic miracle of rapid modernization and industrialization gained momentum from the May Military Coup Ultimately
 however our people s sweats tears and sacrifices are behind these two miracles **Daily Report, Foreign Radio**

 essays The Call ,1965 *Islam in Bangladesh* Razia Akter,2021-12-06 This study done within the comprehensive
 Weberian framework focuses on religion and social change in Bangladesh through an imaginative use of qualitative as well as
 quantitative methods of modern social research It first provides a sociological interpretation of the origin and development of
 Islam in Bengal using historical and literary works on Bengal The main contribution is based on two sample surveys
 conducted by Mrs Banu in 20 villages of Bangladesh and in three areas in the metropolitan Dhaka city Using these survey
 data she gives a sociological analysis of Islamic religious beliefs and practices in contemporary Bangladesh and more
 importantly she studies the impact of the Islamic religious beliefs on the socio economic development and political culture in
 present day Bangladesh She also shows how Islam compares with modern education in social transforming capacity This
 careful and rigorous work is a notable contribution to sociology of religion and helps to deepen our understanding of the
 interactions between religious and social changes common to many parts of the Third World *Collective Behavior* Denton

 Goffman,Bruce Alan Masters,1999-11-11 Studies of early modern Islamic cities have stressed the atypical or the idiosyncratic
 This bias derives largely from orientalist presumptions that they were in some way substandard or deviant The first purpose
 of this volume is to normalize Ottoman cities to demonstrate how on the one hand they resembled cities generally and how on
 the other their specific histories individualized them The second purpose is to challenge the previous literature and to

negotiate an agenda for future study By considering the narrative histories of Aleppo Izmir and Istanbul the book offers a departure from the piecemeal methods of previous studies emphasizing their importance during the seventeenth and eighteenth centuries and highlighting their essentially Ottoman character While the essays provide an overall view each can be approached separately Their exploration of the sources and the agendas of those who have conditioned scholarly understanding of these cities will make them essential student reading
