The Dream of the Rood Michael Swanton,1970 The Dream of the Rood is a poem that has entranced generations of scholars It is one of the greatest religious poems in English literature the work of a nameless poet of superb genius Immediately attractive its poetic content is readily accessible to the modern reader being in the mainstream of Western religious thought Representative of the Golden Age of Anglo Saxon culture drawing on both visual and doctrinal motifs it provides a ready introduction to its own intellectual and artistic milieu This is underlined by intimate links with the Ruthwell Cross the documentary context of the earlier version and itself often regarded as one of the finest monuments of the Anglo Saxon Age This edition presents a conservative text with variant readings described in the notes In his introduction Professor Swanton describes the Vercelli Book in which the full text of The Dream of the Rood is found and gives an account of the Ruthwell Cross the sources for which are scattered and not normally familiar to students of Old English The relationship between the two texts the doctrine behind the poem and its style and structure are also discussed The edition includes extensive notes and a glossary **A History of Great Britain** Howard Robinson,1927 **Halleck's New English**

Between Medieval Men David Clark,2009-02-26 Between Medieval Men argues for the importance of synoptically examining the whole range of same sex relations in the Anglo Saxon period revisiting well known texts and issues as well as material often considered marginal from a radically different perspective The introductory chapters first lay out the premises underlying the book and its critical context then emphasise the need to avoid modern cultural assumptions about both male female and male male relationships and underline the paramount place of homosocial bonds in Old English literature Part II then investigates the construction of and attitudes to same sex acts and identities in ethnographic penitential and theological texts ranging widely throughout the Old English corpus and drawing on Classical Medieval Latin and Old Norse material Part III expands the focus to homosocial bonds in Old English literature in order to explore the range of associations for same sex intimacy and their representation in literary texts such as Genesis A Beowulf The Battle of Maldon The Dream of the Rood The Phoenix and Ifric s Lives of Saints During the course of the book s argument David Clark uncovers several under

researched issues and suggests fruitful approaches for their investigation He concludes that in omitting to ask certain questions of Anglo Saxon material in being too willing to accept the status quo indicated by the extant corpus in uncritically importing invisible because normative heterosexist assumptions in our reading we risk misrepresenting the diversity and complexity that a more nuanced approach to issues of gender and sexuality suggests may be more genuinely characteristic of the period **Reference Catalogue of Current Literature** ,1928 Bulletin of the Medford Public Library Medford Public Library (Medford, Mass.),1901
