 Lerner, 2012-12-06 Service learning as defined by the editors is the generation of knowledge that is of benefit to the  
 community as a whole This seventh volume in the Outreach Scholarship book series contributes a unique discussion of how  
 service learning functions as a critical cornerstone of outreach scholarship The sections and chapters of this book marshal  
 evidence in support of the idea that undergraduate service learning infused throughout the curriculum and coupled with  
 outreach scholarship is an integral means through which higher education can engage people and institutions of the  
 communities of this nation in a manner that perpetuate civil society The editors through this series of models of service  
 learning make a powerful argument for the necessity of engaged institutions     *Changing Governments in India and China*
