New Media and Sport Katrien Lefever, 2012-10-04 During the past decade the media landscape and the coverage of sports events have changed fundamentally Sports fans can consume the sports content of their choice on the platform they prefer and at the time they want Furthermore thanks to electronic devices and Internet content can now be created and distributed by every sports fan As a result it is argued that media regulation which traditionally contains rules safeguarding access to information and diversity would become redundant Moreover it is sometimes proposed to leave the regulation of the broadcasting market solely to competition law This book illustrates that media law is still needed even in an era of abundance to guarantee public access to live and full sports coverage Dealing with the impact of new media on both media and competition law this book will greatly appeal to academics and stakeholders from various disciplines such as legal and public policy political science media and communications studies journalism and European studies Additionally it contains valuable information and points of view for policy makers lawyers and international and intergovernmental organisations active in media development The book contains an up to date analysis and overview of the different competition authorities decisions and media provisions dealing with the sale acquisition and exploitation of sports broadcasting rights Katrien Lefever is Senior Legal Researcher at IBBT The Interdisciplinary Centre for Law and ICT ICRI KU Leuven Belgium The book appears in the ASSER International Sports Law Series under the editorship of Prof Dr Robert Siekmann Dr Janwillem Soek and Marco van der Harst LL M

The Death and Life of the Music Industry in the Digital Age Jim Rogers, 2013-05-09 The Death and Life of the Music Industry in the Digital Age challenges the conventional wisdom that the internet is killing the music industry While technological innovations primarily in the form of peer to peer file sharing have evolved to threaten the economic health of

major transnational music companies Rogers illustrates how those same companies have themselves formulated highly innovative response strategies to negate the harmful effects of the internet In short it documents how the radical transformative potential of the internet is being suppressed by legal and organisational innovations Grounded in a social shaping perspective The Death and Life of the Music Industry in the Digital Age contends that the internet has not altered pre existing power relations in the music industry where a small handful of very large corporations have long since established an oligopolistic dominance Furthermore the book contends that widespread acceptance of the idea that online piracy is rampant and music largely free actually helps these major music companies in their quest to bolster their power In doing this the study serves to deflate much of the transformative hype and digital deliria that has accompanied the internet s evolution as a medium for mass communication Fergus McCann Versus David Murray Stephen O'Donnell,2020-07-27

Fergus McCann Versus David Murray charts the changing fortunes of Glasgow s two great footballing rivals as shaped by two business moguls Both men came to prominence in the 1990s when new methods of governance and finance were taking hold of football At the start of the decade under Murray s chairmanship Rangers were the dominant force and the club went on to win a record equalling nine consecutive league titles Their success however was built on an extravagant spending strategy which caused a financial catastrophe Celtic by contrast were struggling in the early 1990s thanks to a complacent and nepotistic board of directors But McCann took charge of the club in 1994 and turned things around The new owner left Parkhead having won the league rebuilt the stadium and left his shares in the hands of supporters It was Murray however who was lauded in the media throughout his tenure at Ibrox while McCann was chastised Ultimately though their legacies would be utterly different from those misleading media portrayals **The SAGE Handbook of Television Studies** Manuel
