gives the false impression of a monolithic religious phenomenon Here Michael Williams challenges the validity of the widely invoked category of ancient gnosticism and the ways it has been described Presenting such famous writings and movements as the Apocryphon of John and Valentinian Christianity Williams uncovers the similarities and differences among some major traditions widely categorized as gnostic He provides an eloquent systematic argument for a more accurate way to discuss these interpretive approaches The modern construct gnosticism is not justified by any ancient self definition and many of the most commonly cited religious features that supposedly define gnosticism phenomenologically turn out to be questionable Exploring the sample sets of gnostic teachings Williams refutes generalizations concerning asceticism and libertinism attitudes toward the body and the created world and alleged features of protest parasitism and elitism He sketches a fresh model for understanding ancient innovations on more mainstream Judaism and Christianity a model that is informed by modern research on dynamics in new religious movements and is freed from the false stereotypes from which the category gnosticism has been constructed

The Ladies' Repository ,1871 **The Architecture of America's Stonehenge** Mary E. Gage,2021-06-01 The main complex of the America s Stonehenge site in New Hampshire is a collection of stone chambers enclosures niches standing stones carved drains basins and astronomical alignments The archaeological community has largely dismissed this seemly eclectic collection of structures as the work of an eccentric farmer named Jonathan Pattee who built his house on top of the ruins in the 19th century Other researchers have sought to compare the chambers and astronomical alignments to stone structures from around the world built by other ancient peoples No one has thought to evaluate the site on its own merits specifically evaluating its architecture Architecture can tell you a lot about a culture Using this approach the author unravels the mystery surrounding the site This architectural study revealed the site was built in a series of distinct phases each with its own unique style while at the same time incorporating key concepts and ideas from previous phases There is a clear evolution of building skills and cultural ideas that can be followed through the architectural build out of the site Because key features and ideas were carried forward from one phase to the next we now know that the site was the work of a single culture over a several thousand year period Stone tools and pottery recovered from archaeological excavations at the site confirm that the builders were Native Americans The idea of Native Americans building stone structures for ceremonial and spiritual purposes has gained a lot of credibility over the past twenty five years There is mounting evidence that hundreds of ceremonial stone landscapes CSL with stone cairns niches enclosures standings stones chambers and astronomical alignments found throughout northeastern United States are part of a broad based Native American cultural tradition The America s Stonehenge site is one of the most sophisticated and culturally complex of these sacred ceremonial places The second part of this book uses primary source materials like deeds town records court cases and genealogy to reconstruct the history of the Pattee family who owned the hill where the site is found from 1739 through 1863 The Pattees started out in the 1700s as a prosperous family with a house in North Salem village and a 248 acre farm By the

1820s the third generation was reduced to owning 15 acres of the original farm and living in a small house built on top of the ruins of the site Despite his many financial misfortunes Jonathan Pattee third generation managed to hold on to and protect the site Annual Report of the Town Officers of Rockland Rockland (Mass.),1891 **Long Road Home** Marie Frymier,2012-08-27 In the first book of this series Shadow Mountain by Honor Stone Native American Jonathan Dark Wolf Morgan is reunited with his two young sons Raven and Hawk after difficult circumstances had torn them apart In this second book Long Road Home Dark Wolf is faced with new challenges as he learns the truth about his past from an old mountain woman Hattie Gray Through the trauma of her past Hatties memories of many significant portions of her life have been long buried Through a dream these memories are now stirred and recalled to mind Her life is changed by these new recollections and she realizes that she must confront certain people and feelings if she is ever to have peace New characters are introduced bringing adventure romance peril humor heartaches and victories Follow their story as they intermingle to begin a journey that will reward them for their efforts to find their own personal road home **AF Press Clips** ,1984 AF Press Clips United States Department of State.
