Making Laws and Making News Timothy Cook, 2010-12-01 The news media especially television have become a fixture on Capitol Hill in the past twenty years Making Laws and Making News describes the interactive relationship between the press and Congress that

strongly affects the news the legislative process and the types of laws enacted Instead of focusing on how reporters decide who and what to cover and how news is resented Cook examines the other side of the equation the relationship between the media strategies of House member s press offices and the legislative strategies of the members themselves The book won the 1990 Benjamin Franklin Award for Excellence in Independent Publishing The Structure and Functions of Governance Kenneth W. Thompson,1992 Both the public and new scholarship demonstrate an increasing interest in the subject of governance This is the third volume in a Miller Center series on governance It includes chapters on governance and the budget governance and personnel governance and science governance and foreign policy and governance and the new Europe Contributors James Thurber Constance Newman Thomas Young John Stempel John Tuthill Eamon Gallagher Steve Finkel and Sig Michelson Co published with the Miller Center of Public Affairs Congressional Communication in the Digital Age Jocelyn Evans,Jessica M. Hayden,2017-07-06 Communication defines political representation At the core of the representational relationship lies the interaction between principal and agent the quality of this relationship is predicated upon the accessibility of effective channels of communication between the constituent and representative Over the past decade congressional websites have become the primary way constituents communicate with their members and a prominent place for members to communicate with constituents Yet as we move toward the third decade of the 21st century little work has systematically analyzed this forum as a distinct representational space In this book Jocelyn Evans and Jessica Hayden offer a fresh timely and mixed methods approach for understanding how the emergence of virtual offices has changed the representational relationship between constituents and members of Congress Utilizing strong theoretical foundations a broad historical perspective elite interviews and rich original datasets Evans and Hayden present evidence that virtual offices operate as a distinct representational space and they demonstrate that their use has resulted in unprecedented and ill understood changes in representational behavior Congressional Communication in the Digital Age contributes to the scholarship on representation theory and its application to the contemporary Congress It is valuable reading for students and researchers interested in American politics political communication and legislative politics Ethics in Congress Dennis F. Thompson,2000-07-26 More members of Congress have been investigated and sanctioned for ethical misconduct in the past decade and a half than in the entire previous history of the institution But individual members are probably less corrupt than they once were Stricter ethics codes and closer scrutiny by the press and public have imposed standards no previous representatives have had to face Dennis Thompson shows how the institution itself is posing new ethical challenges how the complexity of the environment in which members work creates new occasions for corruption and invites more calls for accountability Instead of the individual corruption that has long been the center of attention Thompson focuses on institutional corruption which refers to conduct that under certain conditions is an acceptable part of the job of a representative Members are required to solicit campaign contributions and they are expected to help constituents with their

problems with government but some ways of doing these jobs give rise to institutional corruption The author moves the discussion beyond bribery extortion and simple personal gain to delve into implicit understandings ambiguous favors and political advantage Thompson examines many major ethics cases of recent years Among them the case of David Durenberger accused of supplementing his income through book promotions the case of the Keating Five accused of using undue influence with the Federal Home Loan Bank Board on behalf of Lincoln Savings and Loan owner Charles Keating and the case of House Speaker James Wright accused of several offenses Thompson shows why neither the electoral process nor the judicial process is sufficient and argues for stronger ethics committees and the creation of a new quasi independent body to take over some of the enforcement process He offers more than a dozen recommendations for changes in the procedures and practices of ethics in Congress The book features a listi
