7 Ways of Looking at Religion Benjamin Schewel,2017-09-26 An ambitious scholar s lucid analysis of religion s shifting place in the modern world Western intellectuals have long theorized that religion would undergo a process of marginalization and decline as the forces of modernity advanced Yet recent events have disrupted this seductively straightforward story As a result while religion has somehow evolved from its tribal beginnings up through modernity and into the current global age there is no consensus about what kind of narrative of religious change we should alternatively tell Seeking clarity Benjamin Schewel organizes and evaluates the prevalent narratives of religious history that scholars have deployed over the past century and are advancing today He argues that contemporary scholarly discourse on religion can be categorized according to seven central narratives subtraction renewal transsecular postnaturalist construct perennial and developmental Examining the basic logic insights and limitations of each of these narratives Schewel ranges from Martin Heidegger to Muhammad Iqbal from Daniel Dennett to Charles Taylor to offer an incisive broad and original perspective on religion in the modern world The book should be a widely read guide to the ideas that structure many of the debates scholars are having today about the meaning of postsecularism and future of religion Geoffrey Cameron Review of Faith and International Affairs What is the future of religion and how should we narrate its past For all readers interested in these questions this balanced and concise book is a must read Hans Joas Humboldt University Berlin and University of Chicago Global Phenomena and Social Sciences Jean-Sylvestre Bergé,Sophie Harnay,Ulrike Mayrhofer,Lionel Obadia,2017-10-26 This book offers new perspectives on global phenomena that play a major role in today s society and deeply shape the actions of individuals organizations and nations In a complex and rapidly changing environment decision makers need to gain a better

Saving Sinners, even Moslems Jerzy Zdanowski,2018-10-09 This book investigates the Mission of the Reformed Church in America sent to Arabia in 1889 to preach the Gospel and which

operated in the Persian Gulf until 1973 It also explores the various cultural encounters between missionaries and Muslims and discusses conversion and the place of Islam in the Protestant eschatology It maintains that John G Lansing from the New Brunswick Theological Seminary New Jersey who founded the Arabian Mission deliberately dedicated the Mission to direct Muslim evangelism In terms of premillennialism Lansing moved Islam into the very centre of the theological discourse and presented the evangelization of Muslims as critical for Christ s Second Coming This made the Arabian Mission unique among the American Protestant Missions and placed the Church and missionaries between religious pluralism and the obligations of the Great Commission

Between Eden and Armageddon : The Future of World Religions,

Violence, and Peacemaking Diplomacy Marc Gopin James H. Laue Professor and Director of the Center on Religion, and Conflict Resolution George Mason University, 2000-06-26 Recent years have seen a meteoric rise in the power and importance of organized religion in many parts of the world At the same time there has been a significant increase in violence perpetrated in the name of religion While much has been written on the relationship between violence and religious militancy history shows that religious people have also played a critical role in peacemaking within numerous cultures In the new century will religion bring upon further catastrophes Or will it provide human civilization with methods of care healing and the creation of peaceful and just societies In this groundbreaking book Marc Gopin integrates the study of religion with the study of conflict resolution He argues that religion can play a critical role in constructing a global community of shared

moral commitments and vision a community that can limit conflict to its nonviolent constructive variety If we examine religious myths and moral traditions Gopin argues we can understand why and when religious people come to violence and why and when they become staunch peacemakers He shows that it is the conservative expression of most religious traditions that presents the largest challenge in terms of peace and conflict Gopin considers ways to construct traditional paradigms that are committed to peacemaking on a deep level and offers such a paradigm for the case of Judaism Throughout Gopin emphasizes that developing the potential of the world's religions for coping with conflict demands a conscious process on the part of peacemakers and theologians His innovative and carefully argued study also offers a broad set of recommendations for policy planners both inside and outside of government
