Seven Myths about Small Groups Dan Williams, 2000 **Seven Myths of Military History** John D. Hosler, Alfred J. Andrea, Andrew Holt, 2022-03-01 This brief provocative and accessible book offers snapshots of seven pernicious myths in military history that have been perpetrated on unsuspecting students readers moviegoers game players and politicians It promotes awareness of how myths are created by the spurious misuse and ignorance of history and how misleading ideas about a military problem as in asymmetric warfare can lead to misguided solutions Both scholarly and engaging this book is an ideal addition to military history and historical methodology courses In fact it could be fruitfully used in any course that teaches critical thinking skills including courses outside the discipline of history Military history has a broad appeal to students and there s something here for everyone From the so called Western Way of War to its sister myth technological determinism to the academic party game of once faddish Military Revolutions the book shows that while myths about history may be fun myth busting is the most fun of all Reina Pennington Norwich University At Ease John Ronsvalle, Sylvia Ronsvalle, U. Wube,2018-01-20 Since the downfall of the Derge and the establishment of the decree for religious freedom there have been types of problems related to the size and type of groups that have greatly affected the Ethiopian evangelical church The first category of problem is due to the attraction that many contemporary church leaders have for reaching multitudes and building mega church ministries at the expense of small group ministries Because of the priority on the large group environment small group ministries have been neglected resulting in a whole generation of students and people who have never experience the vibrant spiritual benefits of a small group As a result believers are inclined to attend only Sunday Worship Services and the rest of the week live disconnected from vital relational community and involvement Too many churches in Ethiopia today have chosen to focus on the quantity of the people rather than the quality of the disciple resulting in the spiritual diseases of nominalism and carnality Discipleship and biblical Koinonia are being ignored therefore
