

The background image is a painting of a 17th-century interior. It features a large room with a high, ornate ceiling. On the right, there is a canopy bed with a blue interior and a patterned canopy. In the center, a white chest of drawers sits on a small stand. To the left, a fireplace is partially visible. The floor is covered with a red carpet. The overall style is characteristic of 17th-century European interior painting.

**The Portrait Bust and French Cultural Politics in the Eighteenth Century** Ronit Milano, 2015-02-24 In *The Portrait Bust and French Cultural Politics in the Eighteenth Century* Ronit Milano probes the rich

and complex aesthetic and intellectual charge of a remarkably concise art form and explores its role as a powerful agent of epistemological change during one of the most seismic moments in French history The pre Revolutionary portrait bust was inextricably tied to the formation of modern selfhood and to the construction of individual identity during the Enlightenment while positioning both sitters and viewers as part of a collective of individuals who together formed French society In analyzing the contribution of the portrait bust to the construction of interiority and the formulation of new gender roles and political ideals this book touches upon a set of concerns that constitute the very core of our modernity **Traces of**

**Vermeer** Jane Jelley, 2017-07-21 Johannes Vermeer's luminous paintings are loved and admired around the world yet we do not understand how they were made We see sunlit spaces the glimmer of satin silver and linen we see the softness of a hand on a lute string or letter We recognise the distilled impression of a moment of time and we feel it to be real We might hope for some answers from the experts but they are confounded too Even with the modern technology available they do not know why there is no evidence of any preliminary drawing why there are shifts in focus and why his pictures are unusually blurred Some wonder if he might possibly have used a camera obscura to capture what he saw before him The few traces Vermeer has left behind tell us little there are no letters or diaries and no reports of him at work Jane Jelley has taken a new path in this detective story A painter herself she has worked with the materials of his time the cochineal insect and lapis lazuli the sheep bones soot earth and rust She shows us how painters made their pictures layer by layer she investigates old secrets and hears travellers tales She explores how Vermeer could have used a lens in the creation of his masterpieces The clues were there all along After all this time now we can unlock the studio door and catch a glimpse of Vermeer inside painting light *Interiors and Interiority* Ewa Lajer-Burchard, Beate Söntgen, 2015-11-13 Veranschaulichungsformen von

**History of Design** Bard Graduate Center, 2013-12-10 A survey of spectacular breadth covering the history of decorative arts and design worldwide over the past six hundred years *Crowning Glories* Harriet Stone, 2019-04-08 *Crowning Glories* integrates Louis XIV's propaganda campaigns the transmission of Northern art into France and the rise of empiricism in the

eighteenth century three historical touchstones to examine what it would have meant for France's elite to experience the arts in France simultaneously with Netherlandish realist painting. In an expansive study of cultural life under the Sun King, Harriet Stone considers the monarchy's elaborate palace decors, the court's official records and the classical theatre alongside Northern images of daily life in private homes, urban markets and country fields. Stone argues that Netherlandish art assumes an unobtrusive yet for the history of ideas surprisingly dramatic role within the flourishing of the arts, both visual and textual, in France during Louis XIV's reign. Netherlandish realist art represented thinking about knowledge that challenged the monarchy's hold on the French imagination and its efforts to impose the king's portrait as an ideal and proof of his authority. As objects appreciated for their aesthetic and market value, Northern realist paintings assumed an uncontroversial place in French royal and elite collections. Flemish and Dutch still lifes, genre paintings and cityscapes, however, were not merely accoutrements of power acquisitions made by those with influence and money. *Crowning Glories* reveals how the empirical orientation of Netherlandish realism exposed French court society to a radically different mode of thought, one that would gain full expression in the *Encyclopédie* of Diderot and d'Alembert.

**Republic** Alice Hunt, 2024-09-24. An enthralling narrative of the rise and fall of Britain's republican experiment. DOMINIC SANDBROOK. *The Times* Best History Books of 2024. A gripping tale of political and cultural crisis, but also one of joy and hopeful innovation, told with eloquence and passion. MALCOLM GASKILL. Masterly, compelling and eye-opening. SUZANNAH LIPSCOMB. Events moved with giddy speed in the 1650s. After the execution of Charles I, dangerous monarchy was abolished and the House of Lords was dismissed, sending shock waves across the kingdom. These revolutionary acts set in motion a decade of bewildering change and instability under the leadership of the soldier statesman Oliver Cromwell. England's unique and distinctive republican experiment may have been short-lived, but it changed the course of British history. It transformed the relationship between England, Scotland and Ireland, reset the compact between the monarch and the people and re-fashioned the story the British told and continue to tell about themselves. **REPUBLIC** is a richly engrossing year-by-year account of this exhilarating and daring period. It tells the story of what Britain's republic was really like, why it failed, but also what it got right.
