## Several Perceptions:

**Several Perceptions** Angela Carter, 1995-01 Centre stage in Angela Carter's unruly tale of the Flower Power generation is Joseph a decadent disorientated rebel without a cause A self styled nihilist whose girlfriend has abandoned him Joseph has decided to give up existing But his concerned neighbours and friends have other plans In an effort to join in with the spirit of protest which motivates his contemporaries Joseph frees a badger from a local zoo sends a turd airmail to the President of America falls in love with the mother of his bestfriend and accompanied by the strains of an old man's violin celebrates Christmas Eve in a bewildering state of sexual discovery But has he found the Meaning of Life

**Grounds of Natural Philosophy** Margaret Cavendish, 2020-02-28 This edition aims to make Margaret Cavendish's most mature philosophical work more accessible to students and scholars of the period Grounds of Natural Philosophy is important not only because it is Cavendish's final articulation of her metaphysics but also because it succinctly outlines her fundamental views on the nature of nature or the base substance and mechanics of all natural matter and vividly demonstrates her probabilistic approach to philosophical enquiry Moreover Grounds spends considerable time discussing the human body including the functions of the mind a topic of growing interest to both historians of philosophy and literary scholars This Broadview Edition opens to modern readers a vibrant unique and provocative voice of the past that challenges our standard view of seventeenth century English philosophy

The Oxford Handbook of Hume Paul Russell, 2016 The Scottish philosopher David Hume 1711-1776 is widely regarded as the greatest and most significant English speaking philosopher and often seen as having had the most influence on the way philosophy is practiced today in the West His reputation is based not only on the quality of his philosophical thought but also on the breadth and scope of his writings which ranged over metaphysics epistemology morals politics religion and aesthetics The Handbook's 38 newly commissioned chapters are divided into six parts Central Themes Metaphysics and Epistemology Passion Morality and Politics Aesthetics History and Economics Religion Hume and the Enlightenment and After Hume The volume also features an introduction from editor Paul Russell and a chapter on Hume's biography

Active Conceptual Modeling of Learning Peter P. Chen, 2007 This volume is a collection of papers presented during the first International ACM L Workshop which was held in Tucson Arizona during the 25th International Conference on Conceptual Modeling ER 2006 Included in this state of the art survey are 11 revised full papers carefully reviewed and selected from the workshop presentations These are rounded off with four invited lectures and an introductory overview and represent the current thinking in conceptual modeling research

**Modular Ontologies** Heiner Stuckenschmidt, Christine Parent, Stefano Spaccapietra, 2009-05-17 This book constitutes a collection of research achievements mature enough to provide a firm and reliable basis on modular ontologies It discusses the recent concepts theories and techniques for knowledge modularization

Semantic Perception Theory Kekang He, 2019-11-26 Based on an in depth study of children's language development theory this book puts forward the original proposition that semantic perception is the human sixth

sense Presenting a detailed complete and scientific argumentation it asserts that the innateness of semantic perception has a physiological basis and that language acquisition is based on semantic perception and proposes the idea of a critical period of nurture and language growth To this end the book not only contrasts children s language acquisition processes and the process of adult speech generation and comprehension but also discusses the ability to read and write describing this important stage of children s language development and analyzing semantic perception Focusing on education and psychology it also discusses the use of semantic perception theory to instruct teaching and learning This book is a valuable resource for teachers researchers practitioners and graduate students in the fields of educational technology child development and language learning as well as anyone interested in children s language development *The Syllogistic Philosophy Or Prolegomena to Science* Francis Ellingwood Abbot,1906 *The Cambridge Companion to Hume's Treatise* Donald C. Ainslie,Annemarie Butler,2015-01-26 Revered for his contributions to empiricism skepticism and ethics David Hume remains one of the most important figures in the history of Western philosophy His first and broadest work *A Treatise of Human Nature* 1739 40 comprises three volumes concerning the understanding the passions and morals He develops a naturalist and empiricist program illustrating that the mind operates through the association of impressions and ideas This Companion features essays by leading scholars that evaluate the philosophical content of the arguments in Hume s *Treatise* while considering their historical context The authors examine Hume s distinctive views on causation motivation free will moral evaluation and the origins of justice which continue to influence present day philosophical debate This collection will prove a valuable resource for students and scholars exploring Hume British empiricism and modern philosophy **Alien Sex** Gerard Loughlin,2008-04-15 Gerard Loughlin is one of the leading theologians working at the interface between religion and contemporary culture In this exceptional work he uses cinema and the films it shows to think about the church and the visions of desire it displays Discusses various films including the *Alien* quartet Christopher Nolan s *Memento* Stanley Kubrick s 2001 *A Space Odyssey* and *A Clockwork Orange* Nicolas Roeg s *The Man Who Fell to Earth* and Derek Jarman s *The Garden* Draws on a wide range of authors both ancient and modern religious and secular from Plato to Levinas from Karl Barth and Hans Urs von Balthasar to Andr Bazin and Leo Bersani Uses cinema to think about the church as an ecclesiacinema and films to think about sexual desire as erotic dispossession as a way into the life of God Written from a radically orthodox Christian perspective at once both Catholic and critical *The Science of Describing* Brian W. Ogilvie,2008-09-15 Out of the diverse traditions of medical humanism classical philology and natural philosophy Renaissance naturalists created a new science devoted to discovering and describing plants and animals Drawing on published natural histories manuscript correspondence garden plans travelogues watercolors and drawings *The Science of Describing* reconstructs the evolution of this discipline of description through four generations of naturalists In the late fifteenth and early sixteenth centuries naturalists focused on understanding ancient and medieval descriptions of the natural world but by the mid sixteenth century naturalists turned

toward distinguishing and cataloguing new plant and animal species To do so they developed new techniques of observing and recording created botanical gardens and herbaria and exchanged correspondence and specimens within an international community By the early seventeenth century naturalists began the daunting task of sorting through the wealth of information they had accumulated putting a new emphasis on taxonomy and classification Illustrated with woodcuts engravings and photographs The Science of Describing is the first broad interpretation of Renaissance natural history in more than a generation and will appeal widely to an interdisciplinary audience

**Inclusive Rule-Making by International Organisations** Rita Guerreiro Teixeira, Marianna Karttunen, Axel Marx, Jan Wouters, 2025-06-09 This incisive book explores the opportunities and challenges of implementing inclusive rule making processes in international organisations IOs Expert authors examine the impact of inclusiveness across a wide range of organisations and policy issues from climate change and peace and security to energy governance and securities regulation

**Hume on the Self and Personal Identity** Dan O'Brien, 2022-08-30 This book brings together a team of international scholars to attempt to understand David Hume's conception of the self The standard interpretation is that he holds a no self view we are just bundles of conscious experiences thoughts and emotions There is nothing deeper to us no core no essence no soul In the Appendix to A Treatise of Human Nature though Hume admits to being dissatisfied with such an account and Part One of this book explores why this might be so Part Two turns to Books 2 and 3 of the Treatise where Hume moves away from the fiction of a simple self to the complex idea we have of our flesh and blood selves those with emotional lives practical goals and social relations with others In Part Three connections are traced between Hume and Madhyamaka Buddhism Husserl and the phenomenological tradition and contemporary cognitive science

**Hume's Imagination** Tito Magri, 2022-09-22 This book proposes a new and systematic interpretation of the mental nature function and structure and importance of the imagination in Book 1 Of the Understanding of Hume's Treatise of Human Nature The proposed interpretation has deeply revisionary implications for Hume's philosophy of mind and for his naturalism epistemology and stance to scepticism The book remedies a surprising blindspot in Hume scholarship and contributes to the current lively philosophical debate on imagination Hume's philosophy if rightly understood gives suggestions about how to treat imagination as a mental natural kind its cognitive complexity and variety of functions notwithstanding Hume's imagination is a faculty of inference and the source of a distinctive kind of idea which complements our sensible representations of objects Our cognitive nature if restricted to the representation of objects and of their relations would leave ordinary and philosophical cognition seriously underdetermined and expose us to scepticism Only the non representational inferential faculty of the imagination can put in place and vindicate ideas like causation body and self which support our cognitive practices The book reconstructs how Hume's naturalist inferentialism about the imagination develops this fundamental insight Its five parts deal with the dualism of representation and inference the explanation of generality and modality the production of causal ideas the production of spatial and temporal content and the distinction of

an external world of bodies and an internal one of selves and the replacement of the understanding with imagination in the analysis of cognition and in epistemology      *New Directions in Human Resource Management* Chester A. Schriesheim, Linda L. Neider, 2003-11-01 This work looks at new directions in human resource management It covers such topics as customer feedback as a critical performance dimension accountability in human resources management ergonomic training and organizational stress and more      **The Simple Treatise of Human Nature by David Hume Book 1** Juan Dalisay Jr., This book simplifies Book 1 of David Hume's *A Treatise of Human Nature* to make it more concise and readable It optimizes Hume's content by organizing each idea into bullet points with sub ideas as sub bullets all under topic headings without losing the original idea Book 1 introduces Hume's philosophy that every perception is either an idea or impression which we then process through our reason in order to create knowledge This version replaces archaic words like extension duration vacuum and necessary connection into modern words as space time void and consequence in order to make them easier to understand This book also serves as the foundation of our proposed wave based science of Superphysics which is the modern implementation of Hume's Science of Man This new science can create new technologies in physics based on the principles of the emptiness of space and time and in medicine and economics based on the principles of reason For more information about Superphysics visit <https://superphysics.one>      *Mystical Consciousness* Louis Roy, O.P., 2012-02-01 This book offers a philosophical account of ordinary consciousness as a step toward understanding mystical consciousness Presupposing a living interaction between meditation and thinking the work draws on Western and Japanese thinkers to develop a philosophy of religion that is friendly to the experience of meditators and that can explore such themes as emptiness nothingness and the self Western thinkers considered include Plotinus Eckhart Schleiermacher Heidegger Brentano Husserl Sartre and Lonergan and Japanese thinkers referenced include Nishitani Hisamatsu and Suzuki All employed centering prayer Zen or other forms of mental concentration Particular emphasis is placed on the work of twentieth century Catholic philosopher Bernard Lonergan whose writings on consciousness can inform an understanding of mysticism      **Angela Carter and Western Philosophy** Heidi Yeandle, 2016-12-10 This book unearths Carter's deconstruction of the male dominated discipline of Western thought Revealing the extensive philosophical research that underpins Carter's intertextual work this book offers new readings of her fiction in relation to a range of philosophical texts and ideas By re-examining Carter's writing with reference to the archived collection of her notes that has recently become available at the British Library Angela Carter and Western Philosophy puts forward new interpretations of Carter's writing practices With chapters examining her allusions to Plato Hobbes and Rousseau Descartes Locke and Hume Wittgenstein and Ryle as well as Kant and Sade this book illuminates Carter's engagement with different areas of Western thought and discusses how this shapes her portrayal of reality identity civilisation and morality Angela Carter and Western Philosophy will be of interest to researchers lecturers and students working on contemporary women's writing philosophy and literature and intertextual literary practices      **Immortality** Paul
