critical and informative account of the manner in which courts of law have engaged with State power in a bid to alternatively deliver or subvert justice to the socially marginalized and the politically victimized. The focus of the book is on judicial struggles over sexual and gender based discrimination, social justice and poverty and the adjudication of presidential elections. Employing the device of case deconstruction and analysis, the study uncovers the conceptual and structural factors which have witnessed public interest litigation emerge as a critical factor in the struggle for more inclusive and equitable structures of governance and social order. Needless to say, as judges battle with time honoured legal precedents, received dogmas and contending and often antagonistic societal forces, the struggle in the courts is neither straightforward nor necessarily always transformative.

### **The Cultural Politics of Female Sexuality in South Africa** Henriette

Gunkel, 2010-01-21 Sexual identity has emerged into the national discourse of post apartheid South Africa, bringing the subject of rights and the question of gender relations and cultural authenticity into the focus of the nation state's politics. This book is a fascinating reflection on the effects of these discourses on non normative modes of sexuality and intimacy and on the country more generally. While in 1996 South Africa became the first country in the world that explicitly incorporated lesbian and gay rights within a Bill of Rights, much of the country has continued to see homosexuality as un-African. Henriette Gunkel examines how colonialism and apartheid have historically shaped constructions of gender and sexuality and how these concepts have not only been re-introduced and shaped by understandings of homosexuality as un-African but also by the post apartheid constitution and continued discourse within the nation.

*Boundaries of Queerness* Katharina Kehl, 2024-07-24 Over recent decades LGBTQ people have successfully fought for civil and reproductive rights across Western states including the right to marry, have children and serve openly as public servants and in the armed forces. Internationally, states have started to use their stance on homonormativity to position themselves as progressive. This book provides new insights into the role played by race, sexuality and gender by analysing contemporary constructions of Swedishness through LGBTQ rights by using three specific case studies: a pride parade organised by the Swedish populist right, Swedish Armed Forces marketing material, a social media account by and for racialised LGBTQ people.

*Sexuality and Transsexuality Under the European Convention on Human Rights* Damian A Gonzalez Salzberg, 2019-02-07 This book undertakes a critical analysis of international human rights law through the lens of queer theory. It pursues two main aims: first, to make use of queer theory to illustrate that the field of human rights law is underpinned by several assumptions that determine a conception of the subject that is gendered and sexual in specific ways. This gives rise to multiple legal and social consequences, some of which challenge the very idea of universality of human rights. Second, the book proposes that human rights law can actually benefit from a better understanding of queer critiques, since queer insights can help it to overcome heteronormative beliefs currently held. In order to achieve these main aims, the book focuses on the case law of the European Court of Human Rights, the leading legal authority in the field of international human rights law. The use of queer theory as

the theoretical approach for these tasks serves to deconstruct several aspects of the Court's jurisprudence dealing with gender sexuality and kinship to later suggest potential paths to reconstruct such features in a queer er and more universal manner *Researching Families and Communities* Rosalind Edwards, 2008-04-29 *Researching Families and Communities* Social and Generational Change explores the concepts and perspectives that guide research and the methods used to explore change during the last half of the 20th century and into the new millennium It highlights the complexities of continuities alongside change the importance of the perspectives that shape investigation and the need to engage with situated data

**Queer Cinema in the World** Karl Schoonover, Rosalind Galt, 2016-11-17 Proposing a radical vision of cinema's queer globalism Karl Schoonover and Rosalind Galt explore how queer filmmaking intersects with international sexual cultures geopolitics and aesthetics to disrupt dominant modes of world making Whether in its exploration of queer cinematic temporality the paradox of the queer popular or the deviant ecologies of the queer pastoral Schoonover and Galt reimagine the scope of queer film studies The authors move beyond the gay art cinema canon to consider a broad range of films from Chinese lesbian drama and Swedish genderqueer documentary to Bangladeshi melodrama and Bolivian activist video Schoonover and Galt make a case for the centrality of queerness in cinema and trace how queer cinema circulates around the globe institutionally via film festivals online consumption and human rights campaigns but also affectively in the production of a queer sensorium In this account cinema creates a uniquely potent mode of queer worldliness one that disrupts normative ways of being in the world and forges revised modes of belonging Understanding Global Sexualities Peter Aggleton, 2012 Over the course of the past thirty years there has been an explosion of work on sexuality both conceptually and methodologically From a relatively limited specialist field the study of sexuality has expanded across a wide range of social sciences Yet as the field has grown it has become apparent that a number of leading edge critical issues remain This theory building book explores some of the areas in which there is major and continuing debate for example about the relationship between sexuality and gender about the nature and status of heterosexuality about hetero and homo normativity about the influence and intersection of class race age and other factors in sexual trajectories identities and lifestyles and about how best to understand the new forms of sexuality that are emerging in both rich world and developing world contexts With contributions from leading and new scholars and activists from across the globe this book highlights tensions or flash points in contemporary debate and offers some innovative ways forward in terms of thinking about sexuality both theoretically and with respect to policy and programme development An extended essay by Henrietta Moore introduces the volume and an afterword by Jeffrey Weeks offers pointers for the future The contributors bring together a range of experiences and a variety of disciplinary perspectives in engaging with three key themes of sexual subjectivity and global transformations sexualities in practice and advancing new thinking on sexuality in policy and programmatic contexts It is of interest to students researchers and activists in sexuality sexual health and gender studies especially those working from public health

sociological and anthropological perspectives      **Local Violence, Global Media** Lisa M. Cuklanz, Sujata Moorti, 2009 This series publishes critical scholarship that seeks to engage and transcend the disciplinary isolationism and genre confinement that now characterize so much of contemporary research in communication studies and related fields It focuses on studies that address the broad intersections and hybrid trajectories that define the encounters between human groups in modern institutions and societies and the way these intersections are represented in contemporary popular cultural forms of knowledge      The World We Have Won Jeffrey Weeks, 2007-06-21 This book explores the life changes since 1945 from welfarism to the pill and from globalization to individualization Rejecting the cultural pessimism it argues that this is a world we are increasingly making for ourselves a world we have won      Queer Theory: Law, Culture, Empire Robert Leckey, Kim Brooks, 2010-06-10 Queer Theory Law Culture Empire uses queer theory to examine the complex interactions of law culture and empire Building on recent work on empire and taking contextual socio legal comparative and interdisciplinary approaches it studies how activists and scholars engaged in queer theory projects can unwittingly advance imperial projects and how queer theory can itself show imperial ambitions The authors from five continents delve into examples drawn from Bollywood cinema to California's 2008 marriage referendum The chapters view a wide range of texts from cultural productions to laws and judgments as regulatory forces requiring scrutiny from outside Western heterosexual privilege This innovative collection goes beyond earlier queer legal work engaging with recent developments featuring case studies from India South Africa the US Australasia Eastern Europe and embracing the frames offered by different disciplinary lenses Queer Theory Law Culture Empire will be of particular interest to students and researchers in the fields of socio legal studies comparative law law and gender sexuality and law and culture      **Faith in the Enlightenment?** Lieven Boeve, 2006 One of the urgent tasks of modern philosophy is to find a path between the rationalism of the Enlightenment and the relativism of postmodernism Rationalism alone cannot suffice to solve today's problems but neither can we dispense with reasonable critique The task is to find ways to broaden the scope of rational thought without losing its critical power The first part of this volume explores the ideas of Enlightenment philosophers and shows nuances often absent from the common view of the Enlightenment The second part deals with some of the modern heirs of Enlightenment such as Durkheim Habermas and Derrida In the third part this volume looks at alternatives to Enlightenment thought in West European Russian and Buddhist philosophy Part four provides over against the Enlightenment a new starting point for the philosophy of religion in thinking about human beings God and the description of phenomena      Islam and Homosexuality Samar Habib, 2009-11-12 An extensive collection of essays that examines the place of homosexuality in the contemporary and classical Muslim world The place of sexual and gender minorities in the contemporary Islamic world is the subject of fascinating new directions in research and scholarly thought Islam and Homosexuality gathers together 20 experts exploring these issues to provide an expansive look at the treatment of same sex interactions in Muslim cultures today Islam and Homosexuality offers one

volume on the specific experiences of gay Muslims today and a second volume viewing the issue from a global perspective  
 Essays explore the lives of LGBTIQ persons in both Islamic nations and Muslim communities in non Islamic countries  
 Additional writings explore the roots of homophobia in the theology of Islam the various judgments against homosexuality in  
 the different schools of Islamic law and the potential scriptural basis for including LGBTIQ persons in the Muslim community  
 No other resource on the relationship between LGBTIQ persons and the world s largest religion covers the topic with  
 anything approaching this work s range or depth      **State of Peril** Lucy Valerie Graham,2012-05 Considering fiction from  
 the colonial era to the present State of Peril offers the first sustained scholarly examination of rape narratives in the  
 literature of a country that has extremely high levels of sexual violence Lucy Graham demonstrates how despite the fact that  
 most incidents of rape in South Africa are not interracial narratives of interracial rape have dominated the national imaginary  
 Seeking to understand this phenomenon the study draws on Michel Foucault s ideas on sexuality and biopolitics as well as  
 Judith Butler s speculations on race and cultural melancholia Historical analysis of the body politic provides the backdrop for  
 careful close readings of literature by Olive Schreiner Sol Plaatje Sarah Gertrude Millin Njabulo Ndebele J M Coetzee Zoe  
 Wicomb and others Ultimately State of Peril argues for ethically responsible interpretations that recognize high levels of  
 sexual violence in South Africa while parsing the racialized inferences and assumptions implicit in literary representations of  
 bodily violation      **Marina Warner and the Ethics of Telling Silenced Stories** Lisa Propst,2020-12-17 Efforts to fight  
 back against silencing are central to social justice movements and scholarly fields such as feminist and postcolonial studies  
 But claiming to give voice to people who have been silenced always risks appropriating those people s stories Lisa Propst  
 argues that the British novelist and public intellectual Marina Warner offers some of the most provocative contemporary  
 interventions into this dilemma Tracing her writing from her early journalism to her novels short stories and studies of myths  
 and fairy tales Propst shows that in Warner s work features such as stylized voices and narrative silences tales that Warner s  
 books hint at but never tell question the authority of the writer to tell other people s stories At the same time they  
 demonstrate the power of literature to make new ethical connections between people inviting readers to reflect on whom  
 they are responsible to and how they are implicated in social systems that perpetuate silencing By exploring how to combat  
 silencing through narrative without reproducing it Marina Warner and the Ethics of Telling Silenced Stories takes up an  
 issue crucial not just to literature and art but to journalists policy makers human rights activists and all people striving to  
 formulate their own responses to injustice      Constitutional Courts, Gay Rights and Sexual Orientation Equality Angioletta  
 Sperti,2017-05-04 In the last fifteen years constitutional issues regarding the rights of gays lesbians and same sex couples  
 have emerged on a global scale The pace of recognition of their fundamental rights both at judicial and legislative level has  
 dramatically increased across different jurisdictions reflecting a growing consensus toward sexual orientation equality This  
 book considers a wide range of decisions by constitutional and international courts from the decriminalization of sexual acts

to the recognition of same sex marriage and parental rights for same sex couples It discusses analogies and differences in judicial arguments and rationales in such cases focusing in particular on human dignity privacy liberty equality and non discrimination It argues that courts operate as major exporters of models and principles and that judicial cross fertilization also helps courts in increasing the acceptability of gays and lesbians rights in public opinions and politics Courts discuss changes in the social perception of marriage and family at national and international levels and at the same time confirm and reinforce them forging the legal debate over sexual orientation equality Furthermore by promoting the political reception of the achievements of foreign gay movements in their own jurisdictions courts play an essential role in breaking the political stalemate
