Bureau of American Ethnology, 1916 **Disaster Psychiatry** Frederick J. Stoddard, Anand Pandya, Craig L. Katz, 2012-09-24 It is becoming increasingly common for psychiatrists to be among the first responders when disaster strikes More than 800 psychiatrists are believed to have responded to the 9 11 attacks The first clinical manual on the best practices for helping those affected by disaster Disaster

Psychiatry Readiness Evaluation and Treatment offers an explicit and practical discussion of the evidence base for recommendations for psychiatric evaluation and interventions for disaster survivors. Disaster is defined by the World Health Organization as a severe disruption ecological and psychosocial that greatly exceeds a community's capacity to cope. This manual takes an all hazards approach to disasters and has application to natural occurrences such as earthquakes and hurricanes, accidental technological events such as airplane crashes, and willful human acts such as terrorism. The field of disaster psychiatry is more important than ever in response to disasters such as the Deepwater Horizon oil spill in the Gulf of Mexico and the 2010 earthquake in Haiti. Today disaster psychiatry encompasses a wide spectrum of clinical interests ranging from public health preparations and early psychological interventions to psychiatric consultation to surgical units and psychotherapeutic interventions to alleviate stress in children and families after school shootings, hurricanes, or civil conflict. Although disaster mental health is still a young field, research is gradually yielding methods for accurately identifying valid relationships among preexisting risk factors, postdisaster mental health problems, and effective interventions. With its practical approach to readiness, response, and intervention, and its focus on evidence-based recommendations for psychiatric evaluation and interventions, *Disaster Psychiatry Readiness Evaluation and Treatment* is an invaluable manual for educator and student alike. The manual draws on a variety of sources, including the peer-reviewed scientific literature, the clinical wisdom imparted by front-line psychiatrists and other mental health professionals, and the experiences of those who have organized disaster mental health services, including the American Psychiatric Association and Disaster Psychiatry Outreach. Each chapter provides clear and concise information and in-depth review, followed by helpful study questions and answers. This book has been developed to give professionals the knowledge they need to respond swiftly and appropriately when disaster strikes.

*Using AI to Power Primary Literacy* Adam Bushnell, 2025-09-30. Artificial intelligence (AI) is transforming the world around us, and education is no exception. But how can AI help in the primary classroom, particularly with teaching reading, writing, and comprehension? This practical guide demystifies AI for teachers, offering clear, accessible, and practical strategies to enhance literacy teaching in a way that is both effective and engaging. Written specifically for primary school teachers, this book explores how AI-powered tools can support children's literacy development. It provides step-by-step guidance on using AI to enrich reading activities, improve comprehension skills, inspire creative writing, make poetry analysis and writing easier, and make non-fiction research more engaging. The book is packed with real-world, tried-and-tested examples, with easy-to-follow lesson ideas and thoughtful discussion points to help teachers integrate AI into their teaching while maintaining the human connection that is central to learning. This practical resource is for anyone looking for innovative ways to engage young learners with their reading and

writing It is particularly relevant for teachers and school leaders and offers hands on support on how to use AI ethically and effectively in the classroom whilst also suggesting ways to enhance learning and pupil engagement within an ever evolving educational landscape     Who's who in America ,1912     **Catholic Figures, Queer Narratives** Frederick S.

Roden,Patricia Juliana Smith,2006-11-14 This study examines the relationship between Catholicism and homosexuality and between historical homophobia and contemporary struggles between the Church and the homosexual Moving from the Gothic to the late Twentieth century from Europe to America it interrogates what is queer about Catholicism and what is modern about homosexuality     **Catalog of Copyright Entries.
