Doctrinal contest III: profits. Conclusion: A new past. **Positive Political Economy** Randall L. Calvert, Peter C. Fishburn, 2002 **Environmental and Natural Resources Economics** Steven C. Hackett, 2001 With over 25% new material, this new edition of *Environmental and Natural Resources Economics* offers an accessible and balanced treatment of economic theory and policy relating to the environment, as well as a thorough overview of the economics of sustainability. Intended for both students and practitioners, the book has been completely updated to include discussion and analysis of the latest U.S. and international environmental policy initiatives such as the Kyoto Protocol and how they affect the global economy. Fully integrated web source linkages have also been added throughout to enable all readers to make better use of the book's own website and a myriad of other available internet resources for research and supplemental reading on this crucial subject. *New Models in Geography* Richard Peet, 1989 First published in 1989. Routledge is an imprint of Taylor Francis, an informal company. **Environmental and Natural Resources Economics** Steven Hackett, Sahan T. M. Dissanayake, 2014-12-18 Extensively revised and updated, this popular text presents an accessible yet rigorous treatment of environmental and natural resources economics, including climate change and the economics of sustainability. Completely revised and updated, the fourth edition now includes new figures and tables, definitions to assist the reader, and updated policy information. New advances in the science, economics, and policy approaches to climate change have been integrated into essentially all new chapters on incentive regulation and global climate change. This innovative textbook integrates economics with science and public policy in a balanced and accessible way that will be appreciated by students from disciplines ranging from economics and natural resources management to environmental

studies and energy policy **Politics in the Dutch Economy** Bart Snels, 2018-12-20 First published in 1999 this volume surveys economic theories of political mechanisms as well as political theories of the influence of the institutional context in which decisions about social economic policies are being made In the first half of the seventeenth century the Dutch Republic emerged as one of Europe's leading maritime powers The political and military leadership of this small country was based on large scale borrowing from an increasingly wealthy middle class of merchants manufacturers and regents This volume presents the first comprehensive account of the political economy of the Dutch republic from the sixteenth to the early nineteenth century Building on earlier scholarship and extensive new evidence it tackles two main issues the effect of political revolution on property rights and public finance and the ability of the nation to renegotiate issues of taxation and government borrowing in changing political circumstances

Alternative Political Economy Models of Transition Marangos, **New Models in Geography** Richard Peet, 1989 Economic Models for Policy Making Solomon Cohen, 2013-05-02 Over the past decades many different kinds of models have been developed that have been of use to policy makers but until now the different approaches have not been brought together with a view to enhancing the systematic unification and evaluation of these models This new volume aims to fill this gap by bringing together four decades worth of work by S I Cohen on economic modelling for policy making Work on older models has been rewritten and brought fully up to date and these older models have therefore been brought back to the fore both to assess how they influenced more recent models and to see how they could be used today The focus of the book is on models for development policies in developing economies but there are some chapters that relate to economic policies in transition and developed economies The policy areas covered are of typical interest in developing and transition economies They include those relating to trade liberalization reforms sustainable development industrial development agrarian reform growth and distribution human resource development and education public goods and income transfers Each chapter contains a brief assessment of the empirical literature on the economic effects of the policy measures discussed in the chapter The book presents a platform of economic modelling that can serve as a refresher for practising professionals as well as a reference companion for graduates engaging in economic modelling and policy preparations
