Modern Architecture Photographs By Ezra Stoller 1939 1989:

Washington International Arts Letter ,1989 *On the Wings of Modernism* Robert Allen Nauman,2004 Nauman argues that contrary to the technological and teleological interpretations presented by the polemicists of international style modernism the academy's actual production was squarely grounded in bureaucratic and political processes He demonstrates that selection of both the site and the design firm was the result of political maneuverings involving the U S military leadership **BOOK JACKET** **Library Journal** ,1990 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately

The Publishers Weekly ,1999 *Beyond the Architect's Eye* Mary N. Woods,2013-12-11 Typical architectural photography freezes buildings in an ideal moment and rarely captures what photographer Berenice Abbott called the medium's power to depict how the past jostled the present In *Beyond the Architect's Eye* Mary N Woods expands on this range of images through a rich analysis that commingles art amateur and documentary photography genres usually not considered architectural but that often take the built environment as their subject Woods explores how photographers used their built environment to capture the disparate American landscapes prior to World War II when urban and rural areas grew further apart in the face of skyscrapers massive industrialization and profound cultural shifts Central to this study is the work of Alfred Stieglitz Frances Benjamin Johnston and Marion Post Wolcott but Woods weaves a wider narrative that also includes Alice Austen Gertrude K sebiere Berenice Abbott Margaret Bourke White Helen Levitt Lisette Model Louise Dahl Wolfe Morgan and Marvin Smith Eudora Welty Samuel Gottscho Walker Evans Max Waldman and others In such disparate places as New York City the rural South and the burgeoning metropolis of Miami these unconventional architectural photographers observed buildings as deeply connected to their context Whereas Stieglitz captured New York as the quintessential modern urban landscape in the period the South was its opposite a land supposedly frozen in the past Yet just as this myth of the Old South crystallized in photographs like Johnston's a New South shaped by popular culture and modern industry arose Miami embodied both of these visions In Wolcott's work agricultural fields where stoop labor persisted were juxtaposed with Art Deco hotels a popular modernism of the machine age that remade Miami Beach into a miniaturized Manhattan on the beach *Beyond the Architect's Eye* is a groundbreaking study that melds histories of American art cities and architecture with visual studies of landscape photography and cultural geography *Choice* ,1990 **Ezra Stoller, Photographer** Nina Rappaport,Erica Stoller,2012-12-04 A long awaited survey of the full range of Stoller's stunning photography [Translucent Building Skins](#) Scott Murray,2013-05-07 Exploring the design of innovative building enclosure systems or skins in contemporary architecture and their precedents in earlier twentieth century modern architecture this book examines the tectonics the history and the influence of translucency as a defining characteristic in architecture Highly illustrated throughout with drawings and full colour photographs the book shows that translucency has been and continues to be a

fertile ground for architectural experimentation Each chapter presents a comparative analysis of two primary buildings a recent project paired with a historical precedent highlighting how architects in different eras have realized the distinctive effects of translucency The included buildings span a variety of program types ranging from a single family residence to a factory to a synagogue Whether it is Pierre Chareau s glass lens curtain wall at the Maison de Verre Frank Lloyd Wright s wall of stacked glass tubes at the Johnson Wax Research Tower or Peter Zumthor s use of acid etched glass in a double skin envelope at the Kunsthhaus Bregenz the included projects each offer an exemplary case study of innovations in materiality and fabrication techniques Today among many contemporary architects there is an engagement with new technologies new material assemblies and new priorities such as sustainability and energy efficiency A resurgent interest in translucency as a defining quality in buildings has been an important part of this recent dialogue and this book makes essential reading for any architect looking to incorporate aspects of translucency into their buildings

Philip Johnson and the Museum of Modern Art Philip Johnson, 1998 This volume focuses on the architect Philip Johnson s long association with The Museum of Modern Art with essays examining his roles as patron as curator and as the institution s unofficial architect from the late 1940s to the early 1970s

Contract Design , 1991 **Modern Look** Mason Klein, 2020-05-05 A fascinating exploration of how photography graphic design and popular magazines converged to transform American visual culture at mid century This dynamic study examines the intersection of modernist photography and American commercial graphic design between 1930 and 1960 Avant garde strategies in photography and design reached the United States via European migr s including Bauhaus artists forced out of Nazi Germany The unmistakable aesthetic made popular by such magazines as Harper s Bazaar and Vogue whose art directors Alexey Brodovitch and Alexander Liberman were both immigrants and accomplished photographers emerged from a distinctly American combination of innovation inclusiveness and pragmatism Beautifully illustrated with more than 150 revolutionary photographs layouts and cover designs Modern Look considers the connections and mutual influences of such designers and photographers as Richard Avedon Lillian Bassman Herbert Bayer Robert Frank Lisette Model Gordon Parks Irving Penn Cipe Pineles and Paul Rand Essays draw a lineage from European experimental design to innovative work in American magazine design at mid century and offer insights into the role of gender in fashion photography and political activism in the mass media

The Modern Garden Pierluigi Serraino, 2024-10-01 Visionary landscape architecture and garden design at mid century in North America is captured by the greats of the era including Julius Shulman and Ezra Stoller in many previously unpublished photographs The treasures of mid century American architecture have long been celebrated Less appreciated has been the landscape design that provides the framing for these masterworks But more than frame landscape architecture is an art worthy of the spotlight particularly at mid century when the notion that gardens are outdoor spaces for people to live in was championed and brought to the fore now gardens and landscapes are not just external attributes to the house but a continuation of it and its living spaces in a relationship of symbiosis with its pools and terraces its winding lawns and its partly enclosed room like spaces flanked by brick or stone or plantings in a range of colors and forms Approximately seventy five mostly residential projects are thoroughly documented and recounted Landscape architects whose work is featured include Thomas Church Lawrence Halprin and Garrett Eckbo among others Highlights include the dramatic surrounds of Richard Neutra's Perkins House in its Pasadena hillside setting and Frank Lloyd Wright's Marin County Civic Center where environment and building comeingle in an extraordinary modernist vision of the future made real This book is both a wishful gesture toward a realignment of building with nature and a must have for anyone with a visceral appreciation for a designed environment understood as an integrated whole Ultimately the book underlines the fundamental importance of gardens and landscape design intended in the widest possible sense for the quality of living of all individuals *Marcel Breuer, Architect* Isabelle Hyman, 2001-11 Drawing upon previously unpublished archival material photographs sketches notes and plans architectural historian Hyman covers Marcel Breuer's entire career as an architect documenting both his unbuilt and completed work Following the introduction in which she traces the critical reception of Breuer's architecture throughout his career and in the decades after his death she presents a biography as well as a survey of all his buildings and projects organized by type of commission Extensively illustrated with 325 black and white and color photographs and drawings Oversize 10 75x10 5 c Book News Inc *Forthcoming Books* Rose Arny, 1990 Skidmore, Owings & Merrill Nicholas Adams, 2007 Surveys thirty of the most iconic buildings designed by Skidmore Owings Merrill SOM the legendary American architecture firm since its founding in 1936 **Books in Print Supplement**, 1994
