Achieving sustainable production of poultry meat Volume 1 Steven C. Ricke,2017-01-01 To meet growing demand the FAO has estimated that world poultry production needs to grow by 2 3% per year to 2030 Much of the increase in output already achieved has been as a result of improvements in commercial breeds combined with rearing in more intensive production systems However more intensive systems and complex supply chains have increased the risk of rapid transmission of animal diseases and zoonoses Consumer expectations of sensory and nutritional quality have never been higher At the same time consumers are more concerned about the environmental impact of poultry production as well as animal welfare Drawing on an international range of expertise this book reviews research on safety quality and sustainability issues in poultry production Part 1 discusses risks from pathogens detection and safety management on farms and in slaughterhouse operations Part 2 looks at ways of enhancing the flavour colour texture and nutritional quality of poultry meat Finally the book reviews the environmental impact of poultry production Achieving sustainable production of poultry meat Volume 1 Safety quality and sustainability will be a standard reference for poultry and food scientists in universities government and other research centres and companies involved in poultry production It is accompanied by two further volumes which review poultry breeding nutrition health and welfare *Impact of Regulations on Production, Processing, and Export of Poultry* United States. Congress. Senate. Committee on Agriculture, Nutrition, and Forestry. Subcommittee on Agricultural Production, Marketing, and Stabilization of Prices,1982
