Modern Masters Of Religious Education:

Modern Masters of Religious Education Marlene Mayr, 1983 **C. E. James Riley Estep, 2003 Teaching the Faith, Forming the Faithful** Gary A. Parrett, S. Steve Kang, 2013-03-05 With the decline of traditional Sunday school and education programs in recent years many Christians have not learned the fundamental doctrinal content of the faith In this text Gary Parrett and Steve Kang set forth a thoroughly biblical vision for intentional teaching of the Christian faith that attends to both the content and process of educational and formational ministries *Roman Jacobson's Prism* The Rev. Dr. Ronald Hunt, 2018-05-22 Roman Jacobson's Prism Learning the Language of Faith is a dissertation that examines the common elements found in the catechetical documents of the three mainline Canadian churches the Anglican Roman Catholic and United Church Dr Hunt employs Roman Jakobson's communication theory for the analysis as communication is central to faith education Twenty first century churches need to respond effectively to the faith education of their membership and Dr Hunt hopes that this work will inspire the churches of today to create faith responses to the challenges that the world faces now and into the future **Educational Ministry in the Logic of the Spirit** James E. Loder Jr., 2018-07-20 In November 2001 James E Loder Jr Professor of the Philosophy of Christian Education for forty years at Princeton Theological Seminary suddenly died He was a creative and profound thinker who had just completed a promising book In it he developed a compelling interdisciplinary model to disclose how the divine Spirit affirms reconstitutes and transforms the human spirit to bring new energy and creativity into human experience He called it redemptive transformation You now hold that book in your hands Those who know Loder's work are confident that Educational Ministry in the Logic of the Spirit though delayed for over fifteen years will still become the best introduction to his complex thought More important it offers the imaginative means by which we may learn to attune ourselves and our faith communities to what God is doing in our fractured distracted and self destructive world to bring about a revolution of love the fruit of Christ's Spirit and the center of our human vocation

The Christological Foundation for Contemporary Theological Education Joseph D. Ban, 1988 Handbook of Children's Religious Education Donald Ratcliff, 2008-05-22 Handbook of Children's Religious Education is a thorough and comprehensive treatment of the religious education of children ages six to twelve It covers virtually all the basic information that childhood educators need to know in order to be effective teachers and communicators *International Journal of Religious Education*, 1924 *Handbook of Preschool Religious Education* Donald Ratcliff, 2008-06-01 Handbook of Preschool Religious Education is an exhaustive and comprehensive treatment of the entire field of early childhood religious education This encyclopedic volume is an indispensable guide and resource for all those involved in the religious education of young children *Catechesis for the New Evangelization* Brian Pedraza, 2020-06-12 Popes Francis Benedict XVI and John Paul II have called the present a time of New Evangelization for the Church and have stressed the importance of catechesis for this mission John Paul II claimed that this renewal of the Church's mission is grounded in the teachings of the Second Vatican

Council Nevertheless approaches to catechesis in the conciliar and postconciliar era have varied greatly as evidenced by the shifts in catechetical practice effected by the modern catechetical movement Just as the dominant forms of theology changed from neo scholastic to anthropological approaches so too did catechesis move from catechism based approaches to more anthropological models based upon human experience In light of this context Catechesis for the New Evangelization examines the theological foundations of catechesis in the Church s understanding of divine revelation and its reception by the human person especially as found in the conciliar constitutions Dei Verbum and Gaudium et Spes After drawing norms on divine revelation from these documents it traces the history of the modern catechetical movement in order to compare this history with the conciliar norms highlighting the renewal s strengths and weaknesses These steps prepare the way for the main part of the book an examination of the anthropology of Karol Wojtya a Pope John Paul II Ultimately his anthropology provides an understanding of the person that can unite divine revelation and human experience in a way that takes what is best from the modern catechetical movement while developing the ministry in a way that can be fruitful for the New Evangelization Pedraza s book is not only an incisive look at modern catechetical history and theory It also touches upon some of the most important theological topics of the past century including the neo scholastic crisis the proper interpretation of the Council the relationship of nature and grace and the modern understanding of the imago dei with the research and competency appropriate for scholarly interest and the accessibility needed for educated practitioners in catechesis

"Education Has Nothing to Do with Theology" Edward J. Newell,2006-08-01 Does education have any relation to theology How do the educator s worldview commitments speak to his or her practice of education James Michael Lee brought a definite answer to these questions a firm no to the relations question and an advocacy for empirical findings over and against any speculative or theoretical positions in reply to the commitments question Lee claimed to have a universal neutral metatheory for all religious education a theory that would apply to all religious educators in any and every religion But in proposing his theory he overlooked the way that empirical facts express worldviews This book is a detective story tracing commitments that lay underneath empirical neutrality In the process the reader will see avenues that unmistakably link education to theology Education turns out to be a thoroughly worldview conditioned process This new work is essential reading for professors and students in both religious and general education
