[Modern Political Philosophies](#) Louis Wasserman, 1941 **Kant and Modern Political Philosophy** Katrin Flikschuh, 2000-08-28 In this book Katrin Flikschuh examines the relevance of Kant's political thought to major issues and problems in contemporary political philosophy She advances and defends two principal claims that Kant's philosophy of Right endorses the role of metaphysics in political thinking in contrast to its generally hostile reception in the field today and that his account of political obligation is cosmopolitan in its inception assigning priority to the global rather than the domestic context She shows how Kant's metaphysics of freedom as a shared idea of practical reason underlies the cosmopolitan scope of his theory of justice and she concludes that despite the revival of Kantianism in contemporary thinking his account of justice is in many respects very different from dominant approaches in contemporary liberal theory Her study will be of interest to political philosophers political theorists and historians of ideas **Modern Political Philosophy** Alan

Political Philosophy Karl Widerquist, 2016-12-05 This book looks at how modern philosophers pass on myths about prehistory Why do political philosophers talk so much about the Stone Age The state of nature the origin of property the origin of government and the primordial nature of inequality and war are popular topics in political philosophy but are they being used as more than just illustrative examples Does the best available evidence from archaeology and anthropology support or conflict with the stories being passed on by political philosophers This book presents a philosophical look at the origin of civilization examining political theories to show how claims about prehistory are used and presents evidence that much of what we think we know about human origins comes not from scientific investigation but from the imagination of philosophers **Civil Religion in Modern Political Philosophy** Steven Frankel, Martin D. Yaffe, 2020-07-15 Inspired by

Machiavelli modern philosophers held that the tension between the goals of biblical piety and the goals of political life needed to be resolved in favor of the political and they attempted to recast and delimit traditional Christian teaching to serve and stabilize political life accordingly This volume examines the arguments of those thinkers who worked to remake Christianity into a civil religion in the early modern and modern periods Beginning with Machiavelli and continuing through to Alexis de Tocqueville the essays in this collection explain in detail the ways in which these philosophers used religious and secular writing to build a civil religion in the West Early chapters examine topics such as Machiavelli s comparisons of Christianity with Roman religion Francis Bacon s cherry picking of Christian doctrines in the service of scientific innovation and Spinoza s attempt to replace long held superstitions with newer progressive ones Other essays probe the scripture based anti Christian argument that religion must be subordinate to politics espoused by Jean Jacques Rousseau and David Hume both of whom championed reason over divine authority Crucially the book also includes a study of civil religion in America with chapters on John Locke Montesquieu and the American Founders illuminating the relationships among religious and civil history acts and authority The last chapter is an examination of Tocqueville s account of civil religion and the American regime Detailed thought provoking and based on the careful study of original texts this survey of religion and politics in the West will appeal to scholars in the history of political philosophy political theory and American political thought

Wood, 2024-08-30 This book presents and evaluates the understanding of political form in the work of Pierre Manent The study of political form is Manent's central philosophical task He is interested in the nature of man in the action that makes us human and thus in politics and political action as privileged windows into human nature and what it is to be human Manent places himself in the classical political tradition with its foundations in human nature and in a politics that accords with nature He also situates himself within a triangle of faith philosophy and politics all of which interest him as part of the reality of things even as he avoids an exclusive commitment to any one vertex in his investigation The book first examines the major influences on Manent the overarching questions that guide his work on political form the theological political question and the question of the modern difference with the ancient view of man and politics and his two intertwined

paths of inquiry into political events and political thought Manent describes political forms as the modes of human association that no science has taken as its specific object City empire Church national monarchy or nation state and modern state are the principal forms that he examines The book discusses Manent's thinking on each form in turn together with the tensions that propel the changes or motion in political form that Manent sees as driving and revealing the course of European political development Using the work of Alasdair MacIntyre Russell Hittinger Jacques Maritain Gilson Robert Sokolowski and Francis Slade the book evaluates Manent's insights into the modern state and political condition which he judges to be exhausted as well as his call for the preservation of the form of the nation marked by Christianity
