**Challenged by Coeducation** Leslie Miller-Bernal, Susan L. Poulson, 2007-01-22 *Challenged by Coeducation* details the responses of women's colleges to the most recent wave of Women's colleges originated in the mid nineteenth century as a response to women's exclusion from higher education. Women's academic successes and their persistent struggles to enter men's colleges resulted in coeducation rapidly becoming the norm. However, still many prestigious institutions remained single sex, notably most of the Ivy League and all of the Seven Sisters colleges. In the mid twentieth century colleges' concerns about finances and enrollments as well as ideological pressures to integrate formerly separate social groups led men's colleges and some women's colleges to become coeducational. The admission of women to practically all men's colleges created a serious challenge for women's colleges. Most people no longer believed women's colleges were necessary since women had virtually unlimited access to higher education. Even though research spawned by the women's movement indicated the benefits to women of a room of their own, few young women remained interested in applying to women's colleges. *Challenged by Coeducation* details the responses of women's colleges to this latest wave of coeducation. Case studies written expressly for this volume include many types of women's colleges: Catholic and secular, Seven Sisters and less prestigious private and state liberal arts and more applied northern, southern and western, urban and rural, independent and coordinated with a coeducational institution. They demonstrate the principal ways women's colleges have adapted to the new coeducational era: some have been taken over or closed but most have changed by admitting men and thereby becoming coeducational or by offering new programs to different populations. Some women's colleges, mostly those that are in cities connected to other colleges and prestigious with a high endowment, still enjoy success. Despite their dramatic drop in numbers from 250 to fewer than 60 today, women's colleges are still important. Editors Miller-Bernal and Poulson argue. With their commitment to enhancing women's lives, women's colleges and formerly women's colleges can serve as models of egalitarian coeducation.

**Mercedes McCambridge** Ron Lackmann, 2015-01-09 American actress Mercedes McCambridge is an Academy Award winning star of radio, television, film and the stage, active in all four entertainment mediums between 1936 and 1991. Publicly she was active in politics, a lecturer at several colleges and an important activist in the fight against alcoholism; privately she suffered from divorces, miscarriages, suicide attempts, the death of her only child and a hard won battle with her own alcoholism. From roles on such radio shows as *Lights Out* at 19 to her starring role in Neil Simon's play *Lost in Yonkers* at 75, this biography both reveals her personal life and career and gives insight into an important period of show business history. Part I is a full biography from McCambridge's birth in Illinois in 1916 to her 1998 appearance at the Academy Awards. Part II gives McCambridge's radio, television, film and theatre performances, each entry listing the name of the show, name of the character, dates, other performers, directors and an indication of which were sustained short or long running roles and which single performances on a radio or television series. Research is drawn from books, periodicals and

personal interviews with McCambridge's peers      *The Mundelein Psalter* The Liturgical Institute, 2007-05 The Mundelein Psalter is the first complete psalter containing the approved English texts of the divine office pointed for singing chant and available for public use It is approved for use in the dioceses of the United States of America by the United States Conference of Catholic Bishops      **Raise Your Voices** Thomas M. McCann, Andrew Bouque, Dawn Forde, Elizabeth A. Kahn, Carolyn C. Walter, 2018-11-06 In a collection of chapters from high school teachers and university researchers Raise Your Voices offers English language arts teachers one stop shopping to learn how to foster dialogic classrooms and how to prompt sustain connect and assess classroom discussions especially discussions about issues that adolescents find consequential The chapters explore both the basics for facilitating discussion to support literacy learning and the principles for assessing the progress and effect of discussion and for including all students in lively dialogue Taken together the entries in this book envision the English language arts classroom as a supportive environment for authentic inquiry and for the genuine democratic processes involved in grappling together with tough perennial and contemporary issues      *American Catholic Studies*, 2005      *The Dream of a Democratic Culture* T. Lacy, 2013-11-26 This book presents a moderately revisionist history of the great books idea anchored in the following movements and struggles fighting anti intellectualism advocating for the liberal arts distributing cultural capital and promoting a public philosophy anchored in mid century liberalism that fostered a shared civic culture      *Pursuing Truth* Mary J. Oates, 2021-03-15 In Pursuing Truth Mary J Oates explores the roles that religious women played in teaching generations of college and university students amid slow societal change that brought the grudging acceptance of Catholics in public life Across the twentieth century Catholic women's colleges modeled themselves on and sometimes positioned themselves against elite secular colleges Oates describes these critical pedagogical practices by focusing on Notre Dame of Maryland University formerly known as the College of Notre Dame of Maryland the first Catholic college in the United States to award female students four year degrees The sisters and laywomen on the faculty and in the administration at Notre Dame of Maryland persevered in their work while facing challenges from the establishment of the Catholic Church mainline Protestant churches and secular institutions Pursuing Truth presents the stories of the institution's female founders administrators and professors whose labors led it through phases of diversification The pattern of institutional development regarding the place of religious identity gender and sexuality and race that Oates finds at Notre Dame of Maryland is a paradigmatic story of change in US higher education Similarly representative is her account of the school's effort from the late 1960s to the present to maintain its identity as a women's liberal arts college Thanks to generous funding from the Cushwa Center at the University of Notre Dame the ebook editions of this book are available as Open Access OA volumes from Cornell Open [cornellpress.cornell.edu/cornell-open](http://cornellpress.cornell.edu/cornell-open) and other Open Access repositories      **Born in Chicago** Ellen Skerrett, 2008      *Back of the Yards* Robert A. Slayton, 1988-04-15 Robert A Slayton's *Back of the Yards* is one of the finest accounts I have ever read on an urban working class neighborhood in twentieth

century America Its focus on family politics and worklife is penetrating and its conclusions reinforce an emerging scholarly picture of ordinary people exercising unique forms of power John Bodnar author of *The Transplanted A History of Immigrants in Urban America*

*The Catholic Choirmaster*, 1915

*Crossing Parish Boundaries* Timothy B. Neary, 2016-10-14 Controversy erupted in spring 2001 when Chicago s mostly white Southside Catholic Conference youth sports league rejected the application of the predominantly black St Sabina grade school Fifty years after Brown v Board of Education interracialism seemed stubbornly unattainable and the national spotlight once again turned to the history of racial conflict in Catholic parishes It s widely understood that midcentury working class white ethnic Catholics were among the most virulent racists but as *Crossing Parish Boundaries* shows that s not the whole story In this book Timothy B Neary reveals the history of Bishop Bernard Sheil s Catholic Youth Organization CYO which brought together thousands of young people of all races and religions from Chicago s racially segregated neighborhoods to take part in sports and educational programming Tens of thousands of boys and girls participated in basketball track and field and the most popular sport of all boxing which regularly filled Chicago Stadium with roaring crowds The history of Bishop Sheil and the CYO shows a cosmopolitan version of American Catholicism one that is usually overshadowed by accounts of white ethnic Catholics aggressively resisting the racial integration of their working class neighborhoods By telling the story of Catholic sponsored interracial cooperation within Chicago *Crossing Parish Boundaries* complicates our understanding of northern urban race relations in the mid twentieth century

**Resources on the History of 20th Century American Student Organizations** , *History of Universities*

Mordechai Feingold, 2002-09-12 Volume XVII of *History of Universities* contains the customary mix of learned articles, book reviews, conference reports, and bibliographical information which makes this publication such an indispensable tool for the historian of higher education. Its contributions range widely geographically, chronologically, and in subject matter. The volume is as always a lively combination of original research and invaluable reference material. *The Third Disestablishment*

Steven K. Green, 2018-12-11 In 1947 the Supreme Court embraced the concept of church-state separation as shorthand for the meaning of the Establishment Clause of the First Amendment. The concept became embedded in Court's jurisprudence and remains so today. Yet separation of church and state is not just a legal construct; it is embedded in the culture. Church-state separation was a popular cultural ideal chiefly for Protestants and secularists long before the Supreme Court adopted it as a constitutional principle. While the Court's church-state decisions have impacted public attitudes, particularly those controversial holdings regarding prayer and Bible reading in public schools, the idea of church-state separation has remained relatively popular. Recent studies indicate that approximately two-thirds of Americans support the concept, even though they disagree over how to apply it. In the follow-up to his 2010 book *The Second Disestablishment*, Steven K. Green sets out to do examine the development of modern separationism from a legal and cultural perspective. *The Third Disestablishment* examines the dominant religious-cultural conflicts of the 1930s-1950s between Protestants and Catholics, but it also shows how other trends and controversies during mid-century impacted both judicial and popular attitudes toward church-state separation: the Jehovah's Witnesses cases of the late 30s and early 40s, Cold War anti-communism, the religious revival, and the rise of civil religion, the advent of ecumenism, and the presidential campaign of 1960. The book then examines how events of the 1960s—the school prayer decisions, the reforms of Vatican II, and the enactment of comprehensive federal education legislation providing assistance to religious schools—produced a rupture in the Protestant consensus over church-state separation, causing both evangelicals and religious progressives to rethink their commitment to that principle. Green concludes by examining a series of church-state cases in the late 60s and early 70s where the justices applied notions of church-state separation at the same time they were reevaluating that concept. **Western Electric News**, 1924

*Women's Universities and Colleges* Francesca B. Purcell, Robin Matross Helms, Laura E. Rumbley, 2005-01-01 This book is a pioneering venture. It is the first effort to provide an international inventory of women's universities and colleges. Apart from providing such inventory, the book intends to raise questions and suggest new ways of improving the education of women worldwide. It is an invitation to network and to create a community of institutions with a common purpose and orientation. It is hoped especially that women's institutions in the north and especially in the United States can use this resource to link up with counterpart colleges and universities in developing countries. Providing higher education opportunities for women, understanding the role of women in societies, and contributing to the expansion of women's studies as a new field are all important goals, and women's institutions are central both to understanding and to ameliorating

inequalities This book hopes to make a small contribution to these goals      *Mightier than the Sword* Rodger Streitmatter, 2018-04-17 In this engaging examination of the media's influence on US history and politics Rodger Streitmatter visits sixteen landmark episodes from the American Revolution to the present day fight for gay and lesbian marriage equality In each of these cases Streitmatter succinctly illustrates the enormous role that journalism has played in not merely recording this nation's history but also in actively shaping it *Mightier than the Sword* offers students and professors a highly readable and accessible alternative to journalism history textbooks Instead of trying to document every detail in the development of US media through dry dull lists of names dates and headlines this book focuses on sixteen discrete episodes that illustrate a point that is much larger than the sum of their parts media have played and continue to play an enormous role in shaping this nation The fourth edition features an entirely new chapter on the way US media have championed various gay and lesbian rights initiatives from the 2003 Lawrence vs Texas sodomy case through the June 2013 Supreme Court decision striking down DOMA the Defense of Marriage Act Balancing criticism and celebration of news media and exploring both print and electronic platforms *Mightier than the Sword* provides students with a sense of the power and responsibility inherent in the institution of journalism      *Killer Tomatoes* Ray Hagen, Laura Wagner, 2015-01-28 No delicate ingenues these In the middle of the twentieth century the Mary Pickfords of the movie world were replaced by a different sort of woman drop dead gorgeous witty not afraid to speak their minds they could slay you with a look and if that didn't work look out for the pistol in the garter These ground breaking actresses helped change the course of movie history charting a path for generations to come These profiles of fifteen leading ladies Lucille Ball Lynn Bari Joan Blondell Ann Dvorak Gloria Grahame Jean Hagen Adele Jergens Ida Lupino Marilyn Maxwell Mercedes McCambridge Jane Russell Ann Sheridan Barbara Stanwyck Claire Trevor and Marie Windsor include overviews of their lives and careers and excerpts from interviews Five photos supplement each profile Jane Russell one of the actresses profiled provides a foreword
