No Second Parting:

No Second Parting Lilian Peake, 1977-12-01 *Grasping Shadows* William Sharpe, 2017 Grasping Shadows offers the most thorough examination of the cultural uses of shadows Exploring a myriad of major literary and artistic evocations of shadows Grasping Shadows puts forth a unifying theory for how shadows function and how they transformed our relationship to darkness and light **Less Than Nothing** Slavoj Zizek, 2013-09-10 For the last two centuries Western philosophy has developed in the shadow of Hegel an influence each new thinker struggles to escape As a consequence Hegel's absolute idealism has become the bogeyman of philosophy obscuring the fact that he is the defining philosopher of the historical transition to modernity a period with which our own times share startling similarities Today as global capitalism comes apart at the seams we are entering a new period of transition In Less Than Nothing the product of a career long focus on the part of its author Slavoj Zizek argues it is imperative we not simply return to Hegel but that we repeat and exceed his triumphs overcoming his limitations by being even more Hegelian than the master himself Such an approach not only enables Zizek to diagnose our present condition but also to engage in a critical dialogue with the key strands of contemporary thought Heidegger Badiou speculative realism quantum physics and cognitive sciences Modernity will begin and end with Hegel

The Scriptures of Charles Dickens Vincent Newey, 2016-12-05 This study focuses on Dickens's response to questions of identity conduct and social organization that emerged in an era of major cultural unsettlement and change not least with the decline of religious certainty and the rise of materialism An analysis of A Christmas Carol as a paradigm of his concerns and strategies in these fields is followed by close readings of novels from different stages of his career Oliver Twist David Copperfield Great Expectations and Our Mutual Friend These and other works by Dickens are seen to reflect ideologies

currently at work in his society but also more importantly to participate in the construction of needful value systems and codes for regulating behaviour Liberal humanism and middle class hegemony feature largely in this process of culture formation where Dickens played a crucial role in formulating and promulgating such salient guiding principles as those of sympathy marriage and the family economic responsibility and hierarchy within and between groups His treatment of the self is on one level driven by this project in shaping and stabilizing attitudes among a confederacy of readers in that it offers positive models of development of how to function and fit in yet on another especially in his sustained imaginative preoccupation with the figure of the outsider or misfit this is one pre eminent area where his writing transcends purposes of enculturation and paradoxically challenges its own ideological positions His female characters in particular as well as more obviously his anti heroes criminals and other dissidents are shown to question and subvert the moulds in which they are formally cast The novels are confirmed not only as great creative achievements an aspect this book consistently salutes nor simply as a primary site of the evolving Victorian dispensation and revolution of ideas but as a territory that predicts engages and illuminates our own complex modernity Reference is made throughout the volume to other contemporary writings including sociological philosophic and medical discourse to recent cognate theory and to traditions like that of Puritan spiritual autobiography which Dickens adapted to new ends
