Pamela Wilson Pamela Wilson, Gabriel P. Weisbert, Claire Oliver Fine Arts, 1996 Combating Injustice Jon Falsarella Dawson, 2022-05-04 In *Combating Injustice* Jon Falsarella Dawson approaches American literary naturalism as a means of social criticism exploring the powerful economic arguments and commentaries on labor struggles presented in novels by Frank Norris Jack London and John Steinbeck Making use of extensive archival research Dawson considers many of the original periodical sources that fueled books from *McTeague* to *The Grapes of Wrath* as Norris London and Steinbeck transformed contemporary materials into illustrations of the socioeconomic forces that shape American life By depicting the operations of powerful individuals and institutions these naturalist writers offered audiences a greater awareness of the plight of labor so that readers might find the inspiration to become agents of change Works such as *The Octopus* *The Iron Heel* *Martin Eden* and *In Dubious Battle* illuminate many of the central economic issues at play in the United States during the late nineteenth and early twentieth centuries including the rise of commodity culture labor disputes involving industrial and agricultural workers widespread poverty extreme inequality and the concentration of resources and land ownership Norris London and Steinbeck highlighted the dangers of these developments by charting their impact on central characters whose fates result from the predatory tactics of corporate monopolies wealthy individuals and large financial establishments Dawson's lucid analysis shows how all three writers drawing on contemporary events accentuated the need for reform and stressed the potential for change by human action Each author took inspiration from notable events in California ranging from the Mussel Slough tragedy of 1880 to the agricultural strikes in the Central Valley during the 1930s presenting the state as a microcosm for conditions throughout the nation during a period of tremendous upheaval *Combating Injustice* The Naturalism of Frank Norris Jack London and John Steinbeck provides carefully contextualized readings of three major writers whose works express both the necessity for and the possibility of creating a more egalitarian society **REDESIGNING WOMEN** Amanda D. Lotz, 2010-10-01 In the 1990s American television audiences witnessed an unprecedented rise in programming devoted explicitly to women Cable networks such as Oxygen Media Women's Entertainment Network and Lifetime targeted a female audience and prime time dramatic series such as *Buffy the Vampire Slayer* *Judging Amy* *Gilmore Girls* *Sex and the City* and *Ally McBeal* empowered heroines single career women and professionals struggling with family commitments and occupational demands After establishing this phenomenon's significance Amanda D Lotz explores the audience profile the types of narrative and characters that recur and changes to the industry landscape in the wake of media consolidation and a profusion of channels Employing a cultural studies framework Lotz examines whether the multiplicity of female centric networks and narratives renders certain gender stereotypes uninhabitable and how new dramatic portrayals of women have redefined narrative conventions *Redesigning Women* also reveals how these changes led to narrowcasting or the targeting of a niche segment of the overall audience and the ways in which the new sophisticated portrayals of women

inspire sympathetic identification while also commodifying viewers into a marketable demographic for advertisers

literature that tends to ignore the fact that realism by virtue of its commitment to a changing material and social world cannot be but continuously experimenting The innovative chapters of this book address some of the pressing questions of literary and cultural studies today like the complex relation between historical materialism and new materialisms between science and art or the different aesthetic and political affordances of making systemic analyses against depicting the specificity of the local Some of the chapters deal with classically realist authors such as George Eliot mile Zola and Joseph Conrad to gauge the aesthetic radicalism of their diverse realist projects Others investigate the experimental engagements with realism by authors such as B S Johnson J M Coetzee or Rachel Cusk Yet others analyze the politics of realism found in contemporary anglophone novels by writers like Chimamanda Ngozi Adichie David Mitchell or Rohinton Mistry The readings assembled here are a testament to the diversity of literary realism s from the 19th 20th and 21st centuries and to the ongoing controversies surrounding definitions and deployments of realism The Art of Uncertainty Daniel Williams,2024-03-07
