Hershberger, 2023 The first feminist analysis of some of the most performed works in the American opera canon emphasizing the voices and perspectives of the sopranos who brought these operas to life In the 1950s composers and librettists in the United States were busy seeking to create an opera repertory that would be deeply responsive to American culture and American concerns They did not break free however of the age old paradigm so typically expressed in European opera that is of women as either saintly and pure or sexually corrupt with no middle ground As a result in American opera of the 1950s women risked becoming once again opera s inevitable victims Yet the sopranos who were tasked with portraying these paragons of virtue and their opposites did not always take them as their composers and librettists made them Sometimes they rewrote through their performances the roles they had been assigned Sometimes they used their lived experiences to invest greater authenticity in the roles With chapters on *The Tender Land* *Susannah* *The Ballad of Baby Doe* and *Lizzie Borden* this book analyzes some of the most performed yet

understudied works in the American opera canon It acknowledges Catherine Clement's famous description of opera as the undoing of women while at the same time illuminating how singers like Beverly Sills and Phyllis Curtin worked to resist such undoing years before the official resurgence of the American feminist movement In short they ended up helping to dismantle powerful gendered stereotypes that had often reigned unquestioned in opera houses until then **Herd Register** American Jersey Cattle Club,1929 *History Of China's Financial Thought, A (In 2 Volumes)* Sui Yao,2023-07-26 A History of China's Financial Thought presents the history and evolution of China's financial thought across its dynasties to the 20th century Being the first work to cover both the ancient and modern ages even going as far back as the Pre Qin period this comprehensive book fills in research gaps and provides the most thorough research into the history of China's financial thought advancing the study of financial and economic history It delves into a myriad of topics such as monetary theory and banking systems and collects diverse perspectives from thinkers across the different eras This translation presents the history of China's financial thought in a pioneering and unique way offering an instructive reading experience It is an essential reference for students and scholars interested in China's finance history and culture **The Official Blackbook Price Guide to World Coins 2008** Marc Hudgeons,Thomas E.
