Oye Loca Susana Peña, 2013-08-01 During only a few months in 1980 125 000 Cubans entered the United States as part of a massive migration known as the Mariel boatlift The images of boats of all sizes in various conditions filled with Cubans of all colors and ages triggered a media storm Fleeing Cuba s repressive government many homosexual men and women arrived in the United States only to face further obstacles Deemed undesirables by the U S media the Cuban state and Cuban Americans already living in Miami these new entrants marked a turning point in Miami s Cuban American and gay histories In *Oye Loca* Susana Pe a investigates a moment of cultural collision Drawing from first person stories of Cuban Americans as well as government documents and cultural texts from both the United States and Cuba Pe a reveals how these discussions both sensationalized and silenced the gay presence giving way to a Cuban American gay culture Through an examination of the diverse lives of Cuban and Cuban American gay men we learn that Miami s gay culture was far from homogeneous By way of in depth interviews participant observation and archival analysis Pe a shows that the men who crowded into small apartments together bleached their hair with peroxide wore housedresses in the street and endured ruthless insults challenged what it meant to be Cuban in Miami Making a critical incision through the study of heteronormativity homosexualities and racialization ultimately *Oye Loca* illustrates how a single historical event helped shape the formation of an entire ethnic and sexual landscape

National Politics and Sexuality in Transregional Perspective Achim Rohde, Christina von Braun, Stefanie Schüler-Springorum, 2017-11-28 *National Politics and Sexuality in Transregional Perspective* explores how modern identity politics around the world are gendered and sexualized in multiple ways Constructions of the imagined collective self often contain references to a heteronormative order whereas relevant internal or external others are often felt to deviate from this order through their gendered or sexual practices By contrast some Western countries have witnessed the evolution of LGBTQI friendly discourses by certain political actors in recent years often in the context of the post 9 11 culture wars This pathbreaking book focuses on perceptions of self and other in Europe the Middle East and North Africa from a gendered perspective It deals with anti LGBTQI as well as LGBTQI friendly aspects of modern culture and politics in countries within these regions focusing on the functions such discursive markers play in nationalist and racist imageries in discourses legitimizing class differences from the nineteenth century to the present

day including globalized discourses in the context of 9 11 and its aftermath It shows that discourses on sexuality and gendered performances in everyday life often undermine the stability of such binary constructions as they point to the multiplicity ambivalence and the indeterminate character of individual and collective identities under conditions of modernity Addressing contemporary identity politics both in a wider historical context and within a transregional comparative framework thus helps to discern differences and similarities between different world regions and serves to dislocate essentialized notions of cultural differences based on gender and sex This book will appeal to those with an interest in Political Sociology Gender Studies and Globalisation
