Quenzel's Quest Guy Marchi, 1999-01-01 **Quest for a Christian America, 1800-1865** David Edwin Harrell, 2003-09-29 The definitive social history of the Disciples of Christ in the 19th century The Disciples of Christ led by reformers such as Alexander Campbell and Barton W Stone was one of a number of early 19th century primitivist religious movements seeking to restore the ancient order of things The Disciples movement was little more than a loose collection of independent congregations until the middle of the 19th century but by 1900 three clear groupings of churches had appeared Today more than 5 million Americans members of the modern day Disciples of Christ Christian Church Independent Christian Churches and Churches of Christ among others trace their religious heritage to this Restoration Movement *Canadian Books in Print* Marian Butler, 2000 Exploration History and Place Names of Northern East Greenland A. Merchant Vessels of the United States... United States. Coast Guard, 1989 **Merchant Vessels of the United States**, 1989 **Youth in Contemporary Europe** Jeremy Leaman, Martha Wörsching, 2010-06-10 This book examines the everyday living conditions experienced and also shaped by young people in Europe Contributors reflect on the current context of economic social and political change affecting youth in the critical transition from dependence to independence The volume provides the reader with a multi dimensional and interdisciplinary view of youth cultures drawn from a variety of recent research throughout the continent **Hegemonies of Legitimation** Dominika Biegoń, 2017-03-28 The legitimacy of the European Union is a much studied and highly contested subject Unlike other works this book does not engage in another

review of the shifts of public opinion and perception regarding the EU. Instead, it offers a different and innovative perspective by focusing on constructions of legitimacy in the European Commission. Starting from the premise that legitimacy is discursively constructed, the book engages in a fine-grained analysis of legitimacy discourses in the European Commission since the early 1970s. Embedded in a poststructuralist theoretical framework, *Hegemonies of Legitimation* also sheds light on the conditions that made radical shifts of legitimacy discourses possible and illustrates how these discursive shifts paved the way for different types of legitimation policies. As such, the book maps and reconstructs the historically variable discursive landscape of competing articulations of what legitimacy signifies in the case of the EC, EU, and provides us with a detailed picture of the history of the Commission's struggle for legitimacy.

Gender Roles in the Future? Theoretical Foundations and Future Research Directions Alice H. Eagly, Sabine Sczesny, 2019-11-01. The study of gender is deservedly a major focus of research in the discipline of psychology in general and social psychology in particular. Interest in the topic increased sharply in the 1970s with the flowering of the feminist movement, and research has continued to advance since that time. In 1987, Alice Eagly formulated Social Role Theory to explain the behavior of women and men as well as the stereotypes, attitudes, and ideologies that are relevant to sex and gender. Enhanced by several extensions over the intervening years, this theory became one of the pre-eminent, if not the central, theory of gender in social psychology. Also over the last decades, social psychologists have developed a variety of related approaches to understanding gender, including for instance theories devoted to stereotyping, leadership, status, backlash, lack of fit to occupational roles, social identity, and categorization. Reflecting these elements, this book includes articles that encompass a wide range of themes pertaining to sex and gender. In these papers, the concept of social roles appears often as a central integrative concept that links individuals with their social environment. These articles thereby complement social role theory as the authors reach out to build an extended theoretical foundation for gender research of the future.
