*The Sabbatean Prophets* Matt GOLDISH, Matt Goldish, 2009-06-30 In the mid seventeenth century Shabbatai Zvi a rabbi from Izmir claimed to be the Jewish messiah and convinced a great many Jews to believe him The movement surrounding this messianic pretender was enormous and Shabbatai s mission seemed to be affirmed by the numerous supporting prophecies of believers The story of Shabbatai and his prophets has mainly been explored by specialists in Jewish mysticism Only a few scholars have placed this large scale movement in its social and historical context Matt Goldish shifts the focus of Sabbatean studies from the theology of Lurianic Kabbalah to the widespread seventeenth century belief in latter day prophecy The intense expectations of the messiah in Christianity Judaism and Islam form the necessary backdrop for understanding the success of Sabbateanism The seventeenth century was a time of deep intellectual and political ferment as Europe moved into the modern era The strains of the Jewish mysticism Christian millenarianism scientific innovation and political transformation all contributed to the development of the Sabbatean movement By placing Sabbateanism in this broad cultural context Goldish integrates this Jewish messianic movement into

Reviews of this book Goldish looks at the Jewish messianic surge of the 17th century which culminated with the Sabbatean  
movement and places it in a broader multidimensional context He has produced a well written scholarly addition and  
modification to the literature Paul Kaplan Library Journal      **The Oxford Handbook of the Book of Revelation** Craig R.  
Koester, 2020 The Book of Revelation holds a special fascination for both scholars and the general public The book has  
generated widely differing interpretations yet Revelation has surprisingly not been the focus of many single volume reference  
works The Oxford Handbook of the Book of Revelation fills a need in the study of this controversial book Thirty essays by  
leading scholars from around the world orient readers to the major currents in the study of Revelation Divided into five  
sections Literary Features Social Setting Theology and Ethics History of Reception and Influence and Currents in  
Interpretation the essays identify the major lines of interpretation that have shaped discussion of these topics and then work  
through the aspects of those topics that are most significant and hold greatest promise for future research      *Gods of the*  
*Mississippi* Michael Pasquier, 2013-02-27 From the colonial period to the present the Mississippi River has impacted religious  
communities from Minnesota to the Gulf of Mexico Exploring the religious landscape along the 2 530 miles of the largest  
river system in North America the essays in *Gods of the Mississippi* make a compelling case for American religion in motion  
not just from east to west but also from north to south With discussion of topics such as the religions of the Black Atlantic  
religion and empire antebellum religious movements the Mormons at Nauvoo black religion in the delta Catholicism in the  
Deep South and Johnny Cash and religion this volume contributes to a richer understanding of this diverse dynamic and fluid  
religious world      **American Panic** Mark Stein, 2014-05-20 In *American Panic* New York Times bestselling author Mark  
Stein traces the history and consequences of American political panics through the years Virtually every American on one  
level or another falls victim to the hype intensity and propaganda that accompanies political panic regardless of their own  
personal affiliations By highlighting the similarities between American political panics from the Salem witch hunt to present  
day vehemence over issues such as Latino immigration gay marriage and the construction of mosques Stein closely examines  
just what it is that causes us as a nation to overreact in the face of widespread and potentially profound change This book  
also devotes chapters to African Americans Native Americans Catholics Mormons Jews Chinese and Japanese peoples  
Communists Capitalists women and a highly turbulent but largely forgotten panic over Freemasons Striking similarities in  
these diverse episodes are revealed in primary documents Stein has unearthed in which statements from the past could  
easily be mistaken for statements today As these similarities come to light Stein reveals why some people become panicked  
over particular issues when others do not      **The Tarragona Vortex** Lawrence J. McCrank, 2022-09-30 This extensive

bibliographic essay underpins the entire Tarragona Vortex study by focusing on this arena as one of the most contested frontiers in Western history comparable to Jerusalem in the East for broad issues of Romanization Westernization Islamization and Christianization Its book length chapters treat 1 diverse historiographies from local and Spanish to comparative Mediterranean and Crusade History and especially Ethno historiography and the explanatory concept of frontiers 2 the phenomena of religion conversion and reform and the conditioning agents of Islam and Latin Christianity in practice and adversity 3 religious universalism and violence especially religious war 4 the Crusade and Reconquest paradigms and century long debate 5 the environment on land and sea and setting for this History Although these themes are explored to include due reconsideration but avoid major digressions in its telling about Tarragona and the Tarraconensis they underly so much of Late Antique and Medieval historical research that this discussion pertains to the whole field of historical cultural and religious studies

**Len Jenkin's Theatre** Robert J. Andreach, 2011 Early in his career Len Jenkin identified two qualities that theatre should have wonder and heart Imagination creates wonder by transforming nature to suggest more than nature Love engages the heart on the quest to experience the wonder for though Jenkin is an experimental playwright his plays are not abstruse symbols They are tales that take salesmen and actresses historical figures and fictional characters through a Stein landscape and a Kafka story pop culture and recreated scenes from the Bible and The Canterbury Tales The Aeneid and Headlong Hall to an amusement park ride and a penal colony a flophouse and a garden Bodacious verbal and visual images build in power until they soar as pilgrims tell tales to pass the night while waiting to cross the river Hawthorne Sophie and Melville on the beach hear the ever encroaching kraken and Margo Veil essays the roles that all questing mortals play in life

**Allegorical Quests from Deguileville to Spenser** Marco Nievergelt, 2012 An examination of sixteenth century quest narratives focussing on their conscious use of a medieval tradition to hold a mirror up to contemporary culture Offers the first full study of the allegorical knightly quest tradition from the Middle Ages to the Renaissance Richly satisfying as impressive in the detail of its scholarship as in the elegance of its critical formulations It seamlessly moves between different literary traditions and across conventional period boundaries In Dr Nievergelt's treatment of this theme the successive retellings of the tale of the knight's quest come to stand as an emblem of shifting values and norms both religious and worldly and of our repeated failures to realise those ideals Dr Alex Davis Department of English University of St Andrews The literary motif of the allegorical knightly quest appears repeatedly in the literature of the late medieval early modern period notably in Spenser but has hitherto been little examined Here in his examination of a number of sixteenth century English allegorical chivalric quest narratives focussing on Spenser's Faerie Queene but including important lesser known works such as Stephen Bateman's Travayled Pylgrime and William Goodyear's Voyage of the Wandering Knight the author argues that the tradition begins with the French writer Guillaume de Deguileville

His seminal *Plerinage de la vie humaine* was composed c 1331-1355 it was widely adapted translated rewritten and printed over the next centuries Dr Nievergelt goes on to demonstrate how this essentially medieval literary form could be adapted to articulate reflections on changing patterns of identity society and religion during the early modern period and how it becomes a vehicle of self exploration and self fashioning during a period of profound cultural crisis Dr Marco Nievergelt is Lecturer Maître Assitant and SNF Swiss National Science Foundation Research Fellow in the English Department at the Université de Lausanne

*Latin Arthurian Literature* Mildred Leake Day, 2005 Parallel text and translation of Arthurian romances in Latin Latin is the language not only of numerous Arthurian chronicles including the most important of all Geoffrey of Monmouth's *Historia regum Britannie* but also of a small number of important but largely neglected romances concerning Arthur and his knights Several of these romances clearly take their inspiration from the chronicle tradition and their authors sometimes join romance adventures with actual events and characters such as Henry II in order to give the appearance of history to Arthurian fiction Ranging in date from the late twelfth to the fourteenth century these romances include *De ortu Waluuanii* in which Gawain defeats the Persian champion for the peace of Jerusalem *Historia Meriadoci* Arthur and Gorlagon and *Draco Normannicus* These four texts are presented here in facing text and translation and accompanied by a thorough introduction and extensive notes

[The Quest for the New Jerusalem, Jean de Labadie and the Labadists, 1610-1744](#) T.J. Saxby, 2012-12-06 The history of Jean de Labadie and the Labadists has received attention through the years That attention however has more often than not fallen short in its tracing of Labadie's double migration Disaffected with the established church order of his day and motivated by a sense of prophetic mission to establish again the life of the primitive church this spiritual nomad wandered from France to Switzerland then to

the United Provinces Germany and Denmark according to the vicissitudes of the times As he went he changed his affiliations from high church ever lower from the bosom of Rome to Calvinism then to congregational separatism Thus there has been ample reason to treat Labadie s life and ministry episodically be it a geographical or denominational episode and a solid grounding could be had by piecing to gether several of these all listed in bibliography part D M de Certeau on the Jesuit years X de Bonnault d Houet on his stay at Amiens A L Bertrand on the lost years from Amiens to Montauban J H Gerlach and W Goeters on the schism at Middelburg P Scheltema on Amsterdam L Holscher and G E Guhrauer on Herford J Lieboldt and H von Schubert on Altona B B James and H C Murphy on the colony in Maryland L Knappert on that in Surinam and any number of authorities on the Labadists in Friesland Yet there are sig nificant gaps      Ideology and Utopia in the Poetry of William Blake Nicholas M. Williams,1998-04-13 Scholars have often drawn attention to William Blake s unusual sensitivity to his social context In this book Nicholas Williams situates Blake s thought historically by showing how through the decades of a long and productive career Blake consistently responded to the ideas writing and art of contemporaries Williams presents detailed readings of several of Blake s major poems alongside Rousseau s Emile Wollstonecraft s Vindication of the Rights of Woman Paine s Rights of Man Burke s Reflections on the Revolution in France and Robert Owen s Utopian Experiments In so doing he offers revealing new insights into key Blake texts and draws attention to their inclusion of notions of social determinism theories of ideology critique and Utopian traditions Williams argues that if we are truly to understand ideology as it relates to Blake we must understand the practical situation in which the ideological Blake found himself His study is a revealing commentary on the work of one of our most challenging poets      Exploring the Next Frontier Matthew Wilhelm Kapell,2016-02-19 The 1960s and early 70s saw the evolution of Frontier Myths even as scholars were renouncing the interpretive value of myths themselves Works like Joe Haldeman s The Forever War exemplified that rejection using his experiences during the Vietnam War to illustrate the problematic consequences of simple mythic idealism Simultaneously Americans were playing with expanded and revised versions of familiar Frontier Myths though in a contemporary context through NASA s lunar missions Star Trek and Gerard K O Neill s High Frontier This book examines the reasons behind the exclusion of Frontier Myths to the periphery of scholarly discourse and endeavors to build a new model for understanding their enduring significance This model connects NASA s failed attempts to recycle earlier myths wholesale to Star Trek s revision of those myths and rejection of the idea of a frontier paradise to O Neill s desire to realize such a paradise in Earth s orbit This new synthesis defies the negative connotations of Frontier Myths during the 1960s and 70s and attempts to resuscitate them for relevance in the modern academic context      British Fictions of the Sixties Sebastian Groes,2016-05-19 British Fictions of the Sixties focuses on the major socio political changes that marked the sixties in relationship to the development of literature over the decade This book is the first critical study to acknowledge that the 1960s can only be understood if next to its contemporary socio political history its fictions and mythologies are acknowledged as a vital

constituent in the understanding of the decade Groes uncovers a major epistemological shift and presents a powerful meta narrative about post war literature in the UK and beyond British Fictions of the Sixties offers a re examination of canonical writers such as Iris Murdoch Angela Carter Muriel Spark and John Fowles It also pays critical attention to avant garde writers including Ann Quinn Bridget Brophy Eva Figs Christine Brooke Rose and J G Ballard presenting a comprehensive insight into the continuing power the decade exerts on the contemporary imagination Choreographies of Shared Sacred Sites Elazar Barkan, Karen Barkey, 2014-11-11 This anthology explores the dynamics of shared religious sites in Turkey the Balkans Palestine Israel Cyprus and Algeria indicating where local and national stakeholders maneuver between competition and cooperation coexistence and conflict Contributors probe the notion of coexistence and the logic that underlies centuries of sharing exploring when and why sharing gets interrupted or not by conflict and the policy consequences These essays map the choreographies of shared sacred spaces within the framework of state society relations juxtaposing a site s political and religious features and exploring whether sharing or contestation is primarily religious or politically motivated Although religion and politics are intertwined phenomena the contributors to this volume understand the category of religion and the political as devices meant to distinguish between the theological and confessional aspects of religion and the political goals of groups Their comparative approach better represents the transition in some cases of sites into places of hatred and violence while in other instances they remain noncontroversial The essays clearly delineate the religious and political factors that contribute to the context and causality of conflict at these sites and draw on history and anthropology to shed light on the often rapid switch from relative tolerance to distress to peace and calm
