Modern Genre Theory David Duff, 2014-09-11 Since Aristotle genre has been one of the fundamental concepts of literary theory and much of the world's literature and criticism has been shaped by ideas about the nature function and value of literary genres Modern developments in critical theory however prompted in part by the iconoclastic practices of modern writers and the emergence of new media such as film and television have put in question traditional categories and challenged the assumptions on which earlier genre theory was based This has led not just to a reinterpretation of individual genres and the development of new classifications but also to a radically new understanding of such key topics as the mixing and evolution of genres generic hierarchies and genre systems the politics and sociology of genres and the relations between genre and gender This anthology the first of its kind in English charts these fascinating developments Through judicious selections from major twentieth century genre theorists including Yury Tynyanov Vladimir Propp Mikhail Bakhtin Hans Robert Jauss Rosalie Colie Fredric Jameson Tzvetan Todorov Gérard Genette and Jacques Derrida it demonstrates the central role that notions of genre have played in Russian Formalism structuralism and post structuralism reception theory and various modes of historical criticism Each essay is accompanied by a detailed headnote and the volume opens with a lucid introduction emphasising the international and interdisciplinary character of modern debates about genre Also included are an annotated bibliography and a glossary of key terms making this an indispensable resource for students and anyone interested in genre studies or literary theory

Eden's Endemics Elizabeth Callaway, 2020-08-04 In the past thirty years biodiversity has become one of the central organizing principles through which we understand the nonhuman environment Its deceptively simple definition as the variation among living organisms masks its status as a hotly contested term both within the sciences and more broadly In *Eden's Endemics* Elizabeth Callaway looks to cultural objects novels memoirs databases visualizations and poetry that depict many species at once to consider the question of how we narrate organisms in their multiplicity Touching on topics ranging from seed banks to science fiction to bird watching Callaway argues that there is no set generally accepted way to measure biodiversity Westerners tend to conceptualize it according to one or more of an array of tropes rooted in colonial history such as the Lost Eden Noah's Ark and Tree of Life imagery These conceptualizations affect what kinds of biodiversities are prioritized for protection While using biodiversity as a way to talk about the world aims to highlight what is most valued in nature it can produce narratives that reinforce certain power differentials with real life consequences for conservation projects Thus the choices made when

portraying biodiversity impact what is visible what is visceral and what is unquestioned common sense about the patterns of life on Earth *Eden's Bridge* David B. Doty, 2012-01-01 *Eden's Bridge* The Marketplace in Creation and Mission explores a biblically based theology of the marketplace implicit in the creation narrative of Genesis 1-2 The thesis validates the calling and ministry of all marketplace Christians David Doty invites readers to rethink and redirect the purposes of vocation trade and profit toward the purposes of God's Kingdom as they were revealed in the beginning and are to be restored in Christ's reign This book is eye opening and inviting as it explores how God is moving to reclaim the marketplace for His Kingdom and His redeeming purposes for the world of commerce The marketplace holds untold potential if business is conducted according to God's plan poverty can be eradicated abundant living can be shared among all people and shalom can prevail *Eden's Bridge* offers hope for recovering from the recent collapse of the global economic system by envisioning a new view of how wealth is made and how the marketplace is yet to serve God's purposes in His mission to the world **Eden's**
