Quest For Food And Furs:

The Quest for Food and Furs Edward Saunders Rogers, 1978 **The Subarctic Fur Trade** Shepard Krech III, 2011-11-01 Originally presented at the American Society for Ethnohistory conference in 1981 the papers in this book focus on themes which have been near the centre of fur trade scholarship the identification of Indian motivations the degree to which Indians were discriminating consumers and creative participants and the extent of Native dependency on the trade It spans the period from the seventeenth century up to and including the twentieth century In one of the key essays Arthur J Ray questions the theory that modern Native welfare societies are of recent origin and traces their roots to the early fur trade In developing his thesis his concerns about resource depletions and other ecological changes the advent of new mercantilistic impulses and the development of dependence also emerge as sources of inquiry by the other authors Papers by Charles A Bishop Toby Morantz and Carol M Judd focus on the North Algonquians in the eastern subarctic and earlier centuries of the trade while two final essays by Shepard Krech and Robert Jarvenpa and Hetty Jo Brumbach shift the focus to the North Athapascans in the western subarctic The Subarctic Fur Trade will help scholars become more fully aware of the issues concerned with Native economic history which are of common interest to scholars from many different disciplines It also illustrates the methods that are increasingly being used to arrive at empirically based answers to questions and which will when further refined lead to greater advances in fur trade scholarship **Rainy Lake House** Theodore Catton, 2017-09-15 Exiles in Indian Country weaves together the biographies of three men who cast their fortunes with the Western fur trade in the first quarter of the nineteenth century John Tanner was a white Indian who was taken captive and raised by Ottawa and lived among the Ottawa and Ojibwa for thirty years hunting across the northern forests and plains of present day Ontario Manitoba and northern Minnesota Dr John McLoughlin fled the law in Quebec at the age of eighteen to work for the Hudson s Bay Company in the Lake Superior region during its two decades of war with the North West Company Major Stephen H Long explored the northern borderlands in a time when the United States aimed to take over British Indian trade in its new western territories The three men met at the HBC s Rainy Lake House near the Boundary Waters in 1823 after Tanner was badly wounded while trying to take his daughters out of Indian country to save them from being raped by the white traders Foregrounding this incident Theodore Catton examines the events leading up to this fateful encounter through a Rashomon like tale about the British American Indian frontier Through these three colliding vantage points the book describes the world of the fur trade American British and Indian imperial capital and labor explorer trader and hunter In its competing viewpoints Exiles in Indian Country deftly crafts one grand narrative out of three and reveals the perilous lives of the white adventurers and their Indian families who lived on the fringe truly the hands of empire Provided by publisher **Pemmican Empire** George Colpitts, 2015 Pemmican Empire explores the fascinating and little known environmental history of the role of pemmican bison fat in the opening of the British American West **Fur News and**

Outdoor World ,1929 *Western Apache Heritage* Richard J. Perry,2014-04-21 A reconstruction of Apachean history and culture that sheds much light on the origins dispersions and relationships of Apache groups Mention Apaches and many Anglo Americans picture the marauding savages of western movies or impoverished reservations beset by a host of social problems But like most stereotypes these images distort the complex history and rich cultural heritage of the Apachean peoples who include the Navajo as well as the Western Chiricahua Mescalero Jicarilla Lipan and Kiowa Apaches In this pioneering study Richard Perry synthesizes the findings of anthropology ethnology linguistics archaeology and ethnohistory to reconstruct the Apachean past and offer a fuller understanding of the forces that have shaped modern Apache culture While scholars generally agree that the Apacheans are part of a larger group of Athapaskan speaking peoples who originated in the western Subarctic there are few archaeological remains to prove when where and why those northern cold dwellers migrated to the hot deserts of the American Southwest Using an innovative method of ethnographic reconstruction however Perry hypothesizes that these nomadic hunters were highly adaptable and used to exploiting the resources of a wide range of mountainous habitats When changes in their surroundings forced the ancient Apacheans to expand their food quest it was natural for them to migrate down the mountain corridor formed by the Rocky Mountain chain Perry is the first researcher to attempt such an extensive reconstruction and his study is the first to deal with the full range of Athapaskan speaking peoples His method will be instructive to students of other cultures who face a similar lack of historical and archaeological data
